

AGRICULTURE

Operations for February 1861.

Winter yet holds its sway at the North, though, thus far, its reign has been less severe than is often experienced. A short hay crop has, in previous years, often been followed by the compensation of a mild Winter, yet many always suffer loss for want of sufficient fodder to winter stock properly. Much may be saved by providing warm shelter; and those who have, in addition, a good stock of roots to draw upon now, find the benefit of the provision. Let those who are inconvenienced by short supplies at this time, make a note of it, and guard against like trouble in future.

Barn and Stables.—Keep out the wind and storms, but provide sufficient ventilation to carry off all effluvia. The odors arising from excretions, if confined make the atmosphere unwholesome for animals, and impart a taint to their feed. Cellars.—Sort over potatoes, roots, apples, &c., and remove all decaying matter. If more apples were stored than are needed for family use, market them, or feed to stock.—Examine pork and beef barrels; some may need new brine. Experiment with rats. Clover Seed.—Provide a supply of this for sowing upon the winter grain fields, as Spring approaches. A lot of clover for pasture is good; and the best and cheapest manure is a tall growth of clover plowed in. Drains in the yards, by the roadsides, and in the fields should be kept free from obstruction, as far as possible. Improve every thaw to attend to this. It is the expansion of water in the soil, and not of the soil itself, that renders the roots of plants, and winter kills them.

Fencing.—Add to the stock of materials if needed, and commence repairs as early as may be. Fuel.—Have a year's supply ready for the stove. Spring will bring work enough without this additional labor. Besides, dry fuel is best, and the cheapest. It always takes the best of a portion of green wood to dry out the moisture from the rest. Grain Fields.—Keep all stock from feeding or trampling them.

Hired Help.—Engage good trustworthy hands for the ensuing season. One or two dollars per month is a small matter compared with the loss and vexation caused by ignorance or careless help. Hogs.—Warm, cooked food is economical. Keep them in good appetite by occasional changes of diet. Give potatoes, meal, a little chopped hay steamed, refuse vegetables, &c., with grain and meal. Keep the pens clean and well littered with leaves or straw.

Lime and Plaster.—Get at least a few barrels of these home during Winter, to sow on your wheat in Spring, and upon the pasture fields and meadows. A stip sown through each field, will most likely show good results, or at least indicate whether a larger expenditure for these fertilizers will or will not pay.

Manures.—Make and save all possible.—Cart out and deposit in heaps in the field in suitable weather. Fine compost may be advantageously applied to meadows now, thus securing an early and rapid growth in Spring the surface will also be less cut by drawing it while the ground is frozen.

Maple Sugar.—Prepare necessary apparatus.—Commence making as soon as the sap will flow. Shallow evaporating pans are best to try.

Seed.—Make ample provisions for seed corn spring wheat, oats, and whatever else will be needed. It is better done now than in the hurry of Spring.

Sheep.—Provide ample shelter separate from other stock. Keep them in good condition with roots or grain added to hay.—Breeding ewes will breed stronger lambs and be less enfeebled thereby, if properly cared for through the Winter.

Tools.—Put in complete repair. Procure improved implements for the coming season. On many farms one or two extra hands may be saved by introducing labor-saving contrivances.

Facts for Farmers.—If you invest money in tools, and then leave them exposed to the weather, it is the same as loaning money to a spendthrift without security—a dead loss in both cases. If you invest money in books and never read them, it is the same as putting your money into a bank, but never drawing either principal or interest.

If you invest your money in fine stock, and do not feed and protect them, it is the same as dressing your wife in silk to do kitchen work. If you invest your money in choice fruits and do not guard and give them a chance to grow and prove their value, it is the same as putting a good hand in the field with poor tools to work with.

If you invest your money in a good farm and do not cultivate it well, it is the same as marrying a good wife, and so abusing and enslaving her as to crush her energies and break her heart.

If you invest your money in a fine house, and do not cultivate your mind and taste so as to adorn with intelligence and retirement, it is as if you were to wear broad-cloth and a silk hat to mill.

If you invest your money in fine clothes and do not wear them with dignity and ease, it is as if a ploughman were set at a jeweler's table to make and adjust hair springs.—Patriot Register.

50,000 COPIES ALREADY SOLD. EVERY BODY'S LAWYER AND COUNSELLOR IN BUSINESS, BY FRANK POTTER, Of the Philadelphia Bar.

D. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctified by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Inipient Consumption, Scrophulous Tuberculosis, Salt Rheum, Menstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c. In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from the experience of thousands daily proves that no preparation of Iron can be compared with it. Chronic complaints one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very singular instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that compulsion of nervous and dyspeptic aversion to air and exercise for which the physician has no name. In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, directly and indirectly, it is vigorously tonic, without being exciting, and ever-heating, and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative or inflicting a disagreeable sensation. It is this latter property, among others which makes it so remarkably essential and permanent a remedy for Fevers, upon which it also appears to exert a direct and specific action, by dissipating the local tendency which forms them. In Dyspepsia innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness. In unchecked Diarrhoea, even when advanced to Dysentery, confirmed emaciation and apparently malignant, the effects have been equally decisive and astonishing. In the local pains, loss of flesh and strength, debilitating cough, and remittent fever, which generally indicates Inipient Consumption, this remedy has stayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrophulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of Bismuth, without any of their well known liabilities. The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. In Rheumatism, both Chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and relieving the swellings and stiffness of the joints and muscles. In Intermittent fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness. No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid increase of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, &c., should be addressed to R. B. LOCKE & Co., General Agents, 29 Cedar St., N. Y. May, 30, 1860.

SAADDLERY! SAADDLERY! THE SUBSCRIBER would respectfully inform the citizens of Ebensburg and surrounding country, that he has opened a Saddler's shop, in the basement of his dwelling house, on Horner street, where he is prepared to furnish to order on the most reasonable terms; every description of Saddles, Bridles, and Harness &c.

Having many years' experience in the business, employing none but the best workmen, and using the best material upon all his work, he hopes to merit and receive a liberal share of the public patronage. Country produce at all times taken in exchange for work, and the highest market prices allowed. JAMES MAGUIRE, Ebensburg, Sept. 14, 1859.—4f.

THIS WAY. JUST RECEIVED AND FOR SALE A large and splendid Assortment of American Pocket Knives. (Every knife warranted.) by GEORGE HUNTLEY. August, 10, 1859. 3f.

JOB WORK OF ALL KINDS DONE AT THIS OFFICE ON SHORT NOTICE AND AT REASONABLE PRICES.

DR. MORSE'S INDIAN ROOT PILLS. ABOVE we present you with a Effluvia of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depend upon this vital fluid.

When the various passages become clogged and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted, and diseased, thus causing all pains, sickness and diseases of every name; our strength is exhausted, our health we are deprived of, and if nature is assisted in throwing off the stagnant humor, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, named Dr. Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainside in Nature's Garden, for the health and recovery of diseased man. One of the roots in which these Pills are made is a Sassafras, which acts upon the pores of the skin, and assists Nature in throwing out the four parts of the blood, which is the cause of all diseases, and which has been discovered, that opens and unclogs the passages of the lungs, and thus, in a soothing manner, performs its duty in throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives double the strength to the kidneys; thus encouraging the slow large amount of impurity from the blood, which is then thrown out bodily by the urinary or water passages, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other purgatives of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus cast up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for the purpose to every part, and completely cleanse the system from all impurities, and restore the life of the body, which is the blood, because perfectly healthy; consequently all diseases which remain in the system, for any length of time when the body becomes impure, are cured. The reason why others are so disappointed is, that they do not use Dr. Morse's Indian Root Pills, but use some other medicine which will pass by the urinary and water passages, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other purgatives of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus cast up and conveyed off in great quantities by the bowels.

READ THIS, AND STUDY YOUR OWN INTERESTS! JUST RECEIVED, A NEW STOCK OF Watches, Jewelry, &c., &c. At the sign of the Big Watch, Main street, Johnstown, Pa.

The undersigned desires to call the attention of the people of Ebensburg and surrounding country to the fact that he has been appointed an Agent of a large importing house of WATCHES, CLOCKS, &c., and also of a large manufacturing establishment of JEWELRY, whereby he is enabled to offer such inducements to purchasers of these articles as were never before offered in this place, or anywhere this side of the Alleghenies. He would also call attention to his large assortment of

WATCHES AND JEWELRY just received—all of the latest style and most beautiful workmanship. Having selected the stock with great care, he is confident he can offer every article to suit as well as all products by the great reduction in prices.

THE LADIES are particularly invited to an inspection of his present stock and prices. EAR DROPS hitherto sold at \$1.50 will now be sold at 75 cts., and warranted to stand the test of use. Breast Pins, Rings, &c., at a reduction.
