Liverpool dates to the 24th, three days later than previous advices. The serew steamship Fox, Captain M'Clin tock, sent by Lady Franklin to the Arctic tate, being the property of the said insolvent, to regions in search of the traces of Sir John Franklin's expedition, had returned to England having been completely successful. At Point William, on the north west coast of King William's Island, a record was found, dated April 25th, 1848, signed by Captains Crozier and Fitz James. The record says the Ercbus and Terror were abandoned three days previously in the ice, five leagues to the N N. W , and that the survivors, in all amounting to 105, were proceeding to the to date, had been nine officers and fifteen men. hibited on day of sale, Many deeply interesting relies of the expedition were found on the western shore on King Williams Island, and others were obtained from the Esquimaux, who stated that after their abandonment one of the ships was crushed in the ice and another forced ashore The r'ox was unable to penetrate beyond Bellot's straits, and wintered in Brentford Bay. Minute and interesting details of the expedi-

denment of the ship, wes discovered. SPECIAL XOTICES.

WILLIAMA, AND COMMON COLD, like thieves in the silence of the night, have carried many to the silent grave. They are caused by a sudden check of persperation, by which the stomach is rendered inactive, and the lungs become loaded with corrupted matter, which enters the blood, and the desease is the result. For all colds, roughs, and chills, succeeded by heat, and for all levers of every form hoarsness and rawness of the throat, lungs and stomach, and for all weakness and sickness of every kind, from three to five of these Pills on going to bed, for a few days, will be all you require to restore you to perfect health. It has been admitted and claimof all over Europe, that there never "was medione, that will exterpate all manner of disease from the system, equal to Dr. Morse's Indian East Pills;" that the more you take them, the stronger you grow. They are founded upon the principle that the human body is subject to but medisease, namely; corrupt humors. These Pills not only cleanse the bowels, but also follow the blood through every vien and artery, and so purify it from all morbid and corrupt humors, that disease of every name is driven from the body.

DURING THE SUMMER that has just passed away, thousands of sufferers from dysentery and diarrhosa have been relieved by the use of HO-STETTER'S BITTERS, a medicine which is ev idently destined to maintain a permanent place in the public estimation. Billous diarrhoea is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seem to reach the warm of the evil. The difficulty is to get a remely that will reach all the digestive organs, and give them simultaneously a rush of vigor, to til themselves of this desease. The problem is eved by the BITTERS, which never fails to conper the most stubborn cases. It is only to say that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, which that terrible scourage, the fever and ague is so prevalent, the BITTERS will gain fresh

THE GREAT FEATURE Of this series of Domestic Remedies is that cach particular medicine is a Specific for the particnlar disease or class of disease whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUMPHREY'S SPECIFICS obtain the particular one desired in their case, and thus themselves make a cure which other- Full set, 29 large vials, in Morocce Case wise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it could be obtained at all.

NOTICE. THE PAMPHLET LAWS OF THE LAST session of the Legislature of Pennsylvania have been received at this office, and are ready for distribution to persons entitled to receive them.

Prothy's office, Ebensburg, June 29, 1859, tf HOSTETTER'S STOMACH BITTERS.

JOS. M'DONALD.

It is a fact that, at some period, every member of the human family is subject to discase or disturbance of the bodily functions; but, with the sid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the sys-

tem to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infullible? All nations have their Bitters, as a pre-ventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE .- This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nauses nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the pro-

duction of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indis-pensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION .- We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STORACH DITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our sutograph

signature is on the label. Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa, and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.
