HOW IT_WAS DISCOVERED.

In the fall of 1854, a daughter of Mr. Lindsey was suffering from a malignant attack of Cancrum Oris (Canker of the mouth.) She had pre-viously been prostrated by the attacks of Dysentary, Inflamation of the Lungs and Hectic Fever, successively, which resulted in the above named disease in its worst forta. But hear from their own lips and then judge of its valuable effects. The few testimonials that follow show that it is deservedly styled the Great-

mproved Blood Searcher, I find a very decided improvement. Indeed, my acquaintances frequently remark, that I look so "fat and hearty." and I know of no other cause than the use of your Improved Blood Searcher. Judging from my own experience, I believe this is one of the most valdable medicines that woman can use, especially those who are or have entered upon the decline of life (from 40 to 50 years of age.) I feel that t would have been above ingratitude on my part o have withheld this testimony, and in thus conenting to appear as a witness before the public have been actuated solely with reference to the oice of conscience and duty. You are at liber. y to make whatever use you may deem proper of this statement.

Yours, respectfully, MARGARET W. O'DONNELL.
