It seems that the Sheriff of that county had arrested one of Montgomery's band, and had im kept in a hotel room for want of a jail. -The estersible object of the attack was the release of this prisoner. So the new governor finds another war, on band-confined, it is true, to some two counties; but the robbers have sympathizers all over the territory in the Republican ranks.

of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases

Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who

suffer from Strumous complaints, and that one

which will accomplish their cure must prove

of immense service to this large class of our

afflicted fellow-citizens. How completely this

compound will do it has been proven by exper-

This compound will be found a great pro-

moter of health, when taken in the spring, to

expel the foul humors which fester in the

blood at that season of the year. By the time-

ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by

the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous

sores, through which the system will strive to rid itself of corruptions, if not assisted to do

this through the natural channels of the body

by an alterative medicine. Cleanse out the

vitiated blood whenever you find its impurities

bursting through the skin in pimples, eruptions,

or sores; cleanse it when you find it is ob-

structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell

you when. Even where no particular disorder

is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the

blood healthy, and all is well; but with this

pabulum of life disordered, there can be no

lasting health. Sooner or later something

must go wrong, and the great machinery of

Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But

the world has been egregiously deceived by

preparations of it, partly because the drug

alone has not all the virtue that is claimed

for it, but more because many preparations,

pretending to be concentrated extracts of it,

contain but little of the virtue of Sarsaparilla,

During late years the public have been mis-

led by large bottles, pretending to give a quart

of Extract of Sarsaparilla for one dollar. Most

of these have been frauds upon the sick, for

they not only contain little, if any, Sarsapa-

rilla, but often no curative properties whatev-

er. Hence, bitter and painful disappointment

has followed the use of the various extracts of

Sarsaparilla which flood the market, until the

name itself is justly despised, and has become

synonymous with imposition and cheat. Still

we call this compound Sarsaparilla, and intend

to supply such a remedy as shall rescue the name from the load of obloquy which rests

upon it. And we think we have ground for

believing it has virtues which are irresistible

by the ordinary run of the diseases it is intend-

ed to cure. In order to secure their complete

eradication from the system, the remedy should
