DR. HARDMAN treats Consumption, Bron-chitis, Laryngitis, Asthma; and all other Diseases of the Throat and Lungs, by MEDICA-TED INHALATION.

The great point in the treatment of al human maladies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are dis eased, berathe or inhale medicated vapors directly into them, The reason why Consumption and diseases of the Lungs have heretofore resisted all treatment, has been because they were not approached in a direct manner by medicines. They the stomach, whilst the foul ulcers among the we believe may be cured by perseverance. lungs were unmolested. ## H UMPHREY'S SPECIFIC HOMCEOPATHIC REMEDIES, No. 562 BROADWAY. THE GREAT FEATURE

Of this series of Domestic Remedies is that each particular medicine is a SPECIFIC for the particular disease or class of disease whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUMPHREY'S SPECIFICS obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it could be obtained at all.

Thus multitudes suffer from DYSPEPSIA, BIL-IOUS CONDITION, COSTIVENESS, SAD TASTE, COATED TONGUE and DEELLITY, which is perfectly controlled and cured by the

DYSPEPSIA SPECIFIC. There is scarcely a phase or form of this disease which is not promptly controlled and ulti mately cured by the use of this Specific. Thous-ands who have suffered for years with this "Bilious Condition" having purchased a case of these Specifics, have obtained a perfect cure and immunity from their old complaint. COUGHS, COLDS AND SORE THROATS, which so frequently lead to BRONCHITIS AND CONSUMPTION

are all in their early stage secured by the

COUGH PILLS. Many cases of long standing Bronchitis and irritating Coughs have been perfectly cured by this Specific. But more! many persons have a spe-cific liability to colds and take them from the least exposure. This will be entirily relieved by the use of the COUGH PILLS, as scores can testify from experience. 8 CATARRI

is one of our most common and most troublesome diseases, against which the Old School Medicines and even Homeopathic prescriptions, are of very little use. Yet hundreds of persons have been cured of not only recent and fresh, but even long standing and obstinate, cases of CATARRH by

the use of this specific. One aged lady in Syracuse was thus perfectly cured of a Catarrh, which had annoyed her all her life. And a young lady at one of our first class boarding schools, who was so afflicted with this disease as to require more than forty handkerchiefs a week, was entirely cured in a single week by this Specific.

PILES,

bloeding and blind, some of those common and obstinate forms of disease which are so difficult to cure by the ordinary methods, but which find an entire and fundamental cure in the Piles Specific. True, time is required ; but the Specific is pleasant to take, requires neither dist nor retraint, and being followed up a perfect cure is the result. Hundreds of persons, in purchasing a case of Specifics. have obtained a cure for this most trying and obstinute form of disease, which were intended to be local, and yet they were so has been worth to them ten times the cost of the administered that they could not act constitu- entire set. Cases of over twenty years' standtionally, expending their immediate action upon ing have been cured by this simple Specific, and

The following proclimations have been isead by the Emperor of the French : TO THE PEOPLE OF ITALY.

In a sound state of public opinion, at this time of day, men become greater by the moral influence they exert than by barren compresses. I seek with pride that moral influence by contributing to render free the most beautiful land in Europe.

Your welcome has proved that you fully understand me. I come not h re with a pre-arranged plan to dispossess s vereigns, or to impose on you my will. My army will have two works to perform-fight your enemics and preserve eternal order. No object shall be raised to the free manifestation of your legitimate wishes. Providence often ilar sover fivors nations, as it does individuals, by offering them the opportunity of sudden great ness; but it is on condition of their knowing how to avail themselves of it wisely. Earn, then, the boon now offered you. You desire for independence, so long put forth, so often baffed, shall be realized if you show yourin one great object-the deliverance of jour native land. Adopt military organizarally round the standard of King Victhis Emanuel who has indicated to you so ly the path of honor. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

THE BLOOD. This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcorous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapatilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
