ar John E. Scanlan, Esq., of the Cambria Guards, having been granted a brief furlough by the Colonel of the regiment, arrived in this place on last Friday evening, on a visit to his friends. He returned to Camp on Monday. He looked remarkably well, and was in excellent spirits. All of the Company are in good health. He informed us that all of the regiments in Camp Wright have been ordered to report at Camp Curtin, near Harrisburg, to morrow, when they will be fully equipped, and immediately forwarded to the scat of war. WONDERFUL .- Mr. Nicholas Snyder, the other day, while engaged in dressing the stone for the foundation of the new dwelling house which is being erected by Mrs. McDonald, on High street, hal occasion to break or cut several feet from one end of a large block of white sandstone. On doing so, he was astonished to discover, nearly a on from the surface of the stone on every side, a quantity of sweet beier leaves. There was no opening or crevice from them to the surface of the to furnish farmers and others with sone whatever, and how they came thus to be deposited in almost the heart of a solid sandstone block, is a mystery to all at least, who are not geologists. We we not enough of a geologist to risk an opinion with report to the age of the rock in which the lates were deposited, but entertain no doubt that it lares back to the years beyond the flood, colling the sweet brief leaves before us, still so ish and fragrant, "scented the evening gale" of the bong bright days of a summer,

PROF. WOOD'S

RENOVATOR.

is precisely what its name indicates, for, while pleasant to the taste, it is revivifying exhilerating, and strengthening to the vital powers. It also revivines, reinstates and renews the blood in all its original purity. and thus restores and renders the system in-vulnerable to attacks of disease. It is the only preparation ever offered to the world. reach of all. So chemically and skillfully combined as to be the most powerful tonic, r and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perectly exhilerating in its effects, and yet it is never followed by lassitude or depression of

ful tonic and soothing properties, and con sequencetly can never injure. Such a emedy has long been feit to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also all who have suffered from debility; or it needs no medical skill or knowledge of disease, and lavs the ungarood system open to the attacks of many of the most

spirits. It is composed entirely of vegeta-,

bles and those thoroughly combining power-

dangerous to which poor httmsnity is con stantly liable. Such, for example, as the following; consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart Melancholy, Hypoondria cases, so fearfully fatal if unattended to in time, called Female Weakness and

Tregularities. Also Liver Derangements, or Torpidity, and Liver Complaints, Dis cases of the Kidneys, Scalding or Inconfitence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficul-ty of Breathing, and indeed we might ennu merate many more still, but we have space only to say, it will not only cure the debil ity following Chills and Fever, but prevent

all attacks arising from Miasmatic Influenes, and cure the diseases at once, if already ttacked. And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting in fact, all a excretions and secretions of the system, it will infallibly prevent any deliterious conequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a

able spoonful at least before cating. As it prevents costivene s, strengthens the distive organs, it should be in the hands all persons of secentary habits, students, by ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agreable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial she will pass the dreadful period with perfect safet . HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States because the article has attained a reputation heretofore unknown; A few facts upon this point will speak mofe powerfully than volumeson bare assertions or blazoning puffery. The con-sumption of Hostetter's Stomach Bitters for the fast year amounted to over a half million bottles It is a conveniently arranged Band, containing and from its manifest steady increase in times

fast year amounted to over a half million bottles and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bot tles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction, of the most prominent physicians in those sections of the country where the article is best known. of the country where the article is best known. who not only recommende the Bitters to their patients, but are ready at all times to give testionials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom This is not a temporary popularity, obtained

by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsic and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous systefor giving it that tone and energy indispensable st the restoration of health. It operates upon the domach, liver, and other digestive organs, milaly but powerfully, and soon restores them to condition essential to the healthy discharge of the functions of nature,

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find u it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvebaling generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this prepvice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods whentheir cares are so har rassing that many of them sink neder the trial. The relation of mother and child is so absorbing treme anxiety for her infant. Should the period of maternity arrive during the summer season; the wear of body and mind is gegerally aggrava ted. Here then, is a necessity for a stimulent to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gener-They are readily applied by ordinary laborers, ally prefer the Bitters to all other invigorators that receive the endorsement of physicians, becatige it is agreeable to the taste as well as certain to give a permanent increase of bodyily

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superanuated invalids, persons of sedentary accupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a tritl.

CAUTION .- We caution the public against using any of the many imitations of counterfeits, but ask for Hosterfen's Celebrated Stomach BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label,
