#### Three Days Later from Europe.

#### ARRIVAL OF THE BREMEN.

NEW YORK, May 29. The steamer Bremen arrived this morning, intends to pursue. from Bremen and Southampton, bringing London dates to Tuesday noon, the 17 inst.

red out. The ship Thames, from Savannah, had tro, General in the service of the Venetian he after lower hold.

No battle had taken place. The head-quarters of the Emperor Napoleon had been fixed at Alessandria.

Austria is raising a loan of seventy-five millions. The resignation of Count Buol from the

ministry is confirmed. Many failures are reported as having oc-

curred on the London Stock Exchange. Queen Victoria reviewed the troops on the 6th inst.

schakoff had also arrived.

It is reported that the Emperor Napoleon addressed a letter to Queen Victoria before his departure for Italy, repealing his promise to take no step during the war to compremise the interest of Eugland.

The India and China mails had reached London. The Calcutta dates are to April 8, and from Hong Kong to March 28th. The news is not important. The French mons had captured Saigon, a place of conaderable strength in Cochin China.

The American frigate Germantown and teamer Mississippi were at Japan.

#### The War.

Nothing further of importance had been sected to be announced next week.

Ebensburg March 9, 1859:44m.

A compound remedy, in which we have la-bored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints : -

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR THE DOULOUBEUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obor sores; cleanse it when you had it is ob-structed and sluggish in the veins; cleanse if whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sconer or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparnia which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. FREPARED BY DR. J. C. AYER & CO.

without the disadvantages of any violent action. Its application is so simple that it may be employed by the youngest infant or feeblest invalid.

TED INHALATION.

It does not derange the stomach, or interfere in the least with the strength, comfort or business of the patient. Other Diseases Treated.

French owners will be aware that there is no prospect of capture, and the Americans are free to act at pleasure, since the United States Government have had no time to issue so under any circumstances So long back After that time my accounts will be left with a as the reign of Charles 1., corn. grain, and victuals were never declared contraband. The juestion, with respect to coal, is almost new; but as naval stores have riways been included, coal seems necessarily to fall into that category, now that steam is a principal agent

in all naval operations. Each Sovereign, moreover, has the prerogative to make new declarations of contract, and when articles come into use as implements of war which were before innocent, or had, in fact, no existence during former wars; and it was upon this principle that the British Government acted in 1854, when they ssued instructions to prevent the importation of steam machinery.

Thrilling Escape of Five Young La-

dies. Last Sunday afternoon five young ladies got into a boat that was tied to a tree in the nond of the upper dam in Ware. In rocking and pushing the boat around, the fastening became loosened, and they drifted out into the stream. In a moment they saw their peril. Before them was the brink of a high dam, at the foot of which were jagged rocks over which the water boiled and foamed with destructive fury. The crics of the young la- ITHE UNDERSIGNED having dissolved part dies drew together hundreds of spectators,

who watched with fearful anxiety the boat drifting slowly towards the edge of the dam. No other boat was at hand, and a speedy leath seemed certain to the young ladies. As the boat with its precious freight neared the dam, the spectators seemed dumb with horror. Each looked to the other, imploring help, knowing that help was next to impossible, while the shricks of the young ladies in the boat pierced the hearts of their friends with terrible anguish. Among that crowd of
