Reading Out of the Party.

We have been frequently accused since the commencement of the controversy, with regard to the admission of Kansas into the Union, under the Leocompton Constitution, with having attempted to read certain men out of the Democratic party.

The Democratic party is an organization of fixed and immutable principles. All who endorse and sustain those principles, are its members, followers and friends; those who oppose them are its enemies.

We will not stop now to inquire who were the friends and enemies of the Democratic party, during the "Leocompton controversy."

Resolved, That this Board will receive plans and specifications for the erection of a Monument to the memory of the citizens of Pennsylvania who were slain or lost their lives in the late war with Mexico.

Resolved, That we adjourn to meet at 10 o'clock, A. M., July 1st, at the Executive Office, Harrisburg.

How to PROMOTE HEALTH.—American mothers are doomed to early graves in consequence of their sedentary in-door employment.

once perceive the error of their ways, and return forthwith to the Democratic fold.

The men who are now in the habit of talking about being read out of the party, were the very first to take sides with Horace Greeley and Fred Douglass, on the Kansas question and then whining is the result of the consciousness which rests on their minds.

"Avant and quit my sight, Thou canst not say I did it, Never shake thy gory locks at me."

DEMOCRATIC VICTORY.

The municipal election last week in the City of Johnstown (better known in the olden time as Johnstown) resulted in a brilliant triumph for the Democratic Party.

From Utah.

The city papers yesterday, contained a rumor received via St. Louis, that the Mormons had laid down arms, and that Governor Cummings had taken formal possession of Salt Lake city.

MONUMENT COMMISSIONERS.

The Commissioners appointed by the act of the Legislature to receive proposals and make arrangements for the erection of a Monument in memory of the Pennsylvania volunteers who fell in the Mexican War, met at Harrisburg, on Thursday last, in the Executive chamber, Capitol buildings.

On motion of Gov. Geary, His Excellency Gov. Paeker was called to the Chair.

Gov. Paeker, upon accepting the position stated that all he could do should be done towards the erection of an appropriate Monument. The object was one worthy of the State.

Bribes, Frauds, and Corruption—Violations of State Sovereignty.

These words must, by this time, have become sadly worried in the part they have been forced to play in reference to affairs in Kansas. We are sure if they could speak and have a right to sue for slander, libel, and misuse, the Republican press, orators, and statesmen would fare badly on account of the injuries done them in this whole territorial controversy.

Speaking of the passage of the Conference bill, the Times says:

"The land bribe will have no effect, for it gives the people nothing that they will not have in any event."

Democratic Policy Vindicated by Time.

From the Cincinnati Enquirer.

It would be well for every Democrat who contemplates an abandonment of his party on the present Kansas issue to ponder, before severing his old associations, one prominent and significant fact, viz: That every great move of the Democratic party, from the foundation of the Government in the closing days of the Administration of President Pierce, though assailed by a powerful and unscrupulous opposition, has finally received the popular approval.

We choose to believe, in accordance with the unbroken chain of history, that the great proposition for the settlement of the Kansas question, now supported by the Administration, will, two years hence, be as popular as any act upon the statute book of our nation.

The first great struggle the American Democracy had with their political opponents was that which sprang out of their opposition to the Alien and Sedition laws of the elder Adams.

The War of 1812 and the supplies for carrying it on were voted and carried against a thousand protests, even from the sacred desk.

The Bank of the United States, surrounded and defended by wealth and power, intellect and paucity, went down before the fierce assaults of the Democracy, headed by their gallant chieftain, Andrew Jackson; and the last pillars of such an institution crumbled before the noblest Democratic minority of which parliamentary history can boast.

The Kansas policy of the Democratic Administration at Washington is now assailed with about the same bitterness that has ever characterized the opposition to leading Democratic measures and policy, and with about as much justice.

The aggregate wealth of the United States amounts to \$12,000,000,000, and the population is 24,000,000 souls.

MARRIED.

At the residence of the bride's father, on Tuesday morning the 18th inst., by the Rev. D. Harrison, Dr. J. LOWMAN of Johnstown, to Mrs. MARY J. HEYER, daughter of J. Moore, Esq., of Ebensburg.

DIED.

In Munster township, on Wednesday, 19th inst., Mr. John Myers, in the 67th year of his age. Funeral will start from his late residence at 9 o'clock A. M.

The venerable Gen. Charles Fenton Mercer, well and favorably known throughout the United States, died near Alexandria, Va., on Tuesday, in the 80th year of his age.

One of our contemporaries says, with great truth, that it is a proud thing to be a Democrat.

Coval with the Constitution, the old party has defended it and preserved it from every assault, and is as fresh and vigorous now as when led by Jefferson against the Alien and Sedition Laws, or Jackson against the Bank. Every issue that is made against it, results in a public confession by all its opponents, of the truth of the Democratic principles and the wisdom of Democratic policy.

Now that the Democratic party is at the summit of political power and prosperity in the United States—now that the intelligence and patriotism of the country have fully embraced the Democratic creed—the Democratic organization through which this history is in danger of being regarded as an institutionally whose work is unaccomplished, and which may now be thrown aside. No view can be more erroneous.

It will not be questioned by Democrats that to the action of the Democratic party—the Democracy marshaled and united, and so triumphing over all the forces of opposition to it—every great step in our national progress and every successful approximation to the principles of good government in our domestic policy, are due.

Against all these forms of peril and evil, the unbroken organization of the Democratic party is the only safe defence.
