A Talk with Mordecai.

On last Saturday morning, about 10 o'clock we observed our-old friend Mordecai passing the window of our senctum, and, as we felt rather tonesome, we resolved to call him in and have a little friendly talk with him. Although not much of a scholar, his conversation is often very interesting, and while that he says displays strong practical common sense, it is uttered with the thonest simplicity of a child. A gentle tap on the window sufficed to arrest his attention, and in a moment he stood before us. After passing the compliments of the morning, we requested the old gentleman to be seated. "I declare," said he, as he deposited a huge mouthful of cavendish in the stove, and helped himself to a fresh guid,

"I declare I think I am a doomed man this blessed forenoon. I have just made my escape from the sanctum of the editor of the Mountaineer, and here I find myself located in your den."-"Verily, friend Mordecai," said we, "I thought wou had been in a different place. Be good enough to pardon me, but I really thought when you entered that you were a little to happy and a little too weak in the knees, to have just made your exit from an editor's sanctum." "Permit me," said Mordecai, "to explain. Your neighbor, as you are wont to style him, called me into his sanctum this morning, gave me a friendly shake of the hand, and then asked me if I would not take a nip. I told him I had no objections. Threats are made of burn-ing Omaha, St. Joseph, Leavenworth and other towns, in consequence of the deception used to induce emigration. Two thousand men are reported 50 miles west of Omaha, in a starving condition. Some of the residents of Plattsmouth have clesed business and fled, fearing violence at the hands of the enraged emigrants.

> D We examined, a few days ago, a map of the Ebensburg & Cresson Railroad, made by Mr. George Barrett, civil engineer. The Road looks remarkably well on paper, and our friend Barret has reason to feel proud of his work. In less than a year from this time the citizens of Ebensburg will be called upon to pay their respects to the "Iron Horse," on the occasion of his first visit to their Mountain home.

#### A Dead Failure.

An attempt to build up a new Democrátic party under the dignified title of the "States Rights Democracy," with Forney as leader, has proven the most dismal political failure the times. It would really be a work of of charity, says the Patriot and Union, for some respectable Democratic paper to bestow a word of encouragement upon the ragged, bald and crippled thing. The Auti-Lecompton press of the State refuses to acknowledge it. instead of giving the encouragement and suppurt which were articipated by the projectors of the movement, are unsparing in their blows. Of this class of Democratic newspapers, the Somerset Democrat is among the most able and vigorous. In commenting with deserved severity upon the proceedings at Altona, it administers the following advice to this faction :

"We understand that it is the intention of this States Rights Democratic party, when the proper time arrives, to make an energetic effort to secure a majority of delegates to the next 4th of March Convention. To this we have no objection. But we tell them now, in advance, that unless they roll up their sleeves and go zealously to work for the success of the regularly nominated Democratic State Ticket at the next election, they will find themselves nowhere when these delegates come to be chesen. No disorganizing movement can carry the Anti-Lecompcon sentiment of the State with it, and the sooner the leaders of this Democratic State Rights faction are made aware of this fact perhaps the better. There is a vast difference between a genuine Anti-Lecompton Democrat, and a bogus one who makes it his busines to endeavor to defeat the regular party organiza-

tion, and who gives 'aid and comfort' to the

common enemy.
