

AGRICULTURE

Cotton-seed Cake.

In the Genesee Farmer for May, we alluded to the great value of cotton seed cake as a food for stock, and especially in reference to the high percentage of nitrogen and phosphate it contained, and consequently of the high value of the manure obtained from animals eating this cake.

Dr. Voelcker, chemist to the Royal Agricultural Society of England, as the result of several analyses, sums up the value of cotton seed cake, as compared with linseed cake as follows:

1st. The proportion of oil in all the specimens is higher than in the best linseed cake in which it is rarely more than 12 per cent., and ten per cent. may be taken as an average. As a supplier of food cotton cake is, therefore, superior to linseed.

2d. The amount of oil in the several specimens differs to the extent of 5 1/2 per cent; say, 13.50 to 19.19. 3d. Decorticated cake contains a very high and much larger percentage of flesh-forming matter than linseed cake, and is, therefore, proper to give to young stock and milch cows. The dung, also, is very valuable. 4th. In comparison with linseed, there is much less mucilage and other respiratory matter in cotton cake. This is compensated by the larger amount of oil. 5th. The proportion of indigestible, woody fibre in decorticated cotton cake is very small, and not larger than in the best linseed cake. 6th, and lastly. It may be observed that the ash of cotton-cake is rich in bony materials, and amounts to about the same quantity as is contained in other oily cakes.

Cotton seed can be obtained at cheaper rates than linseed cake, and we recommend our readers, with considerable confidence, to give it a trial Genesee Farmer.

The Garnet Chili Potato.

The Garnet Chili Potato is the seedling of a wild potato, obtained by Mr. Goodrich, of Utica, New York, from Chili, South America. He procured a single tuber, weighing about half a pound, and prepared a spot in our garden, by removing the dirt to the depth of eighteen inches and three feet in diameter, and filling this with one foot of well rotted chip manure. Over this a handful of salt was sprinkled, and the whole was covered two inches deep with soil, slightly mixing it with manure. The potato, which had but few eyes, was then placed in the hole uncut, and covered with six inches of soil. Land culture was given, but no attention. The result was over a peck of potatoes, of excellent quality, all sound. The vine, when growing has a rather wild appearance, but does not make a very rank growth. Notwithstanding the depth to which the seed was planted, the whole of the crop was very near the surface. In color it is a light peach blow - The flesh is very dry and very white. Its size is uniform, and rather above the medium. It has no strong or rank taste. In a year or two we hope to know more about it. - M. H. L., in Ohio Farmer.

Mr. Goodrich is the most skilful cultivator and propagator of new varieties of the potato in the United States, and for a long series of years has given his attention to this particular crop. He originated a large number of varieties, but this one seems to have come up to his standard more fully than any other. - Michigan Farmer.

Management of Cream in Cold Weather - For some reasons not yet known, cream skimmed from milk in cold weather, does not come to butter when churned, so quickly as that from the same cow in warm weather. Perhaps the pellicles, which from the little sacs of butter in cream, are thicker and tougher. There are two methods of obviating this trouble in a great degree. One is to set the pan of milk on the stove, or in some warm place, as soon as strained, and let it remain until quite warm - some say until a skim of cream begins to form on the surface. Another mode recommended, is to add a table spoonful of salt to a quart of cream when it is skimmed. Cream thus prepared will generally come to butter in a few minutes when churned. It is thought the salt acts upon the coating of the butter globules and makes them tender, so that they break readily when beaten by churning. - Maine Farmer.

Influence of extreme cold upon Seeds. - Some experiments have been made this year by Professor Elie Wartman, of Geneva, Switzerland, on the influence of extreme cold upon the seeds of plants. Nine varieties of seeds, some of them tropical, were selected. They were placed in hermetically sealed tubes and submitted to a cold as severe as science can produce. Some remained fifteen days in a mixture of snow and salt, some were plunged into a bath of liquid sulphuric acid, rendered extreme cold by artificial means. On the 5th of April they were all sown in pots and placed in the open air. They all germinated, and those which had undergone the rigors of frigidly produced plants as robust as those which had not been submitted to the test.

Asparagus - If a good, tender supply of this delicious vegetable is desired next Spring the beds should be generously supplied with manure this month.

50,000 COPIES ALREADY SOLD. EVERY BODY'S LAWYER AND COUNSELLOR IN BUSINESS. BY FRANK POTTER, Of the Philadelphia Bar.

It Tells You How to draw up partnership papers and gives general forms for agreements of all kinds, bills of sale, leases and petitions.

at Manufacturers prices. PRINTED PRICE LISTS now ready. Address,

F. W. HAY, Johnstown, Cambria Co., Pa. February 8, 1860-6m.

D. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, it is proved an absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Menses irregular, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from Chronic complaints one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent madness, sanguinous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overbearing, and, generally, regularly aperient, even in the most obstinate cases of constiveness without ever being a gastric purgative or inflicting a disagreeable sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

Dyspepsia innumerable are its causes, a single trial of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed emaciating and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, less of flesh and strength, debilitating cough, and remittent hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this restorative, and generally, indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Rheumatism, both Chronic and inflammatory - in the latter, however, more decidedly - it has been invariably successful, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, &c., should be addressed to R. B. LOCKE & Co., General Agents, 20 Cedar St., N. Y. May, 30, 1860-ly.

JOB WORK OF ALL KINDS DONE AT THIS OFFICE ON SHORT NOTICE AND AT REASONABLE PRICES.

READ THIS, AND STUDY YOUR OWN INTERESTS!

Watches, Clocks, & Jewellery, NOTIONS.

At the sign of the Big Watch, Main street, Johnstown, Pa.

The undersigned desires to call the attention of the people of Ebensburg and surrounding country to the fact that he has been appointed an Agent of a large importing house of WATCHES, CLOCKS, &c., and also of a large manufacturing establishment of JEWELRY, whereby he is enabled to offer such inducements to purchasers of these articles as were never before offered in this place, or anywhere this side of the Alleghenies.

He would also call attention to his large assortment of WATCHES AND JEWELRY just received - all of the latest styles and most beautiful workmanship. Having selected his stock with great care, he is confident he can suit every taste as to style as well as all pockets by the great reduction in prices.

THE LADIES

are particularly invited to an inspection of his present stock and prices. EAR DROPS hitherto sold at \$1.50 will now be sold at 75 cts., and warranted to stand the test of wear. Breast Pins, Rings, &c., at a reduction.

GENTLEMEN:

I would call your attention to my beautiful assortment of GOLD AND SILVER WATCHES, at the following very low prices:

Hunting Verge Watches, warranted, \$6.25
Hunting Silver Cylinders, hitherto sold in this town at \$20, and then reduced to \$14. I will now sell at from \$10 to \$16.50
Hunting Levers from \$12 to \$16.00
Open Face Cylinders, heretofore sold at \$10, I will sell at from \$7 to 8.00
Open Face Detached Levers, \$10 to \$12.00
All Watches sold will be warranted to go for twelve months, or exchanged for another of equal value.

Everybody is invited to call and examine the stock, as the advertiser is confident that for extent, variety and style it is unrivalled in the community, while the prices at which it is offered are unprecedented low. Goods sold for CASH only.

Particular attention paid to repairing Clocks, Watches, Jewellery, &c., of all kinds, for which the Cambria County Iron Company's "script" will be taken at par. All work warranted.

TOWN AND COUNTRY STOREKEEPERS supplied with Watches, Jewellery, &c., at less than city prices. JOSEPH G. HOLMES, Agent. August 3, 1856-ly.

LUMBER.

PINE POPLAR CHERRY AND ASH LUMBER bought and sold by E. HUGHES. June 29th 1859. 4f.

THE INVENTOR'S HORSE'S INDIAN ROOT PILLS

Alone we present you with a likeness of DR. MORSE - the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America - has spent three years among the Indians of our Western country - it was in this way that the Indian Root Pills were discovered. Dr. Morse was the first man to establish the fact that all diseases arise from the PURITY OF THE BLOOD - that our strength, health and life depended upon this vital fluid.

When the various passages become clogged and do not act in perfect harmony with the different functions of the body, the blood, in its action, becomes thick, corrupted, and diseased, thus causing all pains, sickness and distress, every name; our strength is exhausted, and health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out.

How important then, that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountains and in Nature's Garden, for the health and recovery of diseased men. One of the roots from which these Pills are made is a Sidairee, which cleanses the pores of the skin, and assists in throwing out the impure parts of the corrupt blood within. The second is a plant which is an expectorant, that opens and unclogs the passages of the lungs, and thus, in a soothing manner, performs its duty in throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives double ease and strength to the kidneys; thus encouraging the draw large amounts of impurity from the blood, which is then thrown out constantly by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity will not pass by the other outlets, are thus taken up and conveyed off in great quantities, by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, and are carried to every part, and completely root out and cleanse the system from all impurity, and thus give life to the body, which is the blood, bestows perfect health; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed, why they get sick, and why so many die, is because they do not get a medicine which will pass to the affected parts, and which will open the natural passage for the disease to be cast out; thus a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing a disagreeable fermentation
