

Nicaragua Affairs.
WASHINGTON, April 1.—It is well understood that the Cabinet to-day had under consideration the subject of Central American affairs.
Advices from the Commander of the James Gadsden confirm the statements relative to the present events in Nicaragua.
Our government has nothing from an official source later than the 25th of February relative to the treaties, when that of Sir Ashley, of commerce, navigation, and the transit, had been ratified, with an additional article to the effect that Nicaragua surrendered all of her rights over Musquitoo.
The Musquitoo Treaty was at that time pending, and the Cas-Yrisari Treaty had not been acted on.
Our government will accordingly wait further reliable intelligence before it can act decisively.
So far as Great Britain is concerned, if it should appear that Sir Ouseley has transgressed or violated its instructions, a formal request will be made of England to disavow his act, which she will not do voluntarily. It is thought however that she will carry out in good faith the understanding between the Government of Great Britain and the United States, relative to the settlement of the irritating questions growing out of the different interpretations of the Clayton-Bulwer Treaty.
Nor is it improbable, should Nicaragua ratify all the British treaties, and perfect those that Minister Zamar will be withdrawn, and General Jerez, the Nicaraguan Minister at Washington, be tendered his passports.
Such is the position of the question, according to the best available information. But much depends upon the character of the future official advice from Nicaragua.

A Loss of Three Thousand Lives.—Near Tagaurog, on the Sea of Azoff, a catastrophe occurred, about the beginning of February last, which involved a loss of life unparalleled except by memorable earthquakes or volcanic eruptions. It appears that some three thousand inhabitants of Tagaurog, relying upon promise of fair weather made by the genial atmosphere and the cloudless sky, proceeded to the Azoff Sea to indulge in the sport of fishing beneath the ice—a favorite past time of that region. The atmosphere continuing serene, the party were lulled into a feeling of security, and ventured further than usual upon the ice, in the hope of obtaining a good haul. Suddenly a breeze sprang up from the east, which growing boisterous by degrees, whirled the loose snow and fine particles of ice in all directions; and before long succeeded in detaching the ice from the shore. The large ice field then broke into numerous pieces, which, with their terrified and helpless human freight, drifted towards the open sea. No assistance could be rendered the unhappy beings by their frantic relations and friends on shore, and within two hours not a sight of life was visible on the surface of the sea. On the following morning a calm of ice drifted in shore upon which was five of the unfortunate—three of them dead, and the other two dumb and insensible. The two latter—a girl and an old man—were restored by means of the usual appliances, the girl, however, survived but a few hours, the man recovered, but lost the use of his tongue—a consequence, probably, of the fright caused by the scene he had just passed through. He prepared a written narrative of the occurrences of that fearful night on the Azoff. By this catastrophe at least three thousand persons found a watery grave.

Later from Mexico.
MEXICO, March 30.—By the arrival of the U. S. sloop of war *Saratoga* at Pensacola, on the 25th, advices from Vera Cruz to the 12th have been received. She left at Vera Cruz the U. S. frigate *Saratoga*, and two Spanish frigate, and four English vessels of war.
The rumors of the internal war were very conflicting, and therefore impossible to be relied on.
Miramon is said to have sustained several defeats. His forces are not within striking distance. He is collecting his forces at Orizaba.
The citizens of Vera Cruz are confident of the troops of Jerez being able to beat off Miramon.
The *Saratoga* takes stores on board and will return to Vera Cruz without delay to re-embark the *Saratoga*.
Despatches received from the commander of the flag ship *Merritt*, dated Harbor of Rielha, Feb. 28th, says that there is reason to believe the recent cruise of the sloop of war *Bealer* in the Gulf of Fonseca has been productive of results highly beneficial to the interests of our country in that quarter. The object of the *Bealer* in going to San Juan del Sur was to protect the passengers by the *Herona*, which was expected to arrive there early in March, and the presence of one of the vessels of the squadron being indispensable, she had been cruising in the pursuit of orders to intercept filibusters.
At La Union the *Bealer* was said to be the first United States vessel which had entered that port. She was visited by the Governor of the Department, as well as by other officials. The first national salute ever received by the flag of San Salvador was from the *Bealer*, which was enthusiastically received by all classes of the people. Congratulatory addresses were interchanged by the Commandant of La Union, and Commander Thatcher, copies of which have been received by the Navy Department.
Ran Rannels has received his commission as Consul to San Juan del Sur.

ONE DOLLAR.—It is too much, exclaims the person desiring cheap articles for the restoration of the hair! We have however in our experience found that articles which command seemingly exorbitant prices, are in the end cheapest to the purchaser. Precarious articles are always put up in small packages, and efficacious medicines are not considered dear at any price. One dollar being the price of *Professor Wood's Hair Restorative*, for the smallest size or trial bottle, is a sufficient guarantee that the trial bottle contains more precious ingredients, in proof of which its sale has increased one hundred fold within the past year!
CAUTION.—Beware of worthless imitations as several are already in the market, called by different names. Use none unless the words (Professor Wood's Hair Restorative, Depot St. Louis, Mo., and New York,) are blown in the bottle. Sold by all Druggists and Patent Medicine Dealers. Also by all Fancy and Toilet goods dealers in the United States and Canada.
For sale by Thomas Devine, High street Ebersburg.

Ten Days Later from Hayti.
By the arrival at New York of the brig *John Report*, from Port au Prince, we have advices from Hayti to the 15th ult.
The Committee of the Department of the North have published an address to the people and army, urging fidelity to the President and Republic.
The schooner-of-war *Maivice* arrived at Port au Prince from Jamaica on the 8th, bringing back to their home a number of Haytiens who had been exiled by Souleau.
M. Danhier has been duly inaugurated director of the National Lyceum or College.
The appointment is in the gift of the President, and the former director who had occupied the post for ten years retired amicably.
The leading article of the *Feuille de Commerce* treats of the progress of natural property. It says:—
Let our black and yellow brethren, scattered through the Antilles and in the North and South America, hasten to co-operate with us in restoring the glory of the Republic.
Hayti is the common country of the black race. Our ancestors, in taking possession of it, were careful to announce in the Constitution that they published, that all the descendants of Africans, and the inhabitants of the West Indies, belong, by right to the Haytian family.
The American brigs *Behio*, *Pico*, *Baltimore*, and *Monticello*, were at Port au Prince with three French and two Spanish vessels.

Postmaster General Holt.
On entering upon his duties as Postmaster General of the United States, the Hon. Joseph Holt thus addressed the official body of that Department:—
"Gentlemen: Standing upon the threshold of this difficult and, for me, wholly untried labor, I am most happy in the privilege of making the personal acquaintance of those who are to be associated with me in its duties. The loss of a faithful and illustrious public servant, who was beloved of all, has closed this office in mourning, and it is sad to enter upon it amid the shadows which hang alike upon it, and upon the hearts of those charged with its administration. It is encouraging, however, to know that behind every cloud the sun shines, that if we are patient we shall see its light again. I must earnestly invoke, what I shall constantly need, and will do doubt as constantly receive, your zealous co-operation in meeting the heavy and perplexing responsibilities which lie before me. Be assured that it will be my unremitting endeavor to guard the feelings and reputation, the rights and interests of all within and without, and at the same time steadily and inflexibly to pursue the path of duty wherever it may conduct me."

NOTICE.
The undersigned, Directors of the Poor and House of Employment of Cambria county, hereby give notice, that in case of any destitute person becoming sick or disabled, that may become a charge upon the county, they request persons in whose charge such destitute persons may be, to give notice to the Steward of the Poor and House of Employment, or to either of the Directors, of the condition of such persons, so that they can be removed to said Poor House without delay.

JOY TO THE ADMIRERS OF A FINE HEAD OF RICH GLOSSY HAIR.
Talk of beauty, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt.
PROFESSOR WOOD'S HAIR RESTORATIVE.—We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the winking curl, ever be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's Hair Restorative in New Haven received the following letter in regard to the Restorative a few weeks since:—
DEAR SIR:—I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the best medicine for the scurf and new hair began to grow; it is now two or three inches in length where it was all off. I love great truth in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know any of the kind is used in this place; you may have a market for many bottles after it is known here.
Yours with respect, RUFUS PRATT.

PHILADELPHIA, Sept. 9, 1856.
PROF. WOOD.—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front and side of my head almost lost its covering in fact bald. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it.
Yours, resp'y, D. R. THOMAS, M. D.
No. 44 Vine Street.

VINCENNES, IA., June 22, 1855.
PROF. O. J. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years, been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to the hair.
Respectfully, yours, WILSON KING.

Ayer's Sarsaparilla
A compound remedy, in which we have labored to procure the most effective alternative that can be made. It is a concentrated extract of Para-Sarsaparilla, so combined with other substances of still greater alternative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumatic complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:— SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SAFT REBURN, SCALD HEAD, STYRILS AND EYELIDS, AGENSIS, MUCRUCIAL DISEASE, DROPSY, NERVALGIA OR THE DOGHOUSE, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSA OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which collect in the blood at that season of the year. By the timely expulsion of them many ranking disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcers, and rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanses out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanses it when you find it obstructed and sluggish in the veins; cleanses it whenever it is foul, and your feeling will be renewed. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the purifying of the blood, and it is well worth the blood healthy, and all is well with the system, lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overturned.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.
During late years the public have been misled by large lotteries, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
