

Further European Intelligence by the Steamer Europa.

SACKVILLE, N. B., Dec. 1.—The foreign dispatches per Europa, received here by horse express, includes advices to the 20th ult., by telegraph to Queenstown, at which port the Europa touched on her voyage.

The ship Cora Linn, from New York, for the Clyde, stranded near Rothlin, on the 15th ult., but got off the following day and reached the Clyde.

LATEST, VIA QUEBEC.—Shanghai, Oct. 6th.—The Chinese Government has repudiated the treaty with the United States, by refusing to open the ports of Swatow and Taiman, as stipulated in the treaty.

PARIS, 19th.—No formal invitation has yet been sent by France to England, but Count Borsigny has been instructed to arrange the preliminary conditions with Lord John Russell.

Austria and England have both protested against the establishment of the regency in Italy.

The French Prefects are invited to instruct the journals to be more circumspect in their language towards England.

It is stated that Count Buoncompagni would tender his resignation of the regency to the Sardinian Government.

The British war steamers have succeeded in bringing off 350 Christians from the small ports of Morocco. A general massacre of the fugitives was feared. A Spanish army of 40,000 men was expected to land in Morocco early in December.

The exchange of ratifications at Zurich has been fixed for the 21st of November.—The full powers are extended to the plenipotentiary, and would then be withdrawn.

Letters of invitation from the French government to the powers which signed the treaty of Vienna, to send plenipotentiaries to the Congress, has been dispatched. The seat of the Congress would probably be at Paris, the government of Russia and Austria having signified a preference for that Capital.

A Paris telegram to the London Post says that the powers invited to send representatives to the Congress are those that signed the final act of Vienna, and the three principal powers of Italy. The Congress will then be composed of France, Russia, Great Britain, Prussia, Austria, Spain, Portugal, Sweden, Sardinia, Rome and Naples. It is reported that Cardinal Anselmi will represent the Pope in the Congress.

General Bismarck.—The London Times, upon the general conviction that war between the United States and England is impossible. It however, says there are some convictions which work out their own truth in practice. But there are others which tend to their own practical repudiation. We sincerely hope that the different readings of the axiom, that war with England and America is impossible, may not be an illustration of this truth.

The editorial, after pointing out the importance of San Juan to England, and the impossibility of the surrender of it, unless some very different title be brought forward, from any yet seen, concludes by expressing much satisfaction that the right to the island will be coolly discussed in Washington and London, while the affairs on the spot will remain status quo.

The London Herald understands that Mr. Lever has again offered to charter the Great Eastern for twelve months, but the proposal was refused without hesitation by the Directors.

The official investigation into the loss of the Royal Charter, is progressing in Liverpool, but without developing anything new. Divers at the wreck have brought up several small boxes of gold.

Messures are about to be taken by the Government for the protection of Belfast Harbor.

The Societies of Arts have inaugurated a movement for a great international exhibition in London in 1862. They propose to raise a guarantee fund of a quarter of a million pounds sterling.

It is stated that the British government are under the conviction that it is not policy to rely on any one national war laboratory and arsenal, and have determined to establish inland arsenals on a large scale, and to commit its working to civilians. It is not intended, however, to supersede Woolrich.

The Times has again a disquieting article on the relations of England and France. It complains that in France every instrument that can work in violent opinion is being employed to raise a violent spirit of animosity against England, and that the nation at large, and that the army are taught to look on war with England as not remote. The Times cannot discover any serious question at issue between the two governments and affairs that it is in the power of the emperor alone to put an end to this state of things, which is daily becoming more serious, and if he does not do so there is a reasonable ground for drawing a gloomy inference from his silence.

FRANCE.—Marquis Mostier, Ambassador to Berlin, is transferred to Vienna, vice Baron Borguery, who retires from public life.—Visom Danvergue goes to Berlin. Gen. Moutaubai is named General in Chief of the French expedition to China. His nomination is unpopular in the army.

Prince Metternich has received letters of credentials as Austrian Ambassador to Paris.

The warlike article in the London Times of the 15th, had produced a great sensation.—The Paris journals generally say that the news set forth are exaggerations, and that the unfriendly feeling, if any exists, is entirely owing to the violence of the British press.

The harbor of Focamp, near Havre, is to be transferred into a military post and arsenal.

The Ami de la Religion had published a letter, purporting to be an answer of the King of Sardinia to Napoleon's recent letter. It is, however, pronounced a fabrication, and that journal will be prosecuted.

A despatch from General Martin Poy, announces additional successes over the Moors.

LATEST.—MADRID, 15th.—The Correspondence Autograph contradicts the rumor that Spain has received a diplomatic note from England, relative to the Morocco expedition.

NOTES.—Orders have been given to the Neapolitan embassies to deliver a passport to all the Neapolitan exiles who may demand to return.

RUSSIA.—A frost has prevailed in the Gulf between St. Petersburg and Constadt, and communications is stopped.

The financial pressure continued, but the latest sympathies were rather more favorable.

A despatch from Varna reports that for seven days awful gales had occurred, during which seventeen vessels were wrecked. No further particulars are given.

TURKEY.—All the ministers had acquiesced in the reforms proposed by the new Grand Vicer Vally Pacha, and Rizza Pacha, who remain definitively in office. It was reported that Vally Pacha was to be ambassador to Paris.

The official Gazette declares that the Porte has by no means placed a definite veto upon the carrying out of the Suez canal project.

INDIA.—The Bombay mails of October 26th arrived at Aden on November 6th, and were expected to reach London on November 21.

Gerrit Smith a Slave Dealer.—A Marylander charges Gerrit Smith with receiving and selling slaves within eight years past. Smith married a Miss Fitzhugh, of Hagerstown, who inherited at the death of her father, Col. Fitzhugh, a number of slaves, which he (Smith) sold to his brother-in-law, the late Col. Fitzhugh, of Hagerstown. The writer is willing to have the charge investigated, and asks that this should be done, declaring himself ready to sustain what he alleges.

Important News.—The Secretary of War has received a despatch from Gen. Scott, dated October 27th. He states that he had made a proposition, to which at the date of the despatch he had received no reply from Gov. Douglass, for a temporary adjustment of matters on the Island of San Juan; and that he had no doubt of its acceptance. He reports matters quiet.

A Balloon to Carry Ten Thousand Passengers.—Prof. John Wise, of Lancaster, develops the following: "A cubic foot of atmosphere weighs 14 ounces nearly. Displace a bulk of it equal to a balloon of 200 feet diameter, and we gain a buoyant force and lifting power of 157 tons. Now, to make a balloon of that size would be no difficult task, or even one of 400 feet diameter, which would have a lifting and carrying power of 1250 tons. A balloon of such dimensions would have a superficies of 505,656 square feet, and if made of sheet copper, weighing one pound per square foot, would have a lifting and carrying power of over two millions of pounds, capable of transporting, at a mile per minute speed, allowing for weight of gas, ballast, provisions, &c., ten thousand human passengers.

The London Times, upon the general conviction that war between the United States and England is impossible. It however, says there are some convictions which work out their own truth in practice. But there are others which tend to their own practical repudiation. We sincerely hope that the different readings of the axiom, that war with England and America is impossible, may not be an illustration of this truth.

The editorial, after pointing out the importance of San Juan to England, and the impossibility of the surrender of it, unless some very different title be brought forward, from any yet seen, concludes by expressing much satisfaction that the right to the island will be coolly discussed in Washington and London, while the affairs on the spot will remain status quo.

PAY UP! PAY UP!!

All persons indebted to the firm of E. GLASS & CO., are hereby notified to send payment on or before the FIRST DAY OF JANUARY, next. Times are hard and we must have MONEY. E. GLASS & CO. December 7, 1859.—2-3t.

6TH ANNUAL ANNOUNCEMENT! CONTINUED SUCCESS OF THE COSMOPOLITAN ART ASSOCIATION.

From all sections of the country subscribers to this popular Art Institution, (now in its sixth year,) are being received in a ratio unparalleled with that of any previous year. Any person can become a member by subscribing \$3, which will entitle him to 1st.—The beautiful Steel Engraving, "Shakespeare and His Friends," 2d.—A Copy of the elegantly Illustrated Art Journal, one year. 3d.—A Free Season Admission to the Galleries, 648 Broadway, New-York.

In addition to which, over Four Hundred valuable Works of Art are given to subscribers as Premiums, comprising choice Paintings, Sculptures, Outlines, &c., by the first American and Foreign Artists.

The superb Engraving, which every subscriber will receive immediately on receipt of subscription, entitled "SHAKESPEARE AND HIS FRIENDS," is of a character to give unequalled pleasure and satisfaction. No work of equal value was ever before placed within reach of the people at such a price. The engraving is of very large size, being printed on heavy plate paper, 30 by 38 inches, making a most superb ornament suitable for the walls of either the library, parlor or office.

It can be sent to any part of the country, by mail, with safety, being packed in a cylinder, postage pre paid.

Think of it! Such a work delivered free of charge, and the Art Journal, one year, for \$3. SUBSCRIPTIONS will be received until the Evening of Tuesday the 31st of January, 1860, at which time the books will close and the Premiums be given to subscribers.

No person is restricted to a single subscription. Those remitting \$15 are entitled to six member ships.

Subscriptions from California, the Canadas, and Foreign Provinces, must be \$3.50 instead of \$3, in order to defray extra postage, &c.

Persons wishing to form clubs will apply for a circular of terms, &c.

The beautifully Illustrated Art Journal, giving full particulars, will be sent on receipt of 18 cents, in stamps or coin.

Address C. L. DERBY, Actuary, C. A. A., 546 and 548 Broadway, New-York. Subscriptions also received by GEORGE W. OATMAN, Hon. Sec., for Ebersburg and vicinity December 7, 1859.

5 Bbls. N. O. Molasses, 5 " Golden Syrup. For sale by E. HUGHES. July 13, 1859.

HUMPHREYS' SPECIFIC

HOMEOPATHIC REMEDIES, No. 562 BROADWAY. THE GREAT FEATURE

Of this series of Domestic Remedies is that each particular disease or class of disease whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUMPHREYS' SPECIFICS obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed, it could be obtained at all.

Thus multitudes suffer from DYSPEPSIA, BILIOUS CONDITION, COSTIVENESS, SAD TASTE, COATED TONGUE and DEBILITY, which is perfectly controlled and cured by the SPECIFIC.

There is scarcely a phase or form of this disease which is not promptly controlled and ultimately cured by the use of this Specific. Thousands who have suffered for years with this "Bilious Condition" having purchased a case of these Specifics, have obtained a perfect cure and immunity from their complaint.

COUGHS, COLDS AND SORE THROATS, which so frequently lead to BRONCHITIS AND CONSUMPTION are all in their early stage secured by the CATARRH.

Many cases of long-standing Bronchitis and irritating Coughs have been perfectly cured by this Specific. But more! many persons have a specific liability to colds and take them from the least exposure. This will be entirely relieved by the use of the COUGH PILLS, as scores can testify from experience. So CATARRH

is one of our most common and most troublesome diseases, against which the Old School Medicines and even Homeopathic prescriptions, are of very little use. Yet hundreds of persons have been cured of not only recent and fresh, but even long standing and obstinate cases of CATARRH by the use of this specific.

One aged lady in Syracuse was thus perfectly cured of a Catarrh, which had annoyed her all her life. And a young lady at one of our first class boarding schools, who was so afflicted with this disease as to require more than forty handkerchiefs a week, was entirely cured in a single week by this Specific.

Melting and blind, some of those common and obstinate forms of disease which are so difficult to cure by the ordinary methods, but which find an entire and fundamental cure in the Piles Specific. True, time is required; but the Specific is pleasant to take, requires neither diet nor restraint, and being followed up a perfect cure is the result. Hundreds of persons, in purchasing a case of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set. Cases of over twenty years' standing have been cured by this simple Specific, and we believe may be cured by perseverance.

The case contains the best FEVER AND AGUE SPECIFIC known. A remedy without any deleterious or poisonous substance, which not only cures the ague, and old, unmanagable agues, but may be relied upon as a preventive when persons are residing in a fever and ague district. It prevents or protects upon the same principle that vaccination prevents small pox or belladonna prevents scarlet fever, by pre-occupying the system with the true Specific. Hundreds have been thus protected and cured.

THE OPHTHALMIC SPECIFIC has proved a most invaluable remedy for SORE EYES and EYELIDS, and for WEAK and BLURRED SIGHT. One lady in Indiana, who had been a sufferer from sore eyes for many years, and for two years was entirely blind, was cured perfectly by the Ophthalmic Specific alone.

HEADACHES, to which so many are subject, find a curative in the case. There is a specific which relieves at the time of the attack, and also one which corrects the condition of the system upon which it depends, and so destroys the predisposition to a return.

The specifics for the various forms of FEMALE COMPLAINTS have proved invaluable. OLD LONG STANDING LEUCORRHOEA or WHITES, attended with debility or exhaustion, and for which other forms of medicine are of little value, are fully controlled and cured by the FEMALE PILLS, which are the specific for irregularities control almost every form of SCANTY, PAINFUL or IRREGULAR MENSTRUATION.

DIARRHOGES AND SUMMER COMPLAINTS in adults or children are controlled like magic by the DIARRHOEA PILLS, while it may be averred without the possibility of successful contradiction, that the DIARRHOEA PILLS are the most perfect Specific for that disease known.

For the various forms of FEVERS, SCARLET FEVER, MEASLES, and other diseases of children, the PILEX PILLS may be safely and surely relied upon.

These Specifics are the prescriptions of Prof. HUMPHREYS, used for years in his extensive practice, and to the perfection of which he has devoted the resources of extensive knowledge, experience and study.

The public may rest assured that during the lifetime of Dr. H. no one has been or shall be the author of a preparation of his Specifics, and he offers the guarantee of his professional life and reputation that they shall be just as he represents them.

They have now been before the public for five years, and have every where won golden opinions from the many thousands who have used them. Simple, free from intricacy, technicality, or danger, they have become the ready resource and aid of the parent, traveler, nurse, or invalid, and have become the family physician and medical adviser of thousands of families. Nowhere have they been tried without having been approved, and their highest appreciation is among those who have known them longest and most intimately.

EVERY FAMILY will find these SPECIFICS all they have been recommended; PROMPT, RELIABLE, SIMPLE and BENEFICIOUS; often a FRIEND IN NEED and a FRIEND IN DEER.

LIST OF SPECIFIC REMEDIES. No. 1. FEVER PILLS—For Fever, Congestion and Inflammation of all kinds. No. 2. WORM PILLS—For Worm Fever, Worm Colic, and Wetting the Bed. No. 3. OUR REMEDIES BY MAIL. Look over the list, make up a case of what kind you choose, and enclose the amount in a current note or stamps, by mail, to our address, at No. 562 Broadway, New York, and the medicine will be duly forwarded by mail or express, free of charge.

Address DR. F. HUMPHREYS & Co. No. 562 Broadway, New York. Sold in EBERSBURG, by JOHN ROIGERS, Jr., and by all Druggists generally. June 29, 1859. 6m.

BARGAINS! BARGAINS!!

NEW GROCERY STORE. The undersigned would respectfully beg leave to inform the citizens of Ebersburg and vicinity, that he has just received, at his store room, one door West of Davis & Lloyd's Store, a large and fresh lot of Groceries, which he offers for sale cheap for Cash, or carrying Trade. His stock consists in part of the following articles, viz:— SUGAR COFFEE TEA MOLASSES, TOBACCO SEGARS, CHEESE, FISH BACON AND THE BEST OF FLOUR AND CORN MEAL. He also keeps on hand a large and well selected Stock of School Books and Stationary, Notions &c., all very cheap.

He hopes by strict attention to business to merit and receive a full share of public patronage, as he feels satisfied his stock is good and he will sell as cheap as any other house in town. Call and see. EVAN E. EVANS. Ebersburg, Aug. 17, 1859. 4t.

GOAL! COAL!!

The subscriber is now prepared to deliver Coal to the citizens of this place on the shortest notice. Persons wishing Coal can leave their orders at my Grocery Store and they will be attended to immediately. EVAN E. EVANS. September 28, 1859.

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least amount of exertion, and in the shortest time. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving relief to all who have used it. The Bitters operate powerfully upon the stomach, bowels
