# HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT TERS can appeal with perfect confidence to physicians and citizens generally of the United States because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare ascertions or blazoning puffery. The consumption of Hostelter's Stomach Bitters for the last year amounted to over a half million bottes and from its manifest steady increase in times paist, it is evident that during the coming year I have been snatched from the grave by the consumption will reach near one million bottles. This immense amount could never have who not only recommended the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stobaching derangements and the diseases resulting therefrom

This is not a temporary popularity, obtained ing the qualities of the Bitters, but a solid estl-

Heatetter's Stemach Bitters have proved a Godsend to regions where fever and ague and various other bihous complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain curs for the Dyspepsic and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, puifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find u it a stimulant peculiarly adapted to condort declining years, as it is pleasant to the galato; invigorating to the bowels, excellent as a tonio, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all doleterious drugs and fairly tested the merits of this article. A few words to the gentler sez. There are certain periods when their cares are so harrassing that many of them sink under the trial, The relation of mother and child is so absorbing ly tender, that the mother. especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated.
