The Opposition.

The above is the title by which the enemies of the Democratic party are now known. They have adopted it themselves and seem to be proud of it.

It is amusing to observe how exultingly the most ultra Black Republican Newspapers announce the election of opposition members of Congress at the late elections in the Southern States.

It is certainly a strange spectacle, to see men who differ so widely in their political views uniting. Their hostility to the democratic party is their only motive for so doing.

Copper coin is not a legal tender for any amount.

breast of man for success. This opposition party composed of "black spirits and white, red spirits and gray" will not likely hold together during the approaching Presidential election...

THE CONFERENCE.

The Democratic Senatorial Conference of this District, will convene in Tyrone City tomorrow. Of course we cannot at present say who the Conference will place in nomination...

Cambria County was erected in 1805—fifty-four years ago. During that long period of time, she has never been represented in either Congress or the State Senate...

Our Clearfield brethren should not forget, that the Democracy of Cambria were always the firm and unwavering friends of Mr. Bigler when he was a candidate for State Senator. He owed his first nomination to the vote of the Conferees from this County...

The State Ticket.

The dissensions which distracted the ranks of the Democratic party a few months ago no longer exist. The Keystone Democracy are now thoroughly united, and are determined that Wright and Rowe their candidates for State officers, shall be elected.

Mr. Rowe, our candidate for Surveyor General has filed that office during the last three years. All who have transacted business with him in his office, willingly bear witness to his ability, uniform courtesy and urbanity of manners.

The Democracy of Pennsylvania are now fully convinced of the folly of quarrelling among themselves at a crisis like the present. Messrs Wright and Rowe we confidently believe will receive the united support of the party at the approaching election, and be elected by a handsome majority.

The Editor of the Hollidaysburg Steam Gard, has recently been luxuriating on delicious ripe tomatoes, the product of his own garden. He boasts that he has laid out all of his Juniata Cotemporaries on the tomato question.

Death of another Old Citizen.

Mr. JAMES KEAN, died on last Friday, at the residence of Thomas Monahan, in Summerhill township, in the one hundred and fifth year of his age. He was probably the oldest man in the county.

The fruit crop in this County, with the exception of Clearfield township, is an entire failure. The June frost made a "clean sweep" of the apples peaches and plums...

We have been much annoyed recently by having our most valuable exchanges carried off by individuals, who "dropped in" for the purpose of reading the news.

Sometime during last winter, a number of valuable articles such as knives, forks, spoons, bed clothes &c., were stolen from the "Mountain House" at Cresson in this County.

A woman named Betsy Dantforth, mysteriously disappeared from Franklin, N. H., on the 24th of last month. She was found on the 19th inst, alive, but almost reduced to a skeleton, in a slough hole a mile from the house where she lived.

Mr. Longfellow gives the following accurate description of a dirt: A young lady of more beauty than sense; more accomplishments than learning; more charms of person than grace of mind; more admirers than friends; more fools than admirers for attendants.

There was a slight frost in this vicinity on last Friday night, but it did not do any injury.

The letter of our Washington City Correspondent, was received too late for publication this week. It will appear in the next number of our paper.

Yesterday morning was sufficiently cool to remind the Mountaineers, that the season of the "sere and yellow leaf" is approaching. We however confidently hope for many a long bright summer day, during the month of September.

We learn that the dwelling house of Mr. John A. Jones, on the township road leading from this place to Jefferson, was destroyed by fire on day last week.

The Editors of the Johnstown Tribune devoted nearly a half column of the last number of their paper, to the description of an enormous radish which was raised in this place during the present season.

The special friends of the State Administration are not strong enough to show their hands in an open fair fight with the Democratic candidates in localities where bargains can be made.

Our friend George W. Todd, Esq., of Philadelphia, was in town last week. He looked well. As a business man and gentleman, he is a model worth imitating...

We learn that sixty-four persons were returned in Johnstown on last Saturday, for violations of the laws of the Commonwealth, with regard to the sale of intoxicating liquors.

We have received the first number of the Brookville Republican. It is neatly printed, and presents quite a handsome appearance.

A Few Plain Questions.

DEMOCRATS! cut this out and ask your Know Nothing and Republican neighbors the following simple questions: Who are in favor of giving negroes the right of suffrage which they refuse to foreign born citizens?

Who sanctioned and approved that odious measure in Pennsylvania, by giving silent consent in their late State Convention? The Know Nothing and Republicans.

Who introduced a bill in the Legislature of Ohio to strike out the word "white" from the constitution in order to give negroes the right of suffrage? The Know Nothing and Republicans.

Who are in favor of foreigners not voting until they are 21 years in this country? The Know Nothing and Republicans.

Fearful Leap from a Railroad Car. Henry P. Baldwin, the farmer, on his way to his farm, escaped from the custody of Sheriff Bloom, of Cincinnati, in rather a perilous manner, on Wednesday night.

Annexation of Maine to Canada. The Montreal Pilot wants to acquire the State of Maine, and says:

Portland will still have to be our Atlantic terminus for the season; and we now feel more than ever the effects of that stupidity which, in settling the boundaries between Canada and the United States, was the means of depriving us of what should have been ours—the through passage to the seaboard.

Where Will You Stand? It is now abundantly obvious that in 1860 the American people will have to choose between the establishment of a Democratic Administration of the General Government and the insurrection of Black Republican supremacy.

Among the dispossessed crowned heads who solicit reinstatement at the hands of foreign powers, a new claimant has started his grievances in the person of Gustavus Vasa, now in Vienna, who on the death of King Oscar (Bernadotte) claims to ascend the Swedish throne of his ancestors.

The Opposition Press on the Union of the Democracy.

While the self-satisfied ignoramus of the different segments into which the adversaries of the National Democracy are split and rent are flattering themselves with vain imaginings of a fatal rupture and an irremediable confusion at the Charleston Convention, there are others among our opponents who know better, and think it best for the interests of their faction to tell plainly what they know and believe.

Now, whatever may be said for or against the principle conductors of the Tribune and the Courier and Enquirer, it must be admitted that they are well posted up in political affairs, past and present, and reflect very accurately the real calculations of the knowing ones in their own sectional party.

The same organs, as if to put to shame the more ignorant or less plain-spoken drivers belonging to their faction, declare openly that the National Democracy will not go into the fight "with a platform in favor of the slave trade, or of legislation for slavery in the Territories," &c.

Next House of Representatives. Although Kentucky and Tennessee have gone largely Democratic at the late elections, on their State Tickets, the opposition have gained several members of Congress in each of the districts.

Total, 24. The democrats will have sixty-six regular members from the South and twenty-six from the North, making ninety-two in all.

Very well! Through what instrumentality was it that the United States acquired California? That of the Democratic party, and they were opposed at every step that led to the acquisition by those who now constitute the Opposition.
