ANN ARBOR, Nov. 5, 1856. PROF. O. J. Wood-Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrun.s, hair dyes, I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of of your Restorative in my family-first by my good wife. whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its originrl beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its heathful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effeets; therefore, my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and and confidentially recommend its use by all who would have their hair restored from white or gray by reason of sickness or age) to original color and beanty, and by all young persons who would have their hair beautiful and glossy. M. LINDSEY'S GREAT MEDICAL DIS-COVERY! -Which is a purely regetable Preparation, for the purifying of the blood, giving vigor to the Liver, stomach and bowels, and expelling from the system all morbid matter, and substituting in its stead a healthful activity thro

all the functions of life. HOW IT WAS DISCOVERED. In the fall of 1854, a daughter of Mr. Lindsey was suffering from a malignant attack of Cancrum Oris (Canker of the mouth.) She had previously been prostrated by the attacks of Dysgramme of premiums for the season of 1858 and entary, Inflamation of the Lungs and Hectic Fever, successively, which resulted in the above named disease in its worst form. Her condition was most deplorable—her month and cheek were literally rotten—the attending physician pro-nounced the case a hopeless one. Everything inaicated a speedy and horrible death-a death of rotting out of life! At this critical juncture, Mr Lindsey prepared a compound for the purpose of alleviating, possible, the pains of the little sufferer. She was made to use it freely, and in a short time, to his most delightful astonishment, there

was a very perceptible change for the better .-

The month began to put on a bright and healthy

appearance-the foul breath became sweet-the

partake of a new and fresh life. Hope was inspired, and the use of the compound was faithfully continued, the result of which, with the blessing of God, was her complete restoration. She is now perfectly healthy! From this circumstance, Mr. Lindsey was led to prepare with greater care and exactness, what had so astonishly cured his child, and continued his experimental efforts until he succeeded in bringing to perfection his Great Remedy for Blood Impurity-since which time its effects have been almost miraculous. Hundreds upon hundreds, by it, have been snatched from an untimely grave and restored to the sweets of health and the endearments of friends. The young and old have tested its saving powers and sing aloud its virtues. Say they-"after using Lindsey's Improved Blood Searcher, we felt as if a new life was stirring our veins, and under God we owe to 6c | it more than words can express.

DESPERATE CASE OF AGUE AND A Dyspepsia entirely cured by the use of Lindsey's "Improved Blood-Searcher." Bluir county, ss :- Personally appeared before me, the subscriber, one of the Justices of the Peace, in and for said county, John Moran, who being duly swern according to law, doth depose and say that, in the spring of 1256, I was a victim to that worst of diseases-dyspepsia, and that in iss worst form. My appetite was completely gone, and when, in order to preserve life, I would oree myself to swallow a mouthful of food, the stomach would immediately loath it, and cast it forth with the spittle. I had also been suffering from the Ague; each attack lasting about nine months out of the twelve, so that, with the aguit and dyspensia, I was reduced as I though beyond recovery; I thought I must die; my physician could do me no good. Such was my condition, when Mr. Lindsey supplied me with a bottle of his Improved Blood Searcher, assuring me it would work a cure. I commenced its use with but little confidence, but in one week's time-so great was its restorative powers-i fourd my appetite to return, my stomach received a new tone so that I could eat anything without the slightest inconvenience, and before its bealing touch the ague fled as from a charm; nor have I been troubled with ague or dyspepsia since. I enjoy a better state of health than I had done for fifteen years before; I am strong and hearty, and I feel confident that, under the blessing of God, I own all to the invaluable Improved Blood Searcher. I believe it not to be only a sure remedy for ague but an infallible preventative, and, as such, I would recommend it to all whose business, habits or residences, expose them to this dreadful pest of humanity. Dyspepsia cannot stay where the Improved Blood Searcher is properly used. I feel it my duty to point all who suffer, to this

all- healing medicine. (Signed,) Sworn and subscribed this 18th day of March, JOHN COX, J. P. A. D., 1857.
