AGRICULTURAL.

A Shiftless Famer.

Just catch a glimpse of him. He throws his manure out under the eaves of his barn, and lets it lie in sun and air, leaching away half its strength into the neighboring streams. He neglects to make use of many other useful matters which might go to increase the compost heap—such as bones, ashes, chip-dirt, forest-leaves droppings of hen roosts &c. Yet at the same time he buys stable manure at the neighboring town, and carts it home at considerable expense.

He allows noxious weeds to overrun his land—white daisy, snap dragon, burdock yellowdock, quack grass, Canada thistle, and other wild roots too numerous to mention. The time was, when most of these could have been extermined by a little labor. When they first appeared in small numbers, a very little work with a weeding hoe or dock extractor would have headed them off entirely. But now having had full swing for several years, they laugh at the shiftless man's puny efforts and windy threats. But this is not the worst of the evil. The neighboring farmers are active and enterprising men, and have done their best to keep their land clear of foul roots but the seeds blow over in clouds from the shiftless man's fields, and they are almost in despair. What can they do?

He keeps poor fences. When he sees a rail broken here, a board off there; or a post rotten or falling beyond, he is very sory, and hopes a good time for fencing will soon come but he don't repair at once. Bad becomes worse hungry cattle leap the tottering fence, and down it all comes; wheat fields, and hay fields are trampled down; and farmers suffer loss; and very likely, he and his neighbors are soon having a delightful lawsuit.

These are only a few broad lines of our portrait; the likeness will probably be detected without any further touches of the bush.—*Agriculturist*

How Canada Prize Butter was Made.

The winner of the silver medal for the best butter shown at the Provincial Exhibition, at Hamilton C W., gave the process of making it as follows:

'My dairy of eight cows, which are regularly milked twice a day. I use earthenware pans which are scalded with hot water and them cooled with cold water every time they are used I let my milk stand forty-eight hours; I stir my cream every morning; churn twice a week and use a box churn. I bring my cream out of the cellar over night and let it stand till the temperature is about 60 deg., then it generally takes from forty to sixty minutes churning; When the globules of cream begin to break, I put a little cold water into the churn, and continue to do so until the butter is well gathered. I have my butter tray well scalded with boiling water, then rinced with cold water, then take the butter out of the churn with a wooden ladle, and first work out the buttermilk; secondly wash it well with clear cold water, and thirdly I work in the salt in the proportion of about one pound of salt to twenty pounds of butter; after which I wash it again with cold water, and let it stand in the butter tray in the cellar till evening, then work it again and get all the water out possible. It is then ready to pack in the firkin.

The manner in which I prepare the firkin for use is as follows

I first put a handful of bran and one of salt into the firkin, and also one pail of scalding water, and cover it close for an hour, after which I empty and fill with cold water and let it stand a day, then empty, and rub well with salt; the firkin is now ready for use, I pack the butter with a wooden ladle, when the firkin is full I put a cloth on the butter and cover with a thick layer of salt to keep the air from the butter. I use the common salt, rolled, and I consider it the best.—*Rural New Yorker.*

Fattening Sheep.—Oil cake comes rather high now in market. Next to oil cake, the best food is a mixture of Indian meal and oat meal about equal parts, bulk for bulk, say a bushel of oats and a bushel of corn ground together. In this mixture the weight of corn meal will be greater than the oat meal. A pound of this mixture per day, with two or three pounds of good hay, according to the size of the sheep, will make good sheep. — Beats are very fattening to sheep, but rather costly. Let the sheep have all the water they want. They are the best judges whether they want it or not.—*Main Farmer.*

Meat Preserved in Molasses.

'Sugar cured hams' have been long in fashion in this country. They are moderately salted, and sugar or molasses added to assist in their preservation. In France, all sorts of fresh meats are preserved by molasses alone. An article in L'Invention asserts that meat may be preserved by molasses alone in the most perfect manner, and with the following important advantages:

It has an agreeable flavor, it produces no scurvy or other disorders which result from the use of salt food, and it may be prepared at a moderate price.

The process consists in cutting the meat into pieces of moderate size and dropping them into the molasses. When the external molasses has acquired a certain degree of lidiquity from the juices of the meat, it shows that it is thoroughly impregnated. It is now taken out of the molasses and hung in the current of the air to dry.

50,000 COPIES ALREADY SOLD.

EVERY BODY'S LAWYER AND COUNSELLOR IN BUSINESS,

BY FRANK CROSBY,

Of the Philadelphia Bar.

It Tells You How to draw up partnership papers and gives general forms for agreements of all kinds, bills of sale, leases and petitions.

It Tells You How to draw up Bonds and Mortgages, Affidavits, Powers of Attorney, Notes and Bills of Exchange, Receipts and Releases.

It Tells You The laws for the collection of Debts, with the Statutes of Limitation, and amount and kind of property exempt from Execution in every State.

It Tells You How to make an Assignment properly, with forms for Composition with Creditors, and the Insolvent laws of every State.

It Tells You The legal relations existing between Guardian and Ward, Master and Apprentice, and Landlord and Tenant.

MANHOOD,

How Lost. How Restored.

Just Published, in a Sealed Envelope,

A Lecture on the Nature, Treatment and Radical Cure of Spermatorhœa, or Seminal Weakness, Sexual Debility, Nervousness and Involuntary Emissions inducing Impotency, and Mental and Physical incapacity.

BY DR. J. CULVERWELL, M. D.,

Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience, that the awful consequences of Self abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself *cheaply, privately, and radically.* This lecture will prove a boon to thousands and thousands.

Sent under seal to any address, *post paid*, on the receipt of two postage stamps, by addressing Dr. CH. J. C. KLINE, M. D., 127 Bowery, New York, Post Office Box 4586.

March 20, 1861. April 11, 1860.–1y.

D. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctified by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innocious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Misemenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from Chronic complaints one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative or inflicting a disagreeable sensation.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed emaciating and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and recultant hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculsis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of chlorine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this *remedy* and *restoratice*, in the cases peculiarly affecting them.

In Rheumatism, both Chronic and inflamatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole his tory of medicine, which exerts such prompt, happy and fully restorative effects. Good appetites, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, ect., should be addressed to

R. B. LOCKE, & Co., General Agents,

20 Cedar St., N. Y. May, 30,1860:1y.

LUMBER.

PINE POPLAR CHERRY AND ASH LUMber bought and sold by

E. HUGHES.

June 29th 1859. tf.

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered, Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood has no action, becomes thick, corrupted, and diseased, thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become clotted and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, MORSE'S Indian Root Pills, manufactured from those roots which grow around the mountains of Nature, in Nature's Garden, for the health and relief of the good men. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is a gentle purgative, and operates directly upon the bowels, and liver, in a soothing manner, and forms no duty in these useful pills, and the third is a Diuretic, which gives a double action and strength to the kidneys, thus cleansing, purifying and discharging large amounts of impurity from the blood, which is then thrown out forcibly by the urinary or water passage, and which could not have been discharged in any other way. The last is a Cathartic, and accompanies the other portion of the Pills which engaged in purifying the blood; the coarser particles of impurity which were passed by the other outlets, are thrown up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. MORSE'S Indian Root Pills not only enter the system but become united with the blood, for they act in every part, and completely renovate it, thus driving from all impurity, and Life of the body, which is the blood, leaving it perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and bright.

The reason why people are so distressed, sick, and why so many die, is because they do not get a medicine which will pass to all the internal parts, and which will open the natural passages for the disease to be cast out; hence a large quantity of food and other matter is left in the stomach and intestines to remain and decay, with the corrupted matter, and to mingle with the blood, which throughout the whole body every vein and artery will be taken from the body by disease. But MORSE'S PILLS have relieved them of every disease upon victory, by restoring millions of people to the blessing health and happiness. Yes, thousands who have been racked in tormented with pain and anguish, and whose bodies have been wasted by the burning effects of fever, and who have been brought to the verge, within a step of the silent grave, are now all ready to testify that they were restored to perfect health by the use of this great and wonderful medicine, MORSE'S Indian Root Pills. After others have taken, they were not cured, but survived, to witness the fruits of their folly. Not only do they give immediate strength, and take away all disease, pain and anguish, but they at once go to the foundation of the disease, which is IMPURITY. Therefore, it will be shown, conclusively, to those who use them Pills, that they will cleanse, purify, that disease—that deadly enemy—has to flight, and the fresh of vigorous health will again return, and the prospect of a long happy life will cheerful and brighten around.

☞ Sold by Thomas Dodge, Ebensburg, and by Medicine Dealers generally throughout the County; R. Lake Jackson, Johnstown; White & Co., No. 60 Liberty st., N. Y.; Wholesale agents: William Mather & Co., Philadelphia; Dr. A. Travis Manufacturing Chemist, Madison county, N. Y., General Agents.
