AF The Sheriff's Sales were received this wsek, just as we were preparing to go to press, which accounts for the non-appearance of our paper on the regular publication day.

WEG ARE THE FRIENDS OF THE NATIONAL ADMINISTRATION?

We find in the Southwest corner of the last number of the "National Democrat," better known as the "Thug organ, No. 2 ." the following paragraph which we cannot with justice to ourselves pass over in silence : Very Strange .-- Two anti-Administration gone by, contains enough of the "gall of organs urging the appointment of Dr. W. A Smith to a position as an officer of the National Government. Who holds the next-in order arte-election pledge from the Smithies?

Since the appearance of the first number of the " National Democrat," we have taken little or no notice of it or its Editors. Indeed the castigations which were weekly administered to them by Smith of the " Echo," were so well timed and handsomely adminisused, that we deemed any interferance on cur part quite unnecessary We knew well toat the paper was owned, edited controlled by Know-Nothings, and we told our readers so on the receipt of the first number. We thought then and still think, that a certain prominent Know-Nothing, who is great on have they perceived this with astonishment "Editorial Brevitics," had and still has more and regret?" but if he should he defeated, of one thing we may then rest assured; " Thug organ No. 2," had nothing whatever to do with bringing about the result.

THE BEDFORD GAZETTE AND GEORGE N. SMITH.

When George W. Bowman resigned the editorial climit of the "Bedford Gazetta," we confidently believed that the new editors, Messrs. Meyers and Beniord, would not feel themselves bound to pursue the pathway, which their illustrious predecessor had trod with a devotion worthy of the most devoted admirer, of billingsgate slang and low filthy bla-

guardism in the State. We hoped and believed, that the new editors would carefully refrain from meddling in the local politics of this county, and that they would not attempt

like Bowman, to dictate to the Democracy of Cambria, who are proper men to represent them in the State Legislature and who are not. In this hope, we have been disappointed. The last number of the Gazette contains an editorial article which although not characterized by the ability and terseness of the "leaders" of the "Gazette," in days bitterness," to be recognized as a legitamate production of the illustrious General. This Bedford county oracle starts out with a touching announcement, of the hely berror with which its intensely Democratic editors,

have received the intelligence, that it is highly probable that George N. Smith, the "gendeman from Cambria." will be the Speaker of the next House of Representatives of this State These illustrious political censors, are pleased to inform us, that they have no tiend with astonishment and regret, that several of their Democratic exchanges, propose George N. Smith for the Speakership of the next House of Representatives. And why
