

LATER FROM EUROPE.

Arrival of the steamer North Briton. FASTER POINT, Sept 5.—The steamer North Briton has passed this point for Quebec with Liverpool dates to Wednesday afternoon, the 13th ultimo.

Nothing of importance has transpired of the proceedings of the Conference in session at Zurich.

The assemblies of Modena and Tuscany having adopted resolutions banishing the dynasties by the former Dukes, and annexing the Dukes, and annexing the Dukedoms to Piedmont.

The steamer Weser, of the Bremen and Hamburg line, has been withdrawn for repair.

Messrs. Cunard advertise the screw steamer Baltic for Halifax, to sail on Saturday the 27th ult., simultaneously with the Arabia for Halifax and Boston.

Mr. Lever's offer to charter the Great Eastern has been rejected.

The Russian frigate Grand Admiral had arrived at Portsmouth.

Several members of the English royal family are passengers on the North Briton. Their visit to Canada is supposed to have reference to the contemplated visit to the Prince of Wales, to the British possessions.

The India loan had all been awarded, at a rate above ninety-seven per cent.

The Russian loan has been a partial failure.

It is reported that the British Government congratulated France on the recent political amnesty.

The impression prevails that the recent appointment of General McMahon to the command at Lille, is in consequence of the projected fortifications at Antwerp.

Three per cent. rentes closed on the Paris Bourse at 97 3/4.

The Paris flour market was heavy.

The Atlantic Telegraph Company recently reported Mr. F. C. Webb, an engineer of considerable experience in testing and experimenting on telegraph cables, to proceed to Valparaiso and examine the present state of the Atlantic cable, and his report is published in the English papers. After detailing the scientific results of his experiments, he concludes as follows:

"I am of the opinion that a serious fault exists about 832 statute miles from Valparaiso along the cable, and that the cable between that spot and this shore is comparatively perfect." Tests from here cannot now decide whether the cable is mechanically severed, or all attempts to detect the reception of currents from the opposite shore, have since proved fruitless.

Still, from various circumstances attendant on the decline of the insulation, there is every reason to believe that the continuity, both of the cable and the conductor, is perfect. Whether any other faults exist beyond the one alluded to, it is impossible to ascertain by tests from Valparaiso, and the fact that signals received at New York were always better than those received at Newfoundland, proves undoubtedly that worse insulation has always been near Valparaiso. Therefore it seems probable that if the fault which exists on this coast, which very likely forms the principal cause of leakage, could be removed, the insulation would be so far improved as to render the cable again available for signaling, provided the fault, which is said by those who have tested from Newfoundland, to exist near Trinity Bay, was repaired."

Gigantic frauds, in connection with the extensive Carron Iron Company of Scotland, were brought to light. It is alleged, that for a long series of years, the managing portion of the company has been guilty of frauds on the shareholders, of unprecedented daring and extent.

"If you call this skinning," said Tom the barber, "it's not so bad; but if you call it shaving, I should prefer your using the other side of the razor."

SPECIAL NOTICES.

Physicians are generally loth to speak a word of what are called "patent medicines." Indeed, it is an article in the code of medical ethics, that a physician who sanctions the use of such remedies cannot be considered a member of the National Association. But there are exceptions to the most stringent rules, and many of the disciples of Esculapio have actually been compelled, by the force of facts, to recommend the use of DR. J. HAMPTON'S COMPOUND DIURETIC PILLS, for those diseases which are particularly prevalent during the summer and fall.

They have ascertained that there are no remedies in the pharmacopoeia of the country, during the summer months, the demand for the article equally large. Sold by druggists and dealers generally.

See advertisement in another column. In silence that Dreadful Cough.

Or death must carry you to your silent grave. Why delay while there is yet hope? Consumption is caused by impure humors of the blood being deposited in the cells of the lungs. Hence the lungs are like a spring of water, when rolled up by the dirty mud, if clear water constantly flows in, the springs, impurities or mud will be conveyed away by the pure water. Just so with the blood, when kept in a clear or pure state, it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be the result. From two to four Pills taken every night or every other night, is enough to keep the bowels regular, will in a reasonable time cure consumption. The reason these pills are used more than all others, is because they are made of purifying vegetables, and cleanse the body from all corrupt matter, and drive out disease of every description, quicker and in a milder way than any other Pills.

DR. HAMPTON'S COMPOUND DIURETIC PILLS,

are highly recommended by eminent Physicians, as a safe, certain, speedy and permanent cure for Gravel, Stricture and all other diseases or derangement of the bladder and kidneys. Price 25 cents per box.—Sent to any address free on receipt of price.
