The Mountaineer vs., Union and Harmony.

When we took occasion a few weeks ago, in an editorial article, to briefly advocate the reorganization of the Democratic party in this County, little did we think that we were commeneing a controversy with the Mountaineer. From what we we had seen and heard, we were induced to hope, that its editors were as anxious as we were, that the past should be forgotten, and the Democrats who differed with each other during the late campaigu sho'd henceforth be found fighting side by side and shoulder to shoulder against the common enemy. But it turns out that this hope was visionary. Our neighbors down street seem determined "to put their feet" on the compromimovement, and fight over again the ill starred contest of last year. They prefer the election of a black Republican member of the Legislature Sheriff, County Commissioner &c. next fall, to a union of the Democratic party in this County on fair and honorable terms, which would insure for it a brilliant victory now convinced of the truth of the remark which we heard fall from the lips of an old Democrat the evening the Mountaineer estab-

lishmment was brought to this place .- "That concern," said he, "has been brought here for the purpose of breaking down the Democratic party in this County." He was right, and it has performed its work well. It has succeeded in breaking down the party, and now that it has done so, it is determined that its work shall not be undone. It is there fore down on the compromise movement, and is determined that the old fight shall go on, unless those who condemned its course during the late campaign, will humbly surrender themselves to the Mountaineer clique, and faithfully promise to behave themselves in the future; Here we think it right to state, that when we speak of the Mountaineer clique, we do not allude to the Douglas party of this County, but to a little coterie of politicians in Ebensburg, high in the confidence of the Pennsylvania Rail road Company, who think that the decrees which they promulgate from the r "pent up Utica," should bereceived and recognized as law by the Domocracy in every section of the County We know scores of Douglas Democrats, who are as anxious for an honorable compromise of our local difficulties as we are, and who condemn the recent course of the Mountaineer. We need only mention the names of John Fenlon, Esq., Col. M. Hasson, and John S. Rhey Esq. ali of whom were ardent friends of Judge Douglas last fall, but who are now anxious that the past shall be consigned to oblivion, and all differences now existing adjusted by an honorable conspremise. Daniel M'Glaughlin, Esq., of Gallitzin, who was among the most zealous, active, elequent and efficient advocates of Douglas in this County last year, assured us during the second week of March Court, that he fully endorsed our views with regard to the necessity of immediately reorganizing the party in this been painfully illustrated by our National | County, that he thought our plan was fair and difficultes during the last six months, and the honorable, and should prove acceptabe to all. secession of seven States from the Union; and | We might cite the names of many more Douglas men who have expressed similar views. it will have plunged the Country into a civil | but these are sufficient for illustration. But the charge was believed, and answered the purpose intended by those who gave currency to it. Of course right men, but it contained a few of the corruptest politicians in the State. For instance Maynard, who figured in Forney's bogus conventions in 1859, and Cessna, of Bedford, who occupied a conspicuous position on Forney's bogus electoral ticket last fall; both of whom were the special friends of Mr. Johnston and his colleagues, and assisted the Railroad borers is obtaining them their seats. The Convention, as we said before, met for the purpose of endeavoring to do something towards saving the Union from dissolution, and not for the purpose of settling and adjusting the local quarrels ann differences of the Democracy of Cambria.

It did not bear this statement of the contestants, and we are certain nine tenths of its members at the time, knew as little about the facts of the case, as they did about the Japanese or Choetaw language. The Demtitled to no more respect or confidence from ocracy of Cambria never agreed to refer their the public, than a quack Medicine advertiselocal difficulties to the Convention. No man ment, or a lottery circular ; at least we think in the State entertains higher respect for so. How can this be effected ? By meeting as we said a few weeks ago, your Breckenridge friends in the spirit of concord, of devotion is the patriotic and national principles of our glotions old party. You doubtless honestly believe that the committee of which Mr. Douglass is chairman is the regular County committee. Your Breckinridge brethern believe with equal firmness honesty and sincerity, that the committe of which Mr. Durbin is chairman is the regular committee and should be recognized as such How then can this honest difference of opinion he reconciled and amicably adjusted ? Not certainly, by the Breckenridge Democracy basely deserting their committee, and surrending ignominiously to you, nor by you deserting your con my rest. mittee and surrendering ignominiously to the Breckinridge men. You should not ask others to do what you would not like to do yourselves. west. Do not seek to disgrace, degrade and humbl those whom you should regard as your friends and brethern, and who are really bearing their gifts to the same political altar that you are." If a fair and honorable compromise is not effected, the two committees will continue to act separately, two Conventions will be hild, and two Democratic tickets placed in the field. The result will be a Black Republican triumph in next October. We think this state of affairs can only be prevented by the two County committees meeting made him stand gether on terms of perfect equality, amicably adjusting our party difficulties, and issuing a joint call, signed by Messrs. Durbin and Douglass, for the holding of a County Convention .s will be alike fair and honorable to both pars, and insure for the Democracy a brilliaut victory next fall. Douglas democrats, act indpenile be ntly in the matter and do not allow yourselves to be influenced and controlled by a few ambitious young lawyers in Ebensburg. Ebensburg politicians have no right to rule the County. Remember that the olive branch has been held out to you, and that if you reject it, with you will rest the responsibility of the defeat of the Party in this County at the approaching election.

We presume it is unnecessary for us to state, that under this arrangment the Democrat & Sentinel will continue to uphold the men and measures of the Democratic party. We are both devotedly attached to that party, because we believe that its principles are right, and because we regard it as the only national organization in the Country. We are opposed to the spirit of Sectionalism, whether under the name of Abolitionism, or disguised beneath the inappropriate title of Republicanism.
