

LATEST FROM EUROPE. GREAT BRITAIN.

In the House of Lords on the 13th, the Duke of Newcastle stated that until the resources of British Columbia were more fully developed, it was thought better not to put in force the act of last year, in reference to the jurisdiction of the Hudson Bay Company.

In the House of Commons Lord John Russell stated that the French and English Commissioners appointed to inquire into the Newfoundland fisheries, had reported to their respective Governments.

Mr. B. Cochrane called attention to the state of the relations with China, attributing the present difficulty to Lord Elgin's demand for a resident Minister at Peking, which was offensive to the Chinese. He severely denounced the proceedings of Mr. Bruce and Admiral Hope.

The subject after a lengthy discussion was dropped at the request of Lord Palmerston. In the House of Lords on the 14th, the proposed annexation of Savoy to France was pretty generally denounced.

In the House of Commons, Lord John Russell said the government was not aware of any preparation being made for placing the French fleet in Italy.

Lord Cowley and Mr. Cobden have been warmly complimented on their success in bringing the commercial treaty to a practical issue.

The correspondence on the subject has been published. The Wholesale Tea Trade had held a meeting, to protest against the proposed changes in rebonding and warehousing tea.

FRANCE.—The Paris Constitutional states that the opening session of the Senate and Legislative body has been proposed to the 1st of March.

The Paris Presse had received a first warning "for having mixed false news with the most irrelevant remarks, which would wound the feelings of the nation and are contrary to the real state of affairs."

The Gazette de France received a second warning for an article which "in disfiguring the history of France, calumniate the great acts by which Napoleon the First established Catholic worship in France."

The Sardinian Minister, Des Ambrois, had presented his letter of recall. The Pope had addressed a letter to the Bishop of Orleans thanking him for his energetic support.

The Paris Flour market was firmer, and the prices slightly advanced. Wheat, also, showed an improvement. The Provincial markets also showed an improving tendency.

The Paris Bureau continued dull. Rentes closed on the 14th at 67 1/2.

SPAIN.—A Madrid telegram of the 13th says—"The Spanish Cabinet will listen to no proposals for peace from Morocco until Tangier has been taken, against which piece operations are to continue."

Marshal O'Donnell announces in an order of the day, that he will continue offensive operations until the enemy asks for the mercy of Spain, and until reprisals shall have been taken for the insults of the enemy, and indemnity obtained for the sacrifices of Spain.

The Spanish Government was about to issue notes to the amount of two hundred millions of reals, their payment to be insured by the sale of national property.

FRANCE.—The Tuscan Monitor announces that the Sardinian Legation at Florence is shortly to be suppressed.

The Opinion of Turin says the question of the new vote to be given by Central Italy is not yet resolved on.

The furiousness granted to the French soldiers in Rome had been suspended. New battalions comprised of a party of foreigners and a party of Neapolitans, had been organized.

15,000 Municipal Guards had been mobilized in the Abruzzi.

It was reported that the King of Naples had ordered General Pimelli, in case of need to act in concert with the Pope's General, Mayhoffer.

Letters from Cicily announce that the political arrests and seizures of the police are increasing—women have been ravished and then beaten by them, and many of the political prisoners had died under torture.

Several magistrates had in vain protested against the barbarous acts.

The Sicilians are in circulation, exhorting the Sicilians to rise and re-invest Southern Italy with her former rights.

Private accounts from Naples state that a conspiracy has been discovered among a portion of the Neapolitan Army, and it had been traced to a Piedmontese agency.

Naples, it was said, would address a note to the powers, complaining of these attempts. It was stated that the King of Naples had ordered the liberation of political prisoners, who have been arrested only upon suspicion.

AUSTRIA.—The Vienna Gazette publishes a circular to the Protestant Consistories in Hungary, conveying the imperial permission for them to assemble in conference, and decide on the means to be proposed to the Government for the redress of their grievances.

A Vienna despatch says—"The reforms promised in the Ministerial programme are about to be granted. Every Province will receive a separate Constitution and administration according to the want of the different nationalities."

It is said at Vienna that a new loan is projected.

CHINA.—Pekin dates are to the 4th of December. The Russian mission was going on well. The Rebels were not agreed among themselves, and the Imperial troops had been victorious over them.

Removal of the Remains of Gen. Jackson.—Mr. Trimble's bill providing for the removal of the remains of Gen. Jackson and those of his wife to Nashville, Tenn., and their interment in the Capitol Square, and for the erection of a suitable monument over the same to the memory of the old hero, passed the Senate of Tennessee, on its third reading by unanimous vote. It was stated by Mr. Trimble that the relatives and immediate personal friends of Gen. Jackson, so far as he had been able to ascertain, cordially assented to the proposed removal, and a letter from Gen. Daniel S. Donelson, of Sumner county, was read to the Senate, in which that gentleman gave his cordial assent to the proposition. The bill has yet to be acted upon by the House of Representatives.

Speech of President Buchanan at the Raising of the Statue of Washington.

The President made the following address at the ceremonies in Washington City, on the 22d.

FELLOW CITIZENS—I accept the auspicious omen now presented to us in this calm sunset almost without a cloud. The early part of the day was boisterous. Many accidents also occurred to delay the progress and the completion of these ceremonies. But these occurrences have terminated as, thank God, always has been the case in the history of our country. If storms and tempests beset us in the morning, the end of the day is still clear, bright and animating. Such, I trust, will ever be the issue of the gloom and darkness that for a season appear to envelop us. (Applause.) The honorable and important duty has been assigned to me of dedicating this statue of Washington, which is a noble production of native American genius. This welcome and grateful task I now proceed to perform. Standing here on this beautiful and commanding position, surrounded by the Senators and Representatives of all the States of the Confederacy, and by a vast assemblage of our fellow citizens, civil and military, and in full view of the noble Potomac, which Washington loved so well, and of the shores of the ancient Commonwealth which gave him birth, I now solemnly dedicate this statue to the immortal memory of the Father of his Country. (Applause.) I perform this act of pious devotion, not in the name of the people of the North, or the South, the East, or the West; not in the name of those who dwell on the waters of the Atlantic or of the Pacific, but in the name of the whole American people of the United States, one and indivisible now and forever. (Loud applause, and cries of "Hurrah for Old Buck.")

May the God of our fathers preserve the constitution and the Union for ages yet to come. May they stand like the everlasting hills, against which the tempests from every quarter of the heaven shall beat in vain. In a word may they endure so long as the name of Washington shall be honored and cherished among the children of men. (Renewed and prolonged applause.) May Washington city, which he founded, continue throughout many generations to be the seat of government of a great, powerful and united confederacy. Should it ever become a ruin by a dissolution of the Union, it will not like the ruins of Balbec and Palmyra, be merely a monument to the vanity of human greatness; but it will teach a lesson to all the dwellers upon earth that our grand political experiment has failed and that man is incapable of self-government. May such a direful disaster to the human race be averted, and in the language of Solomon, at the dedication of the Jewish temple, "May the Lord our God be with us, as He was with our father. Let him not leave us, or forsake us." (Applause.) May this be the prayer of all present, and may each one return to his home in heart more ardently patriotic and more determined to do his whole duty to God and his country than when we assembled here to day.

The distinguished speaker took his seat amid general and most enthusiastic applause.

LATER FROM CALIFORNIA. Malloy's Station, March 3.—The overland mail coach, with the regular San Francisco dates to the 10th, and telegraphic despatches to the 11th; arrived here at four o'clock, P. M.

The Pacific Railroad Convention has been in session, at Sacramento, since the 9th inst. Its object is to concentrate the public sentiment to memorialize Congress, and to recommend the legislative action on the part of California and Oregon. A resolution has been unanimously adopted, urging the California legislature to offer a bonus of \$60,000 to a New York Company that shall first complete an overland telegraph to the Atlantic States, and \$40,000 to the company completing a second line by a different route, provided both lines were finished within eighteen months.

The Democracy are preparing for an exciting contest at the primary elections, to be held throughout the State next week, for electing delegates to the Charleston Convention.

Dr. Robert P. Chase, formerly of St. Louis, had been arrested for clandestinely adulterating gold, used for refining gold at the San Francisco mint.

Three rich silver mines have been discovered in Calaveras county. New gold diggings are also reported in Calaveras county.

The mining intelligence, generally is cheering.

Advices from the Sandwich Islands, to Jan 24th, state that Mr. Nielson was in a dying condition, from the effects of the wounds inflicted by King Kamahameha.

The San Francisco markets are unchanged.

Kentucky Politics.—The Opposition party of Kentucky held their convention last week. A full delegation to the National Union Convention was appointed, and an electoral ticket put in nomination. Senator Crittenden was recommended as the Opposition candidate for Presidency.

Gov. Magoffin has vetoed a bank bill passed by the Kentucky Legislature, and in his message uses the following language: "The Bible says, 'Lead us not into temptation,' and it is a very significant prayer. I would add, 'Tempt us with no more banks, but from them, good Lord, deliver us.'"

SPECIAL NOTICES. DISEASE OF THE LIVER.—By this disease we understand an inflammation either in the membrane or substance of the liver, known by dull pains in the right side, the stomach always disordered, the yellow tinge of the skin, dry cough, tongue coated, costiveness, high-colored urine, and of a thick nature; severe weakness and severe pains in the head.

The quantity of corrupted humors in the region of the liver causes a defective secretion of the bile. The liver when healthy, serves as a filter to the blood, to separate all impurity from it, or to refine it. When diseased, it cannot purify the blood, which, when sent to the lungs, brain, and other parts in a morbid condition, may cause Jaundice, Consumption, Insanity, &c., and withholding the natural stimulus to the intestines, causes Dyspepsia, Piles, and other complaints, as you perceive the direct way to unravel and tear the whole system to pieces.

A patient, suffering from this complaint should resort to speedy relief. Yet there are very few medicines worth a cent in curing diseases. What then shall be done? We say, use Dr. Morse's Indian Root Pills, as they are composed of plants and roots, they will be found a sure cure for this

painful disease, because they purge from the body those corrupt and stagnant humors, and so cleanse and renew the blood, which is the cause not only of the disease of the liver, and the inflammation of the kidney and bladder, but of every description of disease. From 2 to 4 of the above pills, taken every night on going to bed, will in a few days entirely relieve the body of everything that is opposed to health.

See advertisement of Dr. Morse in another column. Sold by Thomas Devine.

CHILLS AND FEVER! CHILLS AND FEVER!—One of the greatest remedies that has ever been laid before the public, for Fever and Ague, and which have received the highest encomiums from the press and the people, is DR. J. HOSSTETTER'S CELEBRATED BITTERS. Who would endure the tortures arising from this terrible disease, when it can be so easily cured? Who would endure sleepless nights, burning fevers and icy chills alternately, when a remedy can be obtained for a mere trifle? And yet how many families linger under a painful existence under this deadly bility, and do nothing but gulp down quinine, until it becomes as common as their daily meals, and yet they are not relieved. None but the foolish and weak would hesitate to procure these valuable Bitters, and save themselves intense agony.

Sold by druggists and dealers generally everywhere. See advertisement in another column.
