

Three Days Later From Europe.

New York.—The mails by the Arabia will be despatched South in the morning.—General Comorfort is among the passengers.

The steamship, Circassian, from Portland, arrived at Liverpool on the 22d inst.

The Kangaroo passed the steamship Percia, on the 28th ult., and the steamship Prince Albert on the 5th ult.

It is stated that the 19th of January has been fixed for the meeting of the European Congress. The report that the Pope claims the Presidency of the Congress for his plenipotentiary is denied.

A French pamphlet, by La Guerroniere, on the Pope and the Congress, has attracted much attention as reflecting the views of the Emperor Napoleon. It is conciliatory in its tone, but opposes the restoration of the Romagna to the Papal dominion. The English journals eulogize the pamphlet.

Lord John Russell tells the Memorials, in relation to Mexican affairs, that England is endeavoring to come to an understanding with other powers respecting its course in the future. He points out the difficulty occasioned by the United States recognizing one President; and England and France another.

A vague unconfirmed rumor prevailed, of an outbreak in Hungary.

The Spaniards have again repulsed the Moors in Morocco, entailing heavy losses.

The Overland mail, with Calcutta dates to November 23d, and Shanghai to the 19th, has been telegraphed to London. There is no news of importance.

The Emperor's Congress.—The Prince Gortschakoff has expressed a desire that the opening of the Congress should take place after the commencement of the Russian New Year, January 13th, as he will be detained on that day at his court, by the duties of his office.

Count Avigdor, the representative of the Republic of San Marino, is at Paris, and has presented a memorandum to Count Walewski, addressed to the future Congress, protesting against the encroachment of Piedmont.

The nomination of the Marquis of Auvergne as the second French plenipotentiary to the Congress, has given great satisfaction to the friends of Italy. A Paris despatch of the 29th says that the French government had, by telegraph, informed the powers concerned that the opening of the Congress would not take place before January 19th.

The Marquis Antonini and the Chevalier Canofari, have been appointed first and second plenipotentiaries from Naples.

England.—A deputation from the peace society had an interview with Lord John Russell. The memorial presented censured the proceedings at the mouth of the Po, the warlike preparations, the conduct of the officers generally, and concluded by deprecating further hostilities.

Mr. W. H. Ward, of Auburn, N. Y., has been giving experiments at Woolrich dockyard before the Commodore Superintendent, with his improvements on his original ocean marine telegraph. The experiments were admitted by the Commodore to be exceedingly satisfactory.

The Belgian government has agreed to forward its correspondence for Canada and the United States by the Canada mail steamers as well as by the Cunard boats, and it was supposed the German Postal league would adopt similar arrangements.

Lord Palmerston has been making speeches of highly eulogistic of the volunteer movement.

The steamer Great Britain was spoken December 14th, all well; which strengthens the conviction that the report of her having foundered at sea is a base hoax.

The wife of J. H. Gourney, a member of Parliament has eloped with one of her family domestics. She is a lady possessed of half a million sterling in her own right.

France.—The pamphlet entitled the Pope and the Congress, signed by M. de Lagueroniere had been published and attracted great attention both in France and England, and was believed to express the sentiments of the Emperor Napoleon. The pamphlet is written in a spirit of conciliation and compromise, and although it does not propose to take away the temporal powers of the Popes it advocates the curtailment of them, and urges that the Romagna should not be returned to the papal dominion.

The Paris Constitutionnel, in an article signed by its principle editor, approves in general the contents of the pamphlet, delating, however its intention to compact some of the propositions made by the author.

The Morning Post questions if the Pope will accept the new position assigned to him by the French Emperor, and asks, should he refuse, how far his refusal will be supported by the other Catholic States.

The Daily News says, the opinion expressed in the pamphlet on the question of restoring Romagna to the Pope will be approved by the English government and people.

France will not use force to compel a people to submit to a government which they will resist, and she will not permit Austria to interfere.

The Morning Herald says the Emperor has taken a wise and manly course. On the eve of the Congress, he has lifted the veil which hitherto shrouded his policy on the Italian question, and Europe will learn with satisfaction, that France is true to the principles which she professed at the outset of the late war.

The French war steamer Duquesnel, while being engaged off Brest, ran on a reef and sank in deep water.

The Emperor had conferred the grand cordon of the legion of honor on the Prince Orange.

It is stated that an amputation is about to be performed on the Prince Imperial, and that the remains of Blois is to be conferred upon him.

Italy.—A Turin despatch of the 23d says, that the King of Sardinia had that day signed the nominations of Count Cavour and M. Demambrosio as representatives of Sardinia in the Congress.

M Buoncompagni arrived at Florence on the 21st ult.

Prussia.—The Prussian Chambers are convoked for the 13th inst.

Austria.—Military preparations continued to be made against the apprehended troubles in Hungary. A rumor prevailed in Paris, the day before the Arabia sailed, that a revolution had actually broken out in Hungary, but it lacked confirmation.

One of the Vienna journals had received a second warning from the government.

Turkey.—Ahmed Wefik Effendi had been appointed Ambassador to Paris.

India and China.—The steamer Imperada, with 690 knots of the India submarine telegraph cable on board, arrived at Oiden on the 5th of December.

The Bombay mail of the 26th had reached England.—Details are unimportant.

Exchange at Calcutta on the 25th of November unaltered.

The Latest.—London, Saturday, Dec. 24. A Madrid despatch, dated yesterday says that the Moors attacked the Spanish troops on the road to Tetuan, in order to obstruct the progress of the works, but they were victoriously defeated.

The Spanish had four killed and forty wounded. All the works have now been completed.

Albert Smith is reported in a precarious state from an apoplectic attack.

Hong Kong despatch to November 15th, received by the Overland Mail, reported the rate of Exchange as having declined about 1 1/2 per cent. The prices of tea were firmer; silks showed an opposite tendency.

Pacific Railroad.

PHILADELPHIA, Jan. 14.—The Hon J Edgar Thompson has accepted the Presidency of the Southern Pacific Railroad, the terms and conditions required by him, having been fully and satisfactorily met by Dr. Fowler, the late President. The policy of the company, for the future, was agreed upon by Messrs. Thompson and Fowler, and cordially assented to by the Hon. V R Stevenson, of Nashville, General Agent, and the Hon. Samuel Tate, of Memphis, Commissioner of the land department. This arrangement secures, beyond a reasonable doubt, the construction of the Southern Pacific road.

Messrs. Stevenson and Fowler left this evening for New York, and intend to proceed, in a few days, to Austin, Texas. The subscription to the stock now exceeds \$600,000, and satisfactory efforts have been made for all the stock unsold. The stock books have been closed. A transfer office will be opened at Philadelphia, under the management of President Thompson.

Death at the exact age of one hundred years.—A person, named Roger Largos, has recently died at Paris, at the age of 100 precisely day for day, and even hour for hour. It was at one o'clock in the afternoon of the 10th of December, 1859, that he was born, and at one o'clock in the afternoon of the 10th of December, 1859, that he died. He was a very remarkable personage, having excelled as a painter, engraver, poet and musician; and yet he was to tally unknown to the public, because he would never consent to exhibit or publish any of his productions.

SPECIAL NOTICES.

It is a common observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorant as Dr. J. Hostetter has given to the world, in his CELEBRATED "PILLS." The weak and nervous debility of the counting-house, the exhausted tailor upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "B.T.PILLS" and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated is equally powerful in assisting and clearing the most terrible forms of disease. Who will not give it a trial?

Sold by druggists and dealers generally everywhere. See advertisement in another column.

Disease of the Stomach.—The stomach is the most liable to get out of order. Hence how important that no diseased matter clog its operation, which would cause nausea and distress by our food. It also weakens the brain, destroys the memory, creates pain and dimness, and various afflictions in the head. It produces great difficulty in breathing and swallowing. Sometimes fainting and fits will ensue; also bad breath, restlessness and great loss of strength. If not immediately attended to, the blood will carry the disease through the whole system, and death will end the work. From 2 to 5 of these Pills a day will keep the digestive organs in a healthy condition, and unload or carry away all impure matter, and thoroughly restore and cleanse the stomach; at the same time the Pills will so purify the blood, as to drive all manner of disease from the system.

See advertisement of Dr. Morse in another column. Sold by Thomas Devine.
