DEMOCRATIC STATE TICKET. AUDITOR GENERAL, RICHARDSON L. WRIGHT. OF PHILADELPHIA. SURVEYOR GENERAL. JOHN ROWE. OF FRANKLIN COUNTY.

Calling Things by their Right Names.

A certain class of politicians in this State are badly frightened at the present time. They have blindly followed John W. Forney so far from the Democratic fold that they are completely bewildered, and cannot, "for the life of them." tell where they now are. They would like to be still regarded as Democrats, but they know that in their present position it is supremely ridiculous for them to claim to be reliable and sincere members of the party. In the language of Patrick Henry, "They are wandering on an unknown ocean, without a single landmark to guide them." The Democracy have lost all confidence in them. and the Black Republicans, although willing to use them, refuse to place any confidence in them. They wince and grumble when they are styled traitors and disorganizers by those who make it a rule to always call things by their right names: but they should remember that these epithets would not be applied to them if they had faithtraitors and disorganizers, they have no right to complain of being treated as such by the true Democracy. If ever they succeed in getting back into the Democratic ranks, we hope the memory of their past tribulations will induce them to pursue a consistent course, and to never again give aid and comfort to the enemy. The disorganizers are divided into two classes.

The first class is composed of the men who approve in unqualified terms of the proceedings of the bogus Convention which assembled at Harris burg on the 13th of April, and who contend that everything said and done by Forney and his aids on that occasion, was right. The second class consists of the men who, while approving of the greater part of the proceedings of the Convention, acknowledge that several of the things said and done by its members were wrong. They endorse the platform adopted by the Convention, and swallow the Abolition speech of John Hickman without making even a wry face; but they agree that Forney & Co. were wrong in denouncing the State ticket nominated by the Convention of the 16th of March. They contend that the bogus Convention was clothed with full power to act for the party, and that its acts are entitled to full faith and credit at the hands of the Keystone Democracy. They will not agree that Forney and his followers acted the part of traitors and disorganizers on the 13th of April, but on the contrary, contend that they are the true apostles of Democracy, who are laboring to save the party from ruin. To this class our neighbor down street belongs. While he acknowledges that Forney and his aids were wrong when they repudiated the nominees of the 16th of March Convention, he is quite indignant because for so doing, more than nine tenths of the Democratic editors of the State have denounced them as traitors and disorganizers. But if it really be an offence against the Democratic party to denounce as traitors and disorganizers those of its professing members who repudiate and oppose its regularly nominated candidates, it may be worth while to inquire how far, in this respect, our neighbor has "preserved the whiteness of his

Last fall a number of Democrats in this county "repudiated" a portion of the Democratic county ticket. They held no Convention, they called no meeting, they appointed no committees. They merely attended the polls on the day of election, and voted against the candidates they repudiated, and for doing this they were severely reprimanded by the editor of the Mountaineer, and he very plainly intimated that he regarded them as traitors and disorganizers. The readers of the Mountaineer doubtless recollect the articles concerning the "Disorganizers," and the person or persons the editor supposed to be their leader or leaders, which appeared in that paper last fall, dians were driven from a bridge on the southimmediately after the election. They will also doubtless recollect the celebrated interrogatory which he propounded to us, and how vociferous he was in charging us with 'wriggling' in answering it. He then seemed to regard the opposing of a regularly nominated candidate of the party as an almost unpardonable sin, to be extenuated only by keeping the guilty party on probation until he exhibibited proper sorrow for his past offences. Hear what our neighbor, in discussing this subject, says. in his paper of the 23d of last Febru-

"We have one code only of principles, which we would apply unrelentingly to both friends and foes. We are willing at all times to submit to the voice of the party properly expressed, and unhesitatingly say that we will support the regularly nominated candidates of the party. We have no desire terests of the party, then should they be required to read themselves back. We would proper so rrow for past offences, and we are satisfied the Democracy of the county will do

Such were the sentiments of our neighbor, have undergone a remarkable change. He now seems to regard it as absolute treason to the party, to denounce as disorganizers, the men who set at nought its principles and usages, and openly repudiate the ticket which it has pre sented to the people for their suffrages next fall It seems that it was right last fall to denounce as disorganizers the members of the Democratic party who repudiated a portion of the county ticket at the October election and even to regard them as having "read themselves out of the party." But it will not now do to apply the epithet disorganizers or to speak aught, save in the mild Canadas. They are empowered to contract for est terms, concerning the men who on the 13th of April, "in Convention assembled" "repudiated," the regularly nominated candidates of the party for State officers, and who evidently intend to act as the allies of the Black Republicans during the Campaign just opened. Although the State Convention of the 16th of March, was composed of the regularly appointed delegates of the party, although it assembled in pursuance of the call of the Chairman of the State Central Committee, and was clothed with power to speak the sentiments of the Democracy of Pennsylvania, yet Forney and his aids treat it as though it had not been held," and boldly "repudiate" the platform it adopted, and the candidates it nominated. Yet notwithstanding all this, our neighbor contends that it is wrong to style them disorganizers, or to insinuate that they are not sincere democrats. How differerent from the views he expressed a few months ago. Verily our neigh- I still had hopes for pride attends us still, bor should be presented with a leather medal as Amid the swains to throw my book-learned a reward for his consistency.

The men who opposed a portion of the county ticket last fall, stopped there. They made no attempt to disorganize the party, and unlike For ney and his aids, they did not denounce its principles and usages. It was merely a local matter, the effects of which could not possibly be felt beyoud the bounds of this county. Yet our neighbor denounced them as disorganizers, and now he is not willing that the same epithet shall be an plied to his pet Forney, and his followers. But his inconsistency is easily accounted for. A majority of the men who opposed a portion of this county ticket last fall, did not in the opinion of our neighbor belong to the Mountaineer clique, locomotive came whizzing along, and we and he thought that by abusing them he could forthwith entered one of the cars, and found fully adhered to the principles and usages of the manufacture a little capital, for the miserable ourself speeding towards Pittsburg at a rate Democratic party. Having acted the part of faction whose organ he edits. But now the boot exceeding 2.40 on the Plank road. A few is on the other leg. Our neighbor is one of Forney's disciples, and sincerely wishes him and his cause "God Speed." Hence his wrath when he hears his "great Captain" and his aids styled dis organizers and traitors Such epithets were all right when applied to certain individuals last fall and winter, but they wont answer when applied to the special friends of the editor of the Mountaineer. Our neighbor knows that Forneyism wont take in this county, and consequently he is unwilling to acknowledge that he is a Forneyite. He is really the friend of the movement to disorganize the democratic party in this State, inaugurated at Harrisburg on the 13th of April-If he was a sincere democrat, in his position as an editor, he would notify the democracy of Cambria of the perilous position in which the party is now placed, and warn them to beware of the wiles of the enemy. Instead of doing this, he tells his readers, that the disorganizers are honest men and sincere democrats, and that all will be right in 1860. He now occupies the position of the man playing the double part of the incendiary and watchman; who, while applying the torch to the doomed dwelling, cries "All is well," thus causing the inmates to sleep on in peace, until

> escape is impossible. We have more than once said, that we sincerely desire to see the party once more united, and we firmly believe that this can only be accomplished, by pursuing a bold and independent course. The principles and usages of the party must be preserved, and the men who ignore thos principles and usages, are not democrats, and should not be recognized as such. When they cease to occupy the position of hostility towards the party which they now occupy, and return to its ranks, let them be recognized as democrats. but not until then.

WAR. - A fearful struggle is about to commence between the great European Powers. All hopes of maintaining peace have vanished and the Armies of France and Austria are already in motion. The struggle will be commenced by the Continental Powers, but of course Great Britain will become ultimately involved in it. We will next week lay before our readers, extracts from various papers, stating the causes of the war, the resources and strength of the Armies of the Nations involved, &c. The effect of the war on this country, will be the immediate increase of the prize of Grain and produce of

We have never, we believe, the Democratic party." Since then his views since we took charge of this paper, bored our readers with accounts of our occasional journeys from home. But still, we think, an editor may occasionally be permitted to forget politics and the news of the day, and have a bells commenced ringing, and on going to the little sociable talk with his readers, as with old friends assembled around the fireside on a winter evening, and thus almost literally fulfil the hope so pathetically expressed by Goldsmith in his beautiful poem entitled the "Deserted Village." The description of humble life, and the appellation swains, will not apply to the hardy yeomanry of little Cambria; yet we are sure all our readers will thank us for quoting the following lines, and agree that at least the one italicized is appropriate to our subject : "In all my wand'rings round this world of

In all my griefs, and God has given my share, I still had hopes, my latest hours to crown, Amid these sacred bowers to lay me down, My anxious day to husband near its close, And keep life's flame from wasting by repose.

Around my fire an evening group to draw, And tell of all I felt and all I saw,"

But doubtless, kind reader, you are already weary of this long preface, and feel ready to impatiently exclaim, "Pray come to the point at once." Well, then: Having been summoned by the U.S. Marshal to attend the U. S District Court as a petit juror, we, on Monday morning of week before last, seated ourself in one of Blair & Palmer's Hacks, and were soon safely landed in Jefferson. A short time after arriving at the station, the miles this side of Greensburg the cars were suddenly stopped, and on inquiring of the Conductor the cause of the detention, he informed us that an accident had occurred. In a few moments the cars were again in motion and soon a scene of horror was presented to our view. A locomotive and several cars were lying in the valley about thirty feet below the level of the Railroad, a complete wreck. The accident was caused by the exploding of the boiler of the locomotive. The dend bodies of three men who were on the locomotive at the time the explosion occurred were just being removed. 'Twas a scene in our estimation, calculated to suggest to the mind, thoughts of a more serious nature than those which usually occupy its attention.

A short time after beholding this scene, we found ourself comfortably enscenced in one of the rooms of the St. Charles, and received the kind greetings of several of our friends and acquaintances. On stirring abroad, we soon found that we were not the only country editor in the city. Among the first persons we met were Traugh, of the Hollidaysburg Standard, Sansom, of the Fulton Democrat, Keenan, of the Greensburg Democrat, and Brady of the Brookville Jeffersonian. We found them all kind-hearted and sociable gentlemen, and we sincerely hope that a kind Providence may mete out to them during their journey through life, a larger share of happiness and prosperity than generally falls to the lot of those who sit astride of the tripod and scribble editorials for a living. On entering the U. S. Court-room, we were at once struck with the dignified appearance of the District Judge, Hon. Wilson M'Candless He is certainly every way qualified for presiding in the place where "Justice is judicially administered." His appearance indicates intellect and energy of character, and all who gaze on him are compelled to exclaim,

"There every God doth set his seal. To give the world assurance of a man."

James Campbell, Esq. the U.S. Marshall for the western district of this State, is a very affable gentleman, and is evidently at home in the position he occupies. The confidence Mr. Buchanan reposed in him when he appointed him to the position of Marshall, was not misplaced. While in the court-room, we Gen. Coffroth, of Somerset county. They are both gentlemen of ability, and we sincerely hope their shadows may nover grow less. We found our esteemed friend, John H. The heat was intense, and a number of warehouses along the wharf were several times on fire, but were extinguished by the energy of the firemen. The scene, tho' fearful, was sublime, and we will never forget it. Ten steamboats were destroyed, as Adam Kurtz. also a large amount of freight. The estimated loss is from \$160,000 to \$200,000.

But it is time we should bring this rambling article to a close. We will therefore conclude by stating that on Faturday evening we "took shipping" in one of the Pennsylvania Railroad cars, and in a few hours found ourself, like M'Gregor, on "our native David Davis, Johnstown Borough, heath" once more. And now, reader, if you have been kind enough to follow us "even unto the end," accept our thanks, and allow Gideon Marlett, Cambria township, us to bid you a kind good-bye.
