Aver's Sarsaparilla

A compound remedy, in which we have la-

bored to produce the most effectual alterative

that can be made. It is a concentrated extract

of Para Sarsaparilla, so combined with other substances of still greater alterative power as

to afford an effective antidote for the diseases

Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who

suffer from Strumous complaints, and that one

which will accomplish their cure must prove

of immense service to this large class of our

afflicted fellow-citizens. How completely this

compound will do it has been proven by exper-

iment on many of the worst cases to be found

This compound will be found a great pro-

moter of health, when taken in the spring, to

expel the foul humors which fester in the

blood at that season of the year. By the time-

ly expulsion of them many rankling disorders

are nipped in the bud. Multitudes can, by

the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous

sores, through which the system will strive to

rid itself of corruptions, if not assisted to do

this through the natural channels of the body

by an alterative medicine. Cleanse out the

vitiated blood whenever you find its impurities

bursting through the skin in pimples, cruptions,

or sores; cleanse it when you find it is ob-

structed and sluggish in the veins ; cleanse it

whenever it is foul, and your feelings will tell

you when. Even where no particular disorder is felt, people enjoy better health, and live

longer, for cleansing the blood. Keep the

blood healthy, and all is well; but with this

pabulum of life disordered, there can be no

lasting health. Sooner or later something

of the following complaints : --

THE BLOOD.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the rangements to which it is liable. name from the load of obloquy which rests To prove that this remedy is upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
