

AGRICULTURE

A Chapter on Fencing. A correspondent of the Northeastern Farmer gives his views upon this topic as follows:—

I am aware that many fence without any regard whatever to the future. Leaving out of the account those who put up shacking, crumbling concerns at first, there are many who believe they are putting up substantial fences which from few points of neglect or ignorance, fall to the ground in a few years after.

Really, a post should never be put into the ground in a green state. I need not state the reasons. The end that is put into the ground should not have any bark on. Why need I state the reason? If not cyanized, every post should be charred or burned, at least one-fourth of an inch deep; i. e. so that the charred part shall be at least one foot above the surface, and one foot below the surface of the ground. The New York Farmers used to do that, and the posts lasted for life-time. The reason is obvious. While the post is clearing large quantities of water evaporate, leaving the post dry and the pores closed; the charcoal has the power of absorbing large quantities of air gases, rendering it a measure impervious to water. Finally, charcoal has the power of "resisting putrefaction or decomposition," thereby preserving the wood within. Illustration:—have you ever found charred logs lying in the woods, perfectly dry and sound inside, while logs lying beside them, and more recently fallen, were partly or wholly decayed?—prima facie evidence of the truth of my statement.

Well, then, having fixed the posts according to directions—they must have one straight hewn side if they are not sawed posts—put them in, if possible, two and a half feet deep and press the earth around them hard and solid. The wind cannot then sway the fence to and fro. Set the posts on an air line, so that the boards may be put on without warping them. If the ground be level, break joint with every other board. This makes the fence still more strong, as will be seen if rails are to be put on with nails, see that they fit well against the posts, or they will pry themselves off. Let every bit of the bark be taken off, so that the wood may harden and close its pores. Even poplar rails may be made to last as long by treating them in this way. As to rails I would advise a different method. Let the posts be morticed, and the rails inserted in the mortices.

Such a rail fence I believe meets with general acceptance, and yet I have a caution concerning them which very few think of. The rails are put in the mortice wedge shaped.—Don't put them in too tight, lest when they get wet and consequently swell they may split the posts. I have seen this done. Let me say in conclusion, that, although it requires more time to be particular, it is more profitable from beginning to end. No temporary concern is ever comely or useful, while more time and capital are ultimately used and needed.

Cranberry Culture.

Large ideas are formed of the profit of the cranberry crop, and justly too. With an ordinary produce, cranberries pay better at \$1.50 a bushel than any other crop that can be raised, and even at that comparatively low price, the farmer who has a bog field upon his farm, that he can devote to the cranberries, has a certain means of income, without much labor to realize it. The high prices that have ruled for cranberries of late years—reaching sometimes as high as \$15 a barrel—having induced many to go into their cultivation, who may be disappointed at the suggestion of realizing but \$150 a bushel for a crop. Yet they are worth no more. This price will enable families to use them at 6 cts a quart; at this price, the demand for them will be limited only by the supply, however great it may be. As it is now, at from 12 to 17 cents a quart, not one family in a hundred uses cranberries, except on extraordinary occasions. At the cheap price cranberry sauce would be as common as apple sauce. Two hundred bushels of cranberries may be obtained from an acre—sometimes as much more. It has frequently happened of late years that an acre of cranberries has produced a thousand dollars per annum. This is an absurd profit for the public to pay. We have read lately in an Agricultural journal that about 150 acres have been planted in Burlington county, N. J., with cranberries; this season; that a patch of ten acres, planted by a Mr. Allen, has yielded 150 bushels per acre, which he delivers to purchasers at \$4 per bushel; that the expense of planting them was \$25 per acre, and the cost of gathering from 50 to 60 cents a bushel—a most unreasonably and preposterous item, for it needn't cost ten cents a bushel.—These 150 acres will yield in the third year 150 bushels per acre—or 22,500 bushels, which at \$4 per bushel will come to \$90,000, more than ten times the value of the land. At the price we have named—\$1.50 a bushel—an acre would yield \$225; deducting \$50 for labor and interest, we have a profit of \$175 left, enough, one would think, to satisfy the most exigent greed for profits.

We hear from every quarter that cranberry meadows have been laid down, and we are glad of it. For there is promise of an abundant supply of this refreshing and healthy fruit at fair prices, and a promise, also, of sufficient and largely remunerative profits to cultivators and producers of the cranberry.—Boston Courier.

50,000 COPIES ALREADY SOLD. EVERY BODY'S BUSINESS AND COUNSELLOR IN BUSINESS. BY FRANK CROSBY, Of the Philadelphia Bar.

It Tells You How to draw up partnership papers and gives general forms for agreements of all kinds, bills of sale, leases and petitions. It Tells You How to draw up Bonds and Mortgages, Affidavits, Powers of Attorney, Notes and Bills of Exchange, Receipts and Releases. It Tells You The laws for the collection of Debts, with the Statutes of Limitation, and amount and kind of property exempt from Execution in every State. It Tells You How to make an Assignment properly, with forms for Composition with Creditors, and the Insolvent Laws of every State. It Tells You The legal relations existing between Guardian and Ward, Master and Apprentice, and Landlord and Tenant. It Tells You The symptoms of Pleurisy, Mumps, Neuralgia, Apoplexy, Paralysis, the various Diseases of the Throat, Teeth, Ear and Eye, and the best remedies for their cure.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and stomachic preparation of IRON purified by Oxygen and Gas, by combination in Hydrogen. Sanctified by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innocuous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrophulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from Chronic complaints one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. It yields so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise which no physician is able to remove.

In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating, and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative or officiating a disagreeable sensation.

In this latter property, among others which make it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspepsia innumerable are its cures, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant constipation.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed emaciation and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrophulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities. The attention of females cannot be too confidently invited to this restorative, in the cases peculiarly affecting them.

In Rheumatism, both Chronic and Inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles. In intermittent fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box for sale by drug, confection, &c. Will be sent free to any address on receipt of the price. All letters, orders, &c., should be addressed to R. B. LOCKE & Co., General Agents, 20 Cedar St., N. Y. May, 30, 1860.

SADDLERY! SADDLERY! THE SUBSCRIBER would respectfully inform the citizens of Ebensburg and surrounding country, that he has opened a Saddle shop, in the basement of his dwelling house, on Horner street, where he is prepared to furnish to order on the most reasonable terms, every description of Saddles, Bridles, and Harness &c.

Having many years' experience in the business, employing none but the best workmen, and using the best material upon all his work, he hopes to merit and receive a liberal share of the public patronage. Country produce at all times taken in exchange for work, and the highest market prices allowed. JAMES MAGUIRE. Ebensburg, Sept., 14, 1859.—1f.

JOB WORK OF ALL KINDS DONE AT THIS OFFICE ON SHORT NOTICE AND AT REASONABLE PRICES. June 29th 1859. 4f.

MOORE'S INDIAN ROOT PILLS. Above we present you with a likeness of DR. MOORE—the inventor of MOORE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Moore was the first man to establish the fact that all diseases arise from THE PURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted, and diseased thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be thrown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Moore's Indian Root Pills, manufactured from plants and roots which grow around the mountains and in Nature's Garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sulfurifer, which opens the pores of the skin, and assists Nature, in throwing out the finer parts of the corruption within. The second is a plant which is an expectorant, that opens and unclogs the passages of the lungs, and thus, in a soothing manner, performs its duty, drawing off phlegm, and other humors from the lungs by copious sputum. The third is a Diuretic, which gives double strength to the kidneys; thus encourages, the draw large amounts of impurity from the blood, which is then thrown out beautifully by the urinary or water passage, and which could otherwise have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of these Pills in opening and purifying the blood; the coarser particles of the blood, which cannot pass by the natural outlets, are taken out and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Moore's Indian Root Pills not only enter the stomach, but become united with the blood, so they find way to every part, and completely root out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the affected parts, and which will open the natural passage for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are overloaded with the corrupted mass; thus rendering a disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. In Moore's PILLS have added to themselves victory upon victory, by restoring millions of the blooming health and happiness. Yes, they are who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Moore's Indian Root Pills. After one or two doses had been taken, they were astonished, and almost surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they take away all the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cheer and brighten your days.

Sold by Thomas Devine, Ebensburg, and by Medicine Dealers generally throughout the County: B. Lake Johnson, successor to A. J. White & Co., No. 12 Leonard St., N. Y.; Proprietors: William Mugger, No. 120 Broadway, Dr. A. Traak's Magnetic Cabinet, 111 E. Madison county, N. Y., General Agents. August 3, 1859:ly.
