

There were five or six passengers in the cars and a number of persons standing around. Some narrowly escaped being hit, and one or two of the passengers were injured by jumping out of the windows of the cars, to escape the flying glass. The train was started and fired several times by the engine, which was at the time being run by Mr. McKibbin.

Shipwreck - Men Eaten by Sharks.
An extraordinary case of double shipwreck is reported in the St. Christopher papers. The "Isabella," left Dominica early in May for the Spanish Main. On the night of the 24th of May a storm suddenly brewed up, a heavy sea struck the vessel and she became a total wreck. Nothing was saved but a trunk of money, and with this the captain and passengers got ashore. They then purchased a quantity of sugar, and chartered the "Isabella" of Dominica for half an hour, and then, without a moment's warning, a fearful storm struck the schooner, and she intermediately went down.

Twenty-one persons were washed off, and with great difficulty avoided the vortex of the sinking vessel. The boat fortunately got ashore, but the plug was out. For three hours they manly struggled to stop the hole, and at last it was done.

But meanwhile the sharks had taken off several of the miserable men, and only thirteen succeeded in getting into the boat.

They picked up the oars. It was quite dark, and when morning came they saw no land in any direction. For four days and three nights the wretched men, without a morsel of food and scarcely a vestige of clothing, labored at the oars, and on the morning of the 28th of July the boat reached St. Christopher, ten men being alive. But all in the last stage of exhaustion. One died almost immediately after being carried ashore. The rest were hospitably cared for.

Horrible Occurrence in Luzerne County - Wife Killed by her Husband - Mysterious Discovery of Her Remains.
We send you the following from the Pittston, Luzerne county, Pa., Gazette, of Oct. 28th:

One of the most appalling tragedies which has filled our lot to record occurred in this place last week. Early on Friday morning it was rumored that a woman living in White Oak Hollow, about two miles from this borough, had been brutally murdered by her husband, a man named Francis Burns, in the employ of the Pennsylvania Coal Company. The constables were immediately on the alert, and having ascertained that the report was well founded, a search was made for the supposed murderer. He was soon discovered in a goal bed for cave, near the town. His face, hands and clothes were besmeared with blood, and his behavior at once satisfied the bystanders of his guilt. The excited crowd which met the prisoner on his way to the justice's office, took possession of him, and demanded he should be lynched; and it was with the utmost difficulty the constable managed to rescue him from their grasp. During the hearing before Esquire Reddin the scene was one of great excitement; nothing would satisfy the excited populace but the immediate application of a lynch law. The prisoner, however, was eventually taken to the lock-up, and a coroner's jury summoned to hold an inquest on the body.

On arriving at the prisoner's residence, which is situated in one of the wildest spots of this section of country, the body of the murdered woman was found lying on a miserable apology for a bed, in a wretched hovel, which, with her husband and two children, she had inhabited for some months. Dr. Nugent and Dunken made the necessary examination of the body, and testified that the cause of death was contusion of the brain, produced by violence. One or two fresh wounds and several severe bruises were discovered on the body, but there was no fracture. A man named Cooper, being duly sworn, said: "Last night I heard some one hallooing, and blows being struck; while frequently known Burns to ill-use his wife."

Other witnesses were examined, who testified to the brutality of Burns; after which a verdict was rendered to the effect that she was murdered by him. Burns was then committed to Wilkesbarre jail.

The same day, (Friday), reports reached Pittston, that the remains of a human being had been discovered on Wychar's Island, near the Lackawanna, so far decomposed that identification was impossible.

The coroner, therefore, at the close of the inquest of the body of the unfortunate woman whose murder we have already mentioned, hastened with his jury to the spot, accompanied by many others, when sympathy or curiosity urged to follow. There hidden in a little nook, worn by water, lay all that was visible of a human body. It was lying on the back, the legs drawn under the body, but the head, strange to tell, turned completely round, and the face looked downwards in the earth.

The search instantly commenced. The bones of the unknown were in a good state of preservation, but much disturbed from their natural arrangement, while the flesh had entirely disappeared. The skull bore no marks of injury, except indeed the absence of one tooth from the upper and two from the lower jaw - and the only sign of violence discerned was a fracture of the right leg just above the ankle joint.

An inquest was held, at which it was determined that the body was that of Adam Michael, a German, who worked in the Upper Mines. The manner of his death was not stated, and the Gazette says:

"We are informed that there was a good deal of mystery attached to Michael's disappearance. He was very trustworthy and comical in his habits. It is said that he had no relatives in this part of the country, and had loaned most of his money to his friends."

Great and Lamentable Disaster.
This morning about 4 o'clock, imagine the consternation and distress of our citizens in the vicinity of market square, when the alarm was given that the great work of our "City Fathers," which attracts the admiring gaze of all strangers, was on fire. It would be useless to attempt a description of the scene, or to estimate the multitude that gathered around the burning of the proud building of our borough - one dear to the recollection of many of our people. We feel sensibly our inability to do justice to the subject, and will briefly state that Messrs Lane had been put in the Calabash last night, and set fire to the roof of said building this morning at 4 o'clock - about the time people commenced moving to market. It is reported that Aleck roared lustily. Such a yelling, it is said, has not been heard since Captain James W. They whipped out John M. Bowman, editor of one of the "National Democratic" organs in this place. It is represented by those who listened to him that the difference in the noise produced by these noble(?) fellows, was that Aleck roared like a lion and Bowman howled like a wolf.

We have no heart to pursue this subject further. The wails of the great edifice still remain minus the roof. After Aleck was taken out of the burning Calabash last night, the wenter, crying "You can't keep the old Captain!" - Echo.

A Shocking Affair.
The other day a gentleman named Watkins discovered, in Conemaugh borough three huge dogs worrying some object, and upon approaching them to his horror discovered that it was a child, about three years old. Upon the approach of Mr. Watkins two of the dogs retreated, while the third attacked him. He bested the dog and rescued the child in a horribly mutilated condition. The child, we believe, belong to a gentleman named Whittam, and is expected to learn it recovering from his injuries. - Echo.

Child Drowned.
A little daughter of Mr. Valentine Maltz, residing at Jefferson, in this county, aged about two years, was drowned in England's mill-race, at that place, on Thursday last, 22nd, which had fallen during the temporary absence of the mother. The body was recovered a short time after the occurrence, but all efforts to restore it to life proved unavailing. - Echo.

Blow Up.
Two of the pudding furnaces at the Cambria Iron Works blew up on Friday, in consequence of orders thrown in with the water coming in contact with the boiling metal. Not much damage, we are pleased to say, was sustained. - Echo.

Closing of the Portage Road.
The Portage Rail Road was closed for the season on Saturday last, and the Superintendent, Clerk, Weigh-master, slip tender, engineer, fireman, and depot hands are all discharged. All or nearly all of them are now out of employment. We shall wait patiently to see what will be the order of the day next spring. It is said that the company close this early in order to repair the canal thoroughly between this place and Huntingdon. - Standard.

The next legislature of this State will be strongly urged to prohibit the circulation of bank notes of a less denomination than ten dollars. Some very prominent gentlemen are in favor of carrying up the limit to \$25, so that paper as a currency shall not interfere with the free circulation of the highest denomination of coin. There is much reason in favor of \$25 notes as the lowest denomination of bank bills.

The citizens of Clearfield having a few days since elected a high school building, a minority dissatisfied from lynching him. He however made a confession, upon which several parties have been arrested.

"A Lady," asks the Portland Advertiser to request those who wear black silk stockings and their arms so high as to display the silk linings in their sleeves.

A Boy Murdered - At Paris a few weeks since, a boy, aged three years and a half, having been strangled this other day by the cook of the family, a woman of 46; he fell into the kitchen, seized a sharp pointed knife, and approaching the woman, who was sitting down, plunged the knife into her with such force, in the region of the heart, as to attain that organ and arrest its action almost instantaneously. - Standard.

WOODS HAIR RESTORATIVE.
This wonderful preparation is having an extensive sale in all parts of the Union. It is one of the few patent medicines which are now sold over the counter. It is really, what its inventor claims for it. Wherever it has had a fair trial, the result has been precisely as Wood predicts. It has never failed to turn the white hair back to the natural color, where the directions have been strictly followed, and numerous cases it has restored the hair upon heads that had been bald for years. It is not pretended that it will make the hair grow in every case, but where it fails there is certainly no remedy. The restoration of the hair has been effected in so many instances where the seemed utterly hopeless, that it is certainly worth while for all who have lost their hair to try the experiment of using a bottle or two of Woods' Restorative. - Moline Workman.

For sale here by all Druggists. -52-2w

WILLIAM A. MURRAY,
Attorney at Law, Ebensburg, Pa.
OFFICE A FEW DOORS EAST OF E. ROBERTS' STORE. [Nov. 4 '87.]

HATS, CAPS, AND FANCY FURS.
J. W. THOMPSON, in returning his thanks for their liberal patronage in the past, begs leave to inform them that he has just opened the largest and most complete assortment of HATS AND CAPS ever brought to the county. His stock is so large and the styles too numerous to mention, he will only say that you can get a HAT or CAP of any style or quality desired, that can be had at any store in the Union. Having taken great care in selecting his FUR STOCK, ALL the first manufacturers, and having a greater part of it made expressly to his order, he is enabled to sell goods in his line lower than can be sold elsewhere in the county. Those visiting Johnstown, in want of anything in his line will find it to their advantage to call and examine his stock. He has also a choice selection of Gent's fine Buckskin, seal skin, beaver and other fur gloves and gaiters. Hats and caps made to order and repaired. The highest cash prices paid for all kinds of shipping furs. J. W. THOMPSON, Clinton st., Johnstown, Pa.
Oct. 21, 1857-50-4f.

A complete catalogue of books sent free, by application through the mail, by addressing G. G. EVANS, 439 CHESTNUT ST., Philadelphia.

Agents wanted in every town in the United States. Those desiring so to act can obtain full particulars by addressing as above.

DR. SANDFORD'S
INVIGORATOR.
OR LIVER REMEDY.
IS REQUIRED TO CURE ANY ONE TROTTLED with Liver Complaints, unless the most desperate of cases, when the strong bottle will, with scarce a single failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician who has used it in his practice for the past twenty years, with a success almost incredible, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmares. One dose taken at each meal will cure Dyspepsia. One dose of two tea spoonful will always relieve Sick Headache. One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves Clitic, white. One dose often repeated is a sure cure for Cholera Morbus, and a sure preventative of Cholera. One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

DISTRIBUTION OF PARTNERSHIP.
THE PARTNERSHIP HERETOFORE existing under the firm of Mullin & Elmer, has been this day dissolved by mutual consent. The books will be left in the hands of Mullin for collection. JOHN MULLEN, THOMAS ELMER. Henslow, Oct. 24, 1857.

'COOR HOUSE NOTICE.
THE CAMBRIA COUNTY POOR HOUSE will be ready for the reception of paupers on and after the 28th of November, next. All those who are entitled by law will be admitted. The Directors will expect all paupers to appear in clean apparel and free from filth. W. PALMER, DAVID O'HARRA, Directors. Oct. 25, 1857-51.

Bargains! Bargains!!
Copper, and sheet-iron Ware, Merchants and others in want of TIN, COPPER OR SHEET-IRONWARE are respectfully invited to call and examine my stock, get up specimens for their own trade. It is the largest and best assortment to be found West of the mountains, made in a superior manner and of the very best materials. Having adopted all the improvements of the times in the trade, in machinery and materials, I am prepared to complete successfully with city manufacturers, in prices and terms.

Young America Target Pistol.
MANUFACTURING NEW HAVEN, CT.
THIS PISTOL IS INTENDED AS THE successor of the ordinary pistol and is designed for young men and boys who wish to enjoy the exciting sport of target shooting at the most trifling expense, and without any danger of accident. The cheapest ordinary pistol is three or four times the price of this besides being dangerous in the hands of boys. This Pistol is loaded with the common Fire Cracker, which is a complete safety, and will carry a ball ten or fifteen paces with the same precision as the ordinary pistol, but with sufficient force to do any serious damage. As America is a shooting nation, the Young Americans must and will learn the art by which our independence was secured. Hence this Target Pistol is exactly in time, and must meet with universal sale among our youth of the South and West. Its operation is perfectly simple, and it is not liable to get out of order. A full description will accompany every case of Pistols. The Pistols are put up at the Factory in cases of 50 each, ready to send by express to any part of the United States or Canada. RETAIL PRICE, 25 CENTS; BY THE CASE, \$7.50, OR 15 CENTS EACH. F. W. HAY, [New York Depot, 322 Broadway, N. Y.] AGENTS WANTED TO SELL THESE PISTOLS. Aug. 26, '76-42-10m.

ALL HAIL!!!
something for the Million!
PROP. WOOD'S
HAIR RESTORATIVE.
WE CALL THE ATTENTION OF ALL old and young, to this wonderful preparation, which turns back to its original color, gray hair - covers the head of the bald with an luxuriant growth - removes the dandruff, itching, and all cutaneous eruptions - causes a continual flow of the natural juices and restores, by its regular dressing for the hair, will preserve its softness and keep it from falling to extreme old age, and all its natural beauty. We call, then, upon the bald, the gray, or disheveled in scalp, to use it, and surely the young will not, as they value the flowing locks or winking curls, ever be without it. Its praise is upon the tongue of thousands.

Waterbury, Mass., May 1, 1854.
PROF. O. J. WOOD - Dear Sir - Allow me to testify the virtues and magic power of your Hair Restorative. Three months since, being exceedingly gray I purchased and soon commenced to use two bottles, and it soon began to tell, in restoring the silver locks to their native color, and the hair which was before dry and harsh, and falling off, now became soft and glossy, and ceased falling; the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again. Respectfully yours, &c. CHAS. WHITNEY.

New York, Oct. 2, 1855.
PROF. O. J. WOOD - Dear Sir - After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half pint bottle, and was so much pleased with it that I continued its use for two months, and am satisfied that it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and I have no doubt, permanently so. You have permission to refer to me, all who entertain any doubt of its superiority as it is claimed for it. MISS PECKS, 261 Greenwich Av.

I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth - much more so than oil. MARY A. ATKINSON, Louisville, Nov. 1, 1856.

State of Illinois, Carlisle, June 27, 1855.
I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt, permanently so. RICHARD BENNETT, Ex-Secretary United States. [From the Washington Star.] Among the many preparations now in use for the restoring, preserving and beautifying the hair there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative; now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the required results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefited by its use, and who feel happy in giving testimony to its wonderful effects produced on them. O. J. WOOD & Co., Proprietors, 812 Broadway, New York, and 114 Market st., St. Louis, Mo. For sale here by all Druggists.
