

ONE DAY LATER.

ARRIVAL OF THE CITY OF WASHINGTON.

LATEST WAR NEWS. Reported Defeat of the Tyrolese. Invasion of the Tyrol by Garibaldi's corps. Proclamation by Kossuth.

New York, July 18. The steamship City of Washington, arrived at this port this afternoon, with London and Liverpool telegraphic advices to the 7th inst. She stopped at Cork.

The next battle between the Austrians and Allies, it was expected, would take place on the river Adige.

It was reported that the British mail steamers had been requested by the Government to prepare to carry armaments.

At Ancona was declared in a state of siege.

THE LATEST. (By Telegraph from London to Queensdown.)

London, July 7. The Paris correspondent of the London Times says the Minister of War and Marshal Plessier have had another conference, for the purpose of concerting measures to complete the organization of the army of the east.

An eight division in course of organization at Lyons to reinforce the army of Italy. A telegram from Vienna, dated to-day, says advices from Naples to the 28th ult. announce that legal proceedings have been taken against a secret political society at Messina, and several arrests had been made.

Advices have also been received from Ancona to the 30th of June.

General Callatenara had taken command of the town, and declared it in a state of siege. A general disarmament of the citizens had been ordered.

An address of the Sardinian Admiral to the people of Messina had been issued.

The Paris correspondent of the London Times says that letters from the head quarters of Prince Napoleon state that another great battle was expected to take place on the banks of the Adige.

The Austrians are believed to have 200,000 men in the line.

A fresh battalion was organized at Paris. The Times also says that Garibaldi's men had reached Tyrol, by entering the Tonale pass. Prince Windischgratz has been sent to begin to equip the Prussian government with this fact. But such an armed expedition constitutes a part of the ultimatum.

Is not France entitled to reply that the condition ought to be proposed by all the great powers conjointly, and not by Prussia alone, and that such an armed expedition, made by a single power, equivalent to a declaration of war? But when, to maintain the Austrian's positions in Italy, a German army of a million men shall be put in motion to attack France, can the Palmerston-Russell administration remain indifferent spectators of a new confederation? The English Ministry will, most certainly, not allow a new war to begin without first exhausting all its powers of persuasion.

FRANKFORT, July 6.—It is stated that the proposals made by Prussia, in the extraordinary sitting of the Federal Diet on the 6th, was the following: 1.—The junction of the ninth and tenth regiments of the Prussian army.

2.—No appointment to the command in chief of the four non-Prussian and non-Austrian corps d'armee.

3.—The placing of all the reserve contingents in force in readiness to march.

BREMEN, July 6th.—News has been received from Berlin that a corps of 3,000 to 5,000 Tyrolese Chasseurs had been threatening the Vattelline, but that several columns of Garibaldi's and Cialdini's corps had repulsed them from Odessa, and driven them as far as the first Canton Pass. It is said that the Tyrolese suffered severely in the engagement.

A Frankfurt letter announces that the Austrian government, having been compelled by the battle of Solferino to dispatch to the theatre of war troops which it had held in reserve in the Tyrol, and that Province being consequently menaced by invasion by Garibaldi's corps, it intends to propose to the Diet, in virtue of the treaty of Vienna which requires German States to guarantee each other's German territory, to send a German army into Tyrol.

Kossuth has issued a proclamation, calling the Hungarian nation to arms, to struggle for liberty, and announces that he would soon be among them.

The inside news discusses the possible complications of the war. Prussia, it says, has called out an army of 500,000 men, which will be reinforced by the Federal contingent of 150,000 men, and it is with such an enormous display of force that she proposes to offer her mediation to France, and to hasten the conclusion of peace.

General Tom Thumb.—General Tom Thumb (Charles S. Stratton) was to leave Liverpool in the steamer City of Washington, and he will probably arrive home on Tuesday next. He has been absent nearly three years. He is now over twenty-one years of age, having attained his majority in January last. Since that period he has managed his own affairs, and as we understand has conducted his exhibitions successfully. Indeed those who know him best say that although an infant in size, he is above the average of those at his age in point of general intelligence. Having secured a comfortable independence, he has concluded to settle down in his native city, and take the world easy as a "gentleman at large," occasionally putting into the country, professionally for a few weeks, "just to keep his hand in."

BRIDGEPORT (Conn.) Farmer.

Anticipating the National Convention.—The London News devotes an article to Mr. Seward, as the Republican candidate for the Presidency of the United States, and advises him what to do in regard to the African slave trade, as when he gets to the White House. Mr. Seward is not feel grateful for such disinterested concern in his political welfare, whatever he may think of the propriety of giving advice at this time, nearly two years before, under the most favorable circumstances, he could possibly put it into practice.—The Republican Convention must also be indebted to the News for taking the poisoning out of their hands, and so quietly settling a matter that usually brings with it a great deal of trouble.

VAN FLEXY—Squirrels and Trout.

DISSOLUTION.

THE CO-PARTNERSHIP HERETOFORE existing between the undersigned, in the Clothing and Tailoring business, has this day dissolved by mutual consent. The business in all its branches will be carried on by John D. Hughes in the building lately occupied by John Fenlon, Esq., one door east of the old stand, and by D. J. Evans in the old stand.

All persons indebted to the old firm, will please come forward and settle up immediately, as the books will in a few days be left in the hands of proper officers for collection.

TO INVALIDS.

DR. HARDMAN, ANALYTICAL PHYSICIAN.

PHYSICIAN FOR DISEASES OF THE LUNGS. Formerly Physician to the Cincinnati Marine Hospital and Incubator's Retreat. Corresponding Member of the London Medical Society of Observation, Author of LETTERS TO INVALIDS, AND EDITOR OF THE MEDICAL STETHOSCOPE.

MAY BE CONSULTED AT EBERSBURG, at the "Logan House," on THURSDAY, August 4th.

JOHNSTOWN, at the "Foster House," on WEDNESDAY August 3d.

JEFFERSON, at the "Cambria House," on evening of August 4th and morning of the 5th, until 9 o'clock, and no later.

DR. HARDMAN treats Consumption, Bronchitis, Laryngitis, Asthma, and all other Diseases of the Throat and Lungs, by MEDICATED INHALATION. The great point in the treatment of all human maladies is to get at the disease in a direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which inhalation is based. If the stomach is diseased, we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into them. The reason why Consumption and diseases of the Lungs have heretofore resisted all treatment, has been because they were not approached in a direct manner by medicines. They were intended to be local, and yet they were so administered that they could not act constitutionally, expending their immediate action upon the stomach, whilst the foul vapors among the lungs were unremoved. INHALATION brings the medicine into direct contact with the disease, without the disadvantages of any violent action. Its application is so simple that it may be employed by the youngest infant or feeble invalid. It does not derange the stomach, or interfere in the least with the strength, comfort or business of the patient.

Other Diseases Treated. No charge for consultation.

In relation to the following diseases, either when complicated with Lung affection or existing alone, I also invite consultation—usually find them *Prospically Curable*. Dropsical and all forms of Female Complaints, Irritability and Weakness of the Throat, Nausea, Palpitation and other forms of Heart Disease, Liver Complaints, Dyspepsia, and all other diseases of stomach and bowels, piles, &c.

Mr. Hardman treats all chronic or long standing Diseases of the Lungs, Liver, Stomach, Bowels, Bladder, Kidneys, Brain, Heart, Nerves, Womb, Spleen, Spine, Eyes, Ears, Sc. Scrofula, Pits, Cancer, Rheumatism, Dropsy, Skin Diseases, Fever Snes, Catarrh, Seminal Weakness, Neuralgia, Whites, Insanity, Dyspepsia, Giddiness, Head of Urine, Syphilis, Piles, Sick Headache, Catarrh of the Tonsils, &c. HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES, No. 562 BROADWAY. THE GREAT FEATURE

Of this series of Domestic Remedies it is that each particular medicine is a Specific for the particular disease or class of disease whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUMPHREYS' SPECIFIC, obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, in deed, it could be obtained at all.

This multitude suffer from DYSPEPSIA, BILIOUS COMPLAINTS, COSTIVENESS, SAD TASTE, COAGULATED TOUGHS AND DYSURIA, which is perfectly cured by the DYSPEPSIA SPECIFIC. There is scarcely a phase or form of this disease which is not promptly controlled and ultimately cured by the use of this Specific. Thousands who have suffered for years with this "Bilious Condition" having purchased a case of these Specifics, have obtained a perfect cure and immunity from their old complaint.

COUGHS, COLDS AND SORE THROATS, which so frequently lead to BRONCHITIS AND CONSUMPTION, are all in their early stage cured by the COUGH PILLS.

Many cases of long standing Bronchitis and irritating Coughs have been perfectly cured by this Specific. But more! many persons have a specific liability to colds and catarrhs from the least exposure. This will be promptly relieved by the COUGH PILLS, as scores can testify from experience. SO CATARRH is one of our most common and most troublesome diseases, against which the Old School Medicines and even Homeopathic prescriptions, are of very little use. Yet hundreds of persons have been cured of not only recent and fresh, but even long standing and obstinate, cases of CATARRH by the use of this Specific.

Once aged lady in Syracuse was thus perfectly cured of a Catarrh, which had annoyed her all her life. And a young lady at one of our first class boarding schools, who was so afflicted with this disease as to require more than forty handkerchiefs a week, was entirely cured in a single week by this Specific.

THE PILES, blooded and blind, some of these common and obstinate forms of disease which are so difficult to cure by the ordinary methods, but which find an entire and fundamental cure in the Piles Specific. True, time is required; but the Specific is pleasant to take, requires neither diet nor restraint, and being followed up a perfect cure is the result. Hundreds of persons, in purchasing a case of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set. Cases of over twenty years' standing have been cured by this simple Specific, and we believe may be cured by perseverance.

FEVER AND AGUE SPECIFIC. The case contains the best, and most reliable of all remedies without any deleterious or poisonous substance, which not only cures the ague, and old, mismanaged agues, but may be relied upon as a preventive when persons are residing in a fever and ague district. It prevents or protects upon the same principle that vaccination prevents small pox, or bella-donna prevents scarlet fever, by pre-occupying the system with the true Specific. Hundreds have been thus protected and cured.

THE OPHTHALMY SPECIFIC has proved a most invaluable remedy for SORE EYES and EYELIDS, and for WEAK and BLURRED SIGHT. One lady in Indiana, who had been a sufferer from sore eyes for many years, and for two years was entirely blind, was cured perfectly by the Ophthalmic Specific alone.

HEADACHES, to which so many are subject, find a curative in the case. There is a specific which relieves at the time of the attack, and also one which corrects the condition of the system upon which it depends, and so destroys the predisposition to a return.

The specifics for the various forms of FEMALE COMPLAINTS have proved invaluable. OLD LONG STANDING LEUCORRHOEA or WHITES, attended with debility or exhaustion, and for which other forms of medicine are of little value, are fully controlled and cured by the FEMALE PILLS, while the specific for IRREGULARITIES control almost every form of SCANTY, PAINFUL or IRREGULAR MENSTRUATION. DIARRHOEA AND SUMMER COMPLAINTS in adults or children are controlled like magic by the DIARRHOEA PILLS, while it may be asserted without the possibility of successful contradiction that the DYSERYTH PILLS are the most perfect Specific for that disease known.

For the various forms of FEVERS, SCARLET FEVER, MEASLES, and other diseases of children, the FEVER PILLS may be safely and surely relied upon.

These Specifics are the prescriptions of Prof. HUMPHREYS, used for years in his extensive practice, and to the perfection of which he has devoted the resources of extensive knowledge, experience and study.

The public may rest assured that during the lifetime of Dr. H. no one has been or shall be intrusted with the preparation of his Specifics, and he offers the guaranty of his professional life and reputation that they shall be just as he represents them.

They have now been before the public for five years, and have every where won golden opinions from the many thousands who have used them. Simple, free from intricacy, technicality, or danger, they have become the ready recourse and aid of the parent, traveler, nurse, or invalid, and have become the family physician and medical adviser of thousands of families. Nowhere have they been tried without having been approved, and their highest appreciation is among those who have known them longest and most intimately.
