### A NIEW DEMOCRATIC MORNING PAPER!

With a view to meet a universally admitted want, the undersigned will issue on Monday, the first of July next, a morning Penny Paper, to be called "THE UNION,"

The great mission of the Democratic Party, which has ever stood as the bulwark of the restore it to its original color; likewise it UNION and the champion of the CONSTITUTION, renders its entire unity and bold attitude in this hour of National peril a matter of vital concern. The pending struggle is not less for the maintenance of a United Country than for the Perpetuation of Democratic Principles, as expounded by JEFFEBSON and JACKSON. The most momentous results hang upon the issue. Mere party questions are for the time by common consent adjourned. The past is dead, save in its lessons of experience.

The Democratic hosts have not shrunk from their full share in the responsibilities and dangers of the emergency. They have rallied with one accord around the standard of our common country. But the occasion imposes other duties. The Government will demand and receive the willing support of every patriot, in its efforts to to vindicate the National houor and re-assert the National authority; but the Preservation of than with Congresses and Cabinets. Vigilance present juncture. It is the purpose of the Proprietors to make "THE UNION," in every respect a first-class from the permicious effects of mercury. Moder-

The Proprietors have perfected such arrange ments as will place the enterprise, from the beginning, upon a substantial business basis, with abundant means to make a Newspaper second in interest and ability to no other in the city ; and while the paper will be fearlessty Democratic, it will sedulously avoid all faction, as the deadliest bane to party efficiency

We look to the DEMOCRATIC MASSES for supp rt, and shall labor to make "THE UNION" in every way worthy their confidence and liberal patronage, as a fresh, readable and fearless Jour-

### HOSTETTER'S STOMACH BITTERS.

The propri tors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States because the article has attained a reputation heretofore unknown, A few facts upon this point will speak more powerfully than volumeson bare assertions or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million botties. This immense amount could never have been sold but for the rare medicinal properties contained in the properation, and the sanction, of the most prominent physicians in those sections of the country where the article is best known, who not only recommende - the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bibous complaints have counted their victims by hundreds To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsic and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, putifies the blood, and imparts renewed vitality to the nervous systefor giving it that tone and energy indispensable st the restoration of health. It operates upon the domach, liver, and other digestive organs, milaly but powerfully, and soon restores them to condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of theusands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangevice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler scx. There are certain periods when their cares are so har rassing that many of them sink under the trial. The relation of mother and child is so absorbing ly tender, that the mother. especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer serson, the wear of body and mind is gegerally aggrava tel. Here then, is a necessity for a stimulent to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as cer-

And for the speedy care of the subjoined varieties of

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pim-ples, Pustules, Blotches, Boils, Blains, and all Skin Discases.

OAKLAND, Ind., 6th June, 1859. J. C. AYER & Co. Gents: I feel it nov duty to ao knowledge what your Sarsaparilla has done for me. Having inherited a Scrofalous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and cars with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from my thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your repu-tation that any thing you made must be good. I sent to Cinciunati and got it, and used it till it cured me. I took it, as you advise, in small doses of a treaspoorful over s Cincinnati and got it, and used it tall it curved me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three boildes. New and healthy ikin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is gone from my system. You can well believe that I teel what I am saying when I telf can well believe that I teel what I am saying when I telf you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours, ALFRED B. TALLEY.

Leucorrhea or Whites. Ovarian Tumor, Uterine Ulceration, Female Diseases. Dr J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we em-ploy such a remedy, but especially in *Fenale Diseases* of the Scroinlous diathesis. I have carred many invet-erate cases of Leucorrhera by it, and some where the complaint was caused by *ulceration* of the *ulcera*. The ulceration itself was some usered. Nothing within me

ulceration itself was soon cured Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, Ala, writes : "A dan-gerous ovarian famor on one of the femiles in my family, which had defied all the remedies we could employ, has

at length been completely cured by your extract of Sar-separilla. Our physician thought nothing but extirpa-tion could afford relief, but he advised the trial of your Sarsaparilla as the last resort before entring, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

#### Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease. New ORLEANS, 25th August, 1853. Dr. J. C. AYER. Sir: I cheerfully comply with the request of your agent, and report to you asone of the effects I have realized with your Sarsaparilla. I have cured with it, in my practice, most of the com-plaints for which it is recommended, and have found its effects truly wonderful in the cure of *Temercal and Mer-*curial Disease. One of my patients had Syphilitic alcers in his throat, which were consuming his pahte and the top of his mouth. Your Sarsaparilla, steadily taken, mired him in five weeks. Another was attacked by seetop of his mouth. Your Sursepartin, sheadily taken, cared him in five weeks. Another was attacked by sec-ondary symptoms in his nose, and the alcoration had enten away a considerable part of it, so that I helieve the disorder would soon reach his train and kill him. But it yielded to my attainistration of your Surseparilla; the alcore healed, and he is well again, not of course without some disformation of the face. A meanwarks had been some disfiguration of the face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensifrom this poison in her bones. They had become so acces-tive to the weather that on a damp day she suffered ex-cruciating pain in her joints and kones. She, too, was cured entirely by your Sarsanarilla in a few weeks. I know from its formalla, which your figent gave me, that this Preparation from your laboratory must be a great remedy , consequently, these truly remarkable results with it have not surprised me. > Oak Grove, S. C. June 24th, 1859. PROF. C. J. Wood : Dear Sir :- Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Itair Resorative a perfect test :--

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock and whether they then succeeded in gett- near the toad side, from which my head received a most terrible blow; causing a great deal of iritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dopping, however up to the time of its total disapearance, I employed evrything I could think of, being a profissional man myself and, as I thought, understanding the nature of disease, but was finally defeated in every prescrption advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result : two months afte. the first application, I had as beautiful a head of young hair as ever I saw, for which I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

Mr. Empt, advised me to try your Sarsanarilla, because he said be knew you. me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the bless-ing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. These that can be said of you is not half good enough." The
