The Great Race between Flora Temple and Patchen .- The race over the Union Course, L. I., on Wednesday, between Flora Temple and Geo. N. Patchen, is said to have been one of the finest exhibitions of the powers of the trotting horse that has ever taken place in this country. The race, which was mile heats, in harness, was won, after a most desperate struggle, by Flora, in the remarka-bly quick time of 2 21, 2.24, 2 211 -the best ever made on this track. Thus has Flora Temple (owned by Mr. Wm. M'Donald of Baltimore,) again earned for herself the proud title of "Queen of the Trotting was estimated at fifteen thousand, but is said Turf." The race was for \$1000 and was witnessed by thousands of speciators. Several days ago the betting was decidedly in favor of Flora, but on the race course, on Wednesday, \$100 to \$70 was offered on Patchen The result of the race created the greatest enthusiasm among the friends of Flora.

It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bare to expel the disease. In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from Chronic complaints one trial of this restorative has proved successful to an extent which no escription nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotton in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exbaustion, critical changes, and that complication

of nervous and dyspeptic aversion to air aud

exercise for which the physician has no name. In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative or inflicting a disagreeable sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Allex, upon which it also appears P. S. In unchecked Diarrhess, even when advanced to Dysentary, confirmed emaciating and apparently malignent, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength,

debiliating cough, and remittent bectic, which generally indicates Incipient Consumption, this remedy has allayed the slarm of friends and physicians, in several very gratifying and interesting instances. In Serofulous Tuburculsis, this medicated iron has had far more than the good effect of the
