the dissolution of the Union. Such persons, it is true, do exist among us, denationalized women, unhappy that they are not men: denationalized men, unworthy even to be women. They, also, will assemble somewhere to-day, not as Americaus, but as libellors and

vituperators of Americaus-to desecrate some venerable church, er deäle some sylvan shade 1 00 -- to say how much they love all black men. 2 00 and how much they detest all white onesand in the profaned name of Liberty to proclaim their unappensable counity to the Union, to the Constitution, to the Bible, and to their Country.

Well, be it so What, are there not Americans enough in heart as well as in name, to to 00 preserve the integrity of the Union in spite with of all these ratings of unlosed Bedlam? Aye ill be ten, twenty, thirty millions of such devoted Americans, devoted to the Union, and who, if need were, could and would, occasion requiring, devour and swallow up this handful of Negrophilist Union haters, as the boiling which of Niagara overwhelms the slight skiff of some intoxicated Indian. Yes, we are strong enough in the light of our freedom and in the vigor of our country to tolerate and to pity all such impotent foes of the Union. I say to tolerate and pity them; for when I witness their ebullitions of wild wrath as they speak of the American Union. I become sure that their souls are writhing with distracted and "treubled thoughts" of the fallen spirit. Each one of them, as he gazes at the day star of the Union, seems with desperate passion to say :---

SEIRMISH WINH THE BUFFALOES .- An officer of the army, writing to the New York Herald from the Camp on the Platte says :---On the 4th of July we first struck the buffslo. The excitement was intense. The recruits, in their enthusiasm, 1r ke through discipline, and blazed away at a small herd crossing the road in front of them. Some three or four bu'ls ran parallel to a light battery, when the artillerists commenced peppering them with Colt's revolvers Stung by these leaden pellets the animals wheeled in like and charged the battery will the most warlike intentions. Down they came with glaring eyes, and away went the horses and pieces in the most inglorious manner. One quarter of a mile into the prairie before the affrighted horses became manageable. The dragoons and infantry of course had a hearty laugh at the vanqu's'ed a tilery; but had they been charged, on -half of the former would probably have found a seat somewhere else and the latter scatterel rapidly without standing at all on the order of their going -Indeed, if there is any military composed of flesh and blood, capable of stolidly withstanding the charges of an infuriated herd of buffaloes, I have yet to find it out.
