

There were five or six passengers in the cars and a number of persons standing around. Some narrowly escaped being killed, and one or two of the passengers were injured by jumping out of the windows of the cars, to escape the flying bullets. The train was arrested and fired several times by the assassins.

At a shipwreck—Men Eaten by Sharks. An extraordinary case of double shipwreck is reported in the St. Christopher papers. The "Rosabella" left St. Christopher early in May for the Spanish Main. On the night of the 25th of May a storm suddenly broke up, a heavy sea struck the vessel and she became a total wreck. Nothing was saved but a trunk of money, and with this the captain and passengers set ashore. They then purchased a small steamer, and chartered the "Esther" for half an hour, and then, without a moment's warning, a feverish storm struck the schooner, and she instantaneously went down.

Several persons were washed off, and with great difficulty avoided the vortex of the sinking vessel. The boat fortunately got afloat, but the plug was out. For three hours they madly struggled to stop the hole, and at last it was done.

But meanwhile the sharks had taken off several of the miserable men, and only three succeeded in getting into the boat.

They picked up the oars. It was quite dark, and when morning came they saw no land in any direction. For four days and three nights the wretched men, without a morsel of food and scarcely a vestige of clothing, labored at the oars, and on the morning of the 9th of July the boat reached St. Christopher, ten men being alive, but all in the last stage of exhaustion. One died immediately after being carried ashore. The rest were hospitably cared for.

Howard T. Towler, the fifth place of Gen. Wm. F. Parker, gave him a majority of thirteen votes. Therefore it always has been notoriously liable to the measure of the Democratic party, and gave on this occasion its first Democratic victory. There is now residing in this township an agent and spy, who is endeavoring to stir up the feelings of the Democratic party.

The borough of Sunbury, where General Parker was born, has a population of 1,500. The town of Sunbury, where General Parker was born, has a population of 1,500. The town of Sunbury, where General Parker was born, has a population of 1,500.

At an inquest was held, at which it was determined that the body was that of Adam Michael, a German, who worked in the "Upper Mines." The manner of his death was not stated, and the Gazette says:

We are informed that there was a good deal of mystery attached to Michael's disappearance. He was very trustworthy and economical in his habits. It is said that he had no relatives in this part of the country, and had loaned most of his money to his friends.

PHILADELPHIA, Nov. 2.—The following is a statement of the condition of the Pennsylvania Bank: Resources, \$2,800,000; liabilities, exclusive of capital, \$2,400,000; including capital, less \$175,000; held of its own stock, \$1,000,000; of the resources, the appraised set down \$1,300,000 as good, leaving \$1,500,000 of doubtful and bad.

Should there be no loss in the collections, equal to about \$21 per share, on the entire capital of the bank, half of the doubtful resources are probably worthless; so that the deficit will be \$350,000, leaving nothing for share holders.

The Philadelphia Bank has accepted the provisions of the Relief Law. The example will probably be followed by other banks, who will join in the complaint against the Pennsylvania Bank as insecure, so as to relieve themselves from the liability of taking the notes of that institution.

Suits are accumulating against the Reading Railroad Company on its protested paper. It being about the last term of the Court, if there is no appearance entered the complaints obtain judgment in ten days; if appearance are entered, judgment is deferred to the third Saturday of the term which begins to-day.

Can a Minister Marry a Divorced Woman.—Rev. Mr. Shields of Iowa, has been silenced by the Presbytery of Des Moines, for marrying a woman who had been divorced by the laws of Iowa, and appealed to the Synod, and his appeal was sustained. The Synod expresses its opinion that the action of the Presbytery was correct in form, and suggested by a laudable zeal in the service of the church; and, although respecting Mr. Shields, does not approve of a marriage.

In Favor of Taking Something.—Rev. Mr. Spurgeon takes pains to publish to say that he is not a total abster, and does not believe in the principle of total abstinence from intoxicating drinks as a beverage. He occasionally takes something himself.

Horrible Occurrence in Luzerne County—Wife Killed by her Husband—Mysterious Discovery of Human Remains.

We condense the following from the Pittston, Luzerne county, Pa., Gazette, of Oct. 28th:

One of the most appalling tragedies which has fallen on our lot occurred in this place last week. Early on Friday morning it was rumored that a woman living in White Oak Hollow, about two miles from this borough, had been brutally murdered by her husband, a man named Francis Burns, in the employ of the Pennsylvania Coal Company. The constables were immediately on the alert, and having ascertained that the report was well founded, a search was made for the supposed murderer. He was soon discovered in a coal bed or cave, near the town. His face, hands and clothes were besmeared with blood and his behavior at once satisfied the bystanders of his guilt. The excited crowd which met the prisoner on his way to the justice office, took possession of him, and demanded he should be lynched; and it was with the greatest difficulty the constable managed to rescue him from their grasp.

On arriving at the prisoner's residence, which is situated in one of the wildest spots of this section of country, the body of the murdered woman was found lying on a miserable apology for a bed, in a wretched hovel, which, with her husband and two children, she had inhabited for some months. Drs. Nugent and Dunkin made the necessary examination of the body, and testified that the cause of death was concussion of the brain, produced by violence. One or two fresh wounds and several severe bruises were discovered on the body, but there was no fracture. A man named Cooper, being duly sworn, said:—Last night I heard some one hallooing, and blows being struck; I have frequently known Burns to ill-use his wife.

Other witnesses were examined who testified to the brutality of Burns; after which a verdict was rendered to the effect that she was murdered by him. Burns was then committed to Wilkesbarre jail.

The same day, (Friday), reports reached Pittston, that the remains of a human being had been discovered on Neverset's Island, near the Lackawanna, so far decomposed that identification was impossible.

The coroner, therefore, at the close of the inquest of the body of the unfortunate woman whose murder we have already mentioned, hastened with his jury to the spot, accompanied by many others, whom sympathy or curiosity urged to follow. There hidden in a little nook worn by water, lay all that was visible of a human body. It was lying on the back, the legs drawn under the body, but the head, strange to tell, turned completely round, and the face lanced downwards in the earth.

The search instantly commenced. The bones of the unknown were in a good state of preservation, but much disturbed from their natural arrangement, while the flesh had entirely disappeared. The skull bore no marks of injury, except a fracture of the occipital bone from the upper end of the lower jaw—and the only sign of violence discerned was a fracture of the right leg just above the ankle joint.

When all the white people of the United States reduce their property to the West, it makes a difference of eighteen millions of dollars a week, and over 400 millions every month.

Removed Flight of Walker and Stanton. New York, Oct. 31.—A private dispatch from Lawrence, K. T., says that Gov. Walker and Secretary Stanton were obliged to leave Leominster, on account of the threats of the ultras, and are now at Beneca. Sheriff Walker, with a posse of his men, is with the Governor. A special messenger was sent for Col. Sumner's command. A document was circulated in Lawrence, inviting Gov. Walker to come to that place, and pledging the protection of its citizens.

Western Emigration. Considerable temptations are now held out to induce persons to emigrate to the West. Property is sold for sale at low rates in many places; and the speculators who so completely stir up the ambition of the actual settlers, are effectually crippled, and must either sell out at a sacrifice, or have their resources permanently locked up in much land is always for sale cheap in every district, and the search of a location need never be at a loss to find a more advantageous one. It is fortunate for the country at large that this is so, for if the prospect of a great food of emigration to the west next spring holds good, it will exercise a very important influence in restoring to us a prosperous condition. The extensive inflation creates an outlet for the west, the immense speculations in the market for building new towns, have had much to do with the present depression, though, of course, not the primary cause. If then, the emigration should require this winter and next spring and summer, as it probably will, owing to the existing distress in the Atlantic States, the west will improve in its condition, and by being able to pay its debts more promptly, it will infuse fresh spirit into eastern trade.

Prayers for the Hard Times. The following new prayers have been directed to be offered up in the Episcopal Churches in the Philadelphia Diocese by Bishop Potter, and continue during the present disastrous condition of business affairs:—'Oh, most mighty God! King of Kings, and Lord of Lords, without whose care the watchman waketh up in vain, we implore, in this our time of need, thy succor and blessing in behalf of our rulers and magistrates, and of all the people of this land. Remember our many and great transgressions; turn from us the judgments which we feel or fear and tempt, and faithfulness to do, and patience to endure, whatsoever shall be well-pleasing in thy sight; that so thy chastenings may yield the peaceable fruits of righteousness, and that at last we may rejoice in thy salvation, through Jesus Christ our Lord. Amen.'

Solomon McCullough, Esq., is to be pleased to learn that Solomon McCullough, Esq., of this county, in this county, has been appointed Superintendent of Construction of the Washington City Water Works, at a handsome salary.

Great and Lamentable Disaster.—This morning about 4 o'clock, imagine the consternation and distress of our citizens in the vicinity of market Square, when the alarm was given that the great work of our "City Fathers," which monument of architectural grandeur, that which attracts the admiring gaze of all strangers, was on fire. It would be useless to attempt a description of the scene, or to estimate the multitude that gathered around the burning of the pre-dest building of our borough—one dear to the recollection of many of our people. We feel sensibly our inability to do justice to the subject, and will briefly state that, about 4 o'clock, the fire broke out in the building, and set fire to the roof of said building, which morning had 4 o'clock about the time people commenced moving to market. It is reported that Aleck roared loudly. Such a yelling, it is said, has not been heard since Captain James W. Eney whipped out John M. Bowen, editor of one of the "National Democratic" organs, and placed to his horror by those who listened to "high talk" the only difference in the noise produced by these noble fellows was that Aleck roared like a lion and Bowen howled like a scall.

We have no heart to persevere in this subject further. The subject of the monument still remains minus the top of the dome, and the only thing left of the burning Colosseum he "took the water" saying "You can't keep the old Captain!"—Echo.

A Snapping Affair.—The other day a gentleman named Watkins discovered, in Connecticut, a pair of huge dogs worrying some sheep, and upon approaching them, to his horror discovered that it was a child of about three years old. Upon the approach of Mr. Watkins one of the dogs retreated, while the third attacked him. He beat the dog off and rescued the child in a horribly mutilated condition. The child, we believe, belongs to a gentleman named Williams, and we are anxious to learn it is recovering from its injuries.—Echo.

Child Drowned.—A little daughter of Mr. Valentine Maltz, residing at Jefferson, in this county, aged about two years, was drowned in English Kill, near the place, on Thursday last, which it had fallen during the temporary absence of the mother. The body was recovered a short time after the occurrence, but all efforts to restore it to life proved unavailing.—Echo.

Brown Up.—Two of the puddling furnaces at the Cambria Iron Works blew up on Friday, in consequence of cinders thrown in with the water coming in contact with the boiling metal. Not much damage, we are pleased to say, was sustained.—Echo.

Closing of the Portage Road.—The Portage Rail Road was closed for the season on Saturday last, and the Superintendent, Clerk, Weighmaster, slip tender, engineer, firemen, and depot hands are all discharged. All or nearly all of them are now out of employment. We shall wait patiently to see what will be the order of the day next spring. It is said that the company close this early in order to repair the canal thoroughly between this place and Huntingdon.—Standard.

The next legislature of this State will be strongly urged to prohibit the circulation of bank notes of a less denomination than ten dollars. Some very prominent gentlemen are in favor of carrying up the limit to \$25, so that paper as a currency shall not interfere with the free circulation of the highest denomination of coin. There is much reason in favor of \$25 notes as the lowest denomination of bank bills.

The citizens of Clearfield having a few days since caught a horse thief, were with difficulty dissuaded from lynching him. He however made a confession, upon which several parties have been arrested.

A Boy Murdered.—At Paris a few weeks since, a boy aged three years and a half, having been contradicted the other day by the cook of the family, a woman of 45, rushed into the kitchen, seized a sharp pointed knife, and approaching the woman, who was sitting down, plunged the knife into her with such force, in the region of the heart, as to attain that organ and arrest its action almost instantaneously.

WOOD'S HAIR RESTORATIVE.—This wonderful preparation is having an extensive sale in all parts of the Union. It is one of the few patented medicines which are now sold over the country that are really what their inventors claim for them. Wherever it has had a fair trial, the result has been precisely as Wood predicted. It has never failed to turn the white hair back to the natural color, where the directions have been strictly followed, and numerous cases have been restored the hair upon heads that had been bald for years. It is not pretended that it will make the hair grow in every case, but where it falls there is certainly no remedy. The restoration of the hair has been effected in so many instances where the seemed utterly hopeless, that it is certainly worth while for all who have lost their hair to try the experiment of using a bottle or two of Wood's Hair Restorative.—[Moline Workman.] For sale here by all druggists.—52-2w

There are hundreds of remedies sold at every Drug Store, purporting to cure all diseases, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception. We speak of Dr. Sandford's "Invigorator," which came to us recommended as a "cure" for Liver Complaints, and all diseases arising from a Disordered Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now convinced we are certain that it is one of the greatest blessings ever given to Dyspeptics, for it makes a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before nothing but the lightest food would digest and often that gave us much trouble, what we want to say to all our readers is, if you have Liver Complaint or Dyspepsy trouble you, do not fail to try this great remedy in the world.

DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY. IS REQUIRED TO CURE ANY ONE TROUBLED WITH LIVER COMPLAINTS, unless the most desperate cases, when the second bottle will, with scarce a single failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the Invigorator is recommended by a physician who has used it in his practice for the past twenty years, with a success almost incredible, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of Colman without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all yellowness or unnatural color from the skin. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One dose taken at night loosens the bowels gently, and cures constiveness. One dose taken after each meal will cure Dyspepsia. One dose of two tea-spoonfuls will always relieve Sick Headache.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves Clotting, while One dose often repeated is a sure cure for Cholera Morbus, and a sure preventative of Cholera. One dose taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known. Thousands of cases of inflammation and weakness of the lungs have been cured by the Invigorator. One dose taken a short time before eating gives vigor to the appetite and makes food digest well. One dose often repeated cures Chronic Diarrhea in its worst forms, while summer and bowel complaints yield almost to the first dose. One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world as it never fails.

There is no exaggeration in these statements, they are plain and sober facts, that we can give evidence to prove, while all who use it are giving their unanimous testimony in its favor. We wish all who are sick and debilitated to try this remedy, and test it thoroughly, and any who are not benefited by its use we should like to hear from, as we have yet a bottle of the Invigorator without receiving benefit, for such astonishing medicinal virtues in it, that all, no matter how long they have been affected, if their complaint arises from a deranged liver, will be benefited if not entirely cured. SANFORD & CO., Proprietors; 845 Broadway, New York. For Sale here by all Druggists. Nov. 4, 1857.—5m.

Young America Target Pistol. MANUFACTURING NEW HAVEN, CT. THIS PISTOL IS INTENDED AS THE GUARANTEE of the ordinary pistol and is designed for young men and boys who wish to enjoy the exciting sport of firing at a target, at the most trifling expense, and without any danger of accident. The cheapest ordinary pistol is three or four times the price of this besides being dangerous in the hands of boys. This Pistol is loaded with the common Paper Cracker, which forms a complete cartridge, and will carry a ball ten or fifteen paces with the same precision as an ordinary pistol, but not with sufficient force to do any serious damage. As America is a shooting nation, the Young Americans must and will learn the art by which our independence was secured. Hence this Target Pistol is exactly in time, and must meet with universal success among the youth of the South and West. Its operation is perfectly simple, and is not liable to get out of order. A full description will accompany every case of Pistols. The Pistols are put up at the Factory in cases of 50 each, ready to send by express to any part of the United States or Canada. ALL HAIL!!! Something for the Million! PROP. WOOD'S HAIR RESTORATIVE. WE CALL THE ATTENTION OF ALL old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—gives a continual flow of the natural fluids, and hence, it is a regular dressing for the hair, will preserve its color, and keep it from falling to extreme old age, as is all its natural beauty. We call, then, upon the bald, the gray, or diseased in scalp, to use it, and surely the young will not, as they value the flowing locks or winking curls, ever be without it. Its price is upon the length of thousands.

Waterbury, Mass., May 1, 1854. PROF. O. J. WOOD says: Allow me to attest the virtues and magic power of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced using two bottles, and it soon began to tell, in restoring the silver locks to their native color, and the hair which was before dry and harsh, and falling off, fell again, and the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again. Respectfully yours, etc. CHAS. WHITNEY.

New York, Oct. 2, 1852. PROF. O. J. WOOD.—Dear Sir:—After reading the advertisement in one of the New York journals, of your celebrated Hair Restorative, I procured a half pint bottle, and was much pleased with it, that I continued its use for two months, and am satisfied that it is decidedly the best preparation before the public. It is as certain as removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and I have no doubt, permanently so. You have permission to refer to me, all who entertain any doubt of its not performing all that is claimed for it. MISS FEENE, 261 Greenwich Av.

I have used Professor O. J. Wood's Hair Restorative, and have admitted its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth—much more so than oil. MARY A. ATKINSON, Louisville, Nov. 1, 1856.

State of Illinois, Carlisle, June 2, 1854. I have used Professor O. J. Wood's Hair Restorative, and have admitted its wonderful effects. My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt, permanently so. SILVEY BRESE, Ex-Senator United States.

[From the Washington Star.] Among the many preparations now in use for the restoring, preserving and beautifying the hair there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative; now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefited by it, and who feel happy in giving testimony to its wonderful effects produced on them.
