Territorial Bills Defeated .- The country | ROBERT DAVIS has confidentiall anticipated the erection, by the present congress, of the new Territories of Arazona and Dacotah, because it is well tled them demand and absolutely require seperate governmental protection and care.

It will, therefore, cause general disappointmeut and surprise to learn that the House of Representatives has defeated the bills creating there Territories; as well as that of Jefferson, which comprises the new gold region west of Kansas.

The only reason why these bills were defeated, was that certain cliques and factions in the House, who cherished a bitter personal animosity against President Buchanan were opposed to giving him the appointment of the Territorial officers.-The necessity for the speedy passage of the bill was universally conceded, but the desire to wound and mortify the Chief Magistrate of the Union was paramount with the Republicans, Americans and afew disappointed Democrats, and they stulfified their conciences to vote in the negministration of justice.
