 HOSTETTER'S STOMACH BITTERS.

The propri tors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to phy sicians and citizens generally of the United States because the article has attained a reputation heretofore tucknown, A few facts upon this point will speak more powerfully than volumeson bare assertions or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bot tles. This immense amount could never have been sold but for the rare medicinal properties c estained in the preparation, and the sanction, of a medicated compound, to be worn around the the most prominent physicians in these sections who not only recommende the Bitters to their

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpering the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stemach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds To be able to state confidently that the "Bitters" are a certain cure ate cases are cured in a few days, and we are for the Dyspepsic and like diseases, is to the proprieters a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifles the blood, and imparts renewed vitality to the nervous syste for giving it that tone and energy indispensable at the restoration of health. It operates upon the domach, liver, and other igestive organs, milaly but powerfully, and soon restores them to, condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily a

per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, in vigorating to the bowels, excellent as a tonic, and rejuverating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this prepgration while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods wheatheir cares are so har rassing that many of them sink under the trial. The relation of mother and child is so absorbing ly tender, that the mother, especially it sac is young, is apt to forget her own bealth in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is gegerally aggrava ted. Syphilis and Mercurial Disease. New Onleans, 25th August, 1859.

Dr. J. C. Ayer. Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wood rial in the cure of Teneral and Mercured Diamac. One of my patients had Syphilitic nlears in his thront, which were consuming his polate and the top of his mouth. Your Saisaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his ness, and the ulcaration had calen gway a considerable part of it, so that I believe the caten away a considerable part of it, so that I believe the disorder would need reach his brain and kill him. But it yielded to my administration of your Sarseparille; the ulcer's healed, and he is well agalu, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by mercury was suffering from the poisson in her hous.
