PRINTER'S PROVERBS-Do not read aloud in the office of the printer, for, peradventure he may have read the article a dozen of times; and he and his workmen are not interested in the buzzing.

It is not well to occupy the editors's chair longer than one hour in the morning, when there are half a dozen waiting for their turn-of course the editor has no use for it.

Read the papers that are before thee, and then fold them properly and replace them ; it is an aonoyance to have them left open and scattered over the floor.

"I should like to take your paper, but can't afford it-I'll step in and read it occasionally," is poor encouragement for the printer. Profitable employment for the time thou loungest about this office would enable thee to pay for a dozen papers.

Pay up and stop the paper, if you don't lik its politics or its morals, and then stop amusement or edification alone.

Never inquire thou of the printer for news, for behold it is his duty at the appointed time to give it unto thee without asking

When thou dost write for the paper never say unto him, "what thinkest thou of my piece ?" for it may be that the truth may offend thee.

It is not fit that thou shouldst ask him who is the author of the article, for his duty requires him to keep such to himsel'.

When thou dost enter a printing office, have a care upon thyself that thou dost not touch the type; for thou mayest cause the printer more trouble than thou thinkest.

Look not at the copy that is in the hands of the compositor, for that is not meet in the sight of the printer.

SIGN OF RANK -The relative rank of officers in the regular army is designated in the fatigue uniform, worn in accordance with the army regulations, in the following manner; Major-General is distinguished by two silver stars on his shoulder straps; Brigadier-General is distinguished by one star; a Colonel has a silver embroidered leaf; a Captain is known by two embroidered bars; First-Lieutenant has but one gold bar on the strap; a Second-Lieutenant, none at all. The cloth of the strap is as follows : Staff Officers, dark blue; Artillery, searlet; Infantry, light or greee; Cavalry, orange color.

BULLY FOR JONATHAN. - A green looking chap from the Green Mountain State went over the line and on to Montreal "to look round aleetle." Going into a large and haudsome dry goods store, his verdancy attareted the attention of the proprietor, who attemted to quiz him, but unhapily having an impediment in his speech, had to give it up, and his head clerk came forward to speak for him. The clerk began, "Mr. Bull wishes to know if you can tell him why Balaam's ass spoke ?" "Wa'l," said Jonathan, "I rather guess

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by com-bustion in Hydrogen. Sanctified by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice The experience of thousands daily proves that no preparation of Iron can be compared with it.

Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all malladies in which it has on the West, having thereon erected a one and a been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples ou the Face,

In cases of General Debility, whether the reand Cresson Rail Road, lands of Peter Kaylor sult of acute disease, or of the continued dimiand others, containing 26 acres and 29 perches (nearly all cleared) having thereon erected a LOG DWELLING HOUSE AND A STABLE. description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotton in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in a

distant land. Some very signal instances of this and every other Pittsburgh or Philadelphia mankind are attested of female Sufferers, emaciated ufacturer's stoves always on hand or procured on victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication Summerhill township, bounded by the Pennsyl- of nervous and dyspeptic aversion to air and

> In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigor ously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases of costiveness without

ever being a gastric purgative or inflicting a disagreeable sensati on.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspepsia innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness.

In unchecked Diarrheea, even when advanced to Dysentary, confirmed emaciating and apparently malignent, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength debiliating cough, and remittent hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculsis, this medicated iron has had far more than the good effect of the most cautiously balanced preparetions of idione without any of their well known liabillities. The attention of females cannot be too confi dently invited to this remedy and restorative, in

RESPECT THE SEX .- It should be the boast of every man that he never put modesty to the blush, nor encouraged modesty to remove her mask. But we fear that there is far too little chivalry in the present day. If young men do not chuck their partners under the chin, they are often guilty of pressing their hands when the dance affors an opportunity. There is a calm dignity which shows that the offence has been noticed, but if a lady stoops to reprove it in words, she forces the culprit to defend himself, and often makes the breach worse. On the other hand, 1 t a woman overlook the slightest familiarity, and fail to show her surprise in her manner, she can be certain that it will be repeated.

EVIL PASSIONS, - Evil passions exert a powerful influence over the understanding; they derange its action, and having the art of selfconcealment, are likely to operate with great fatality when least exposed to the notice of their victim. Of the drunkard, it is often said that he is a poor judge of himself often imagining himself sober when he is not. It is very much so with the passions that prey upon fallen humanity ; they beguile, and deceive, ruin and destroy, without any advertisement of their presence, except in their results. They shrink from the bloze of conscience, and burrow in the heart.
