Our forces slept on the prairie a portion of the night, and about sunrise on Saturday morning drove in the outposts of the enemy, and soon after the attack became general.

Als precisely what its name indicates, for, while pleasant to the taste, it is revivifying exhilerating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world, in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act in perfect accordance with the laws of nature,

tone up the digestive organs, and allay all pervous and other irritation. It is also perfectly exhilerating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegeta-, bles and those thoroughly combining powergenerally can never injure. Such a remedy has long been feit to be a desideratain to give a permanent increase of bodyily tum in the medical world, both by the thor oughly skilled in medical science, and also,

by all who have suffered from debility; or it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the ungarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the

And as it acts directly and persistently upon the biliary system, arousing the Liver to action, promoting in fact, all excretions and secretions of the system, it will infallibly prevent any deliterious con-

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure prietors a source of unalloyed pleasure. It rerifies the blood, and imparts renewed vitality to the nervous systefor giving it that tone and energy indispensable at the restoration of health. It operates upon the domach, liver, and other digestive organs, milaly but powerfully, and soon restores them to condition essential to the

healthy discharge of the functions of nature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuverating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods whentheir cares are so har rassing that many of them sink under the trial. The relation of mother and child is so absorbing ly tender, that the mother, especially if she be ung, is apt to forget her own health in her exreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is gegerally aggravated. Here then, is a necessity for a stimulent to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, beause it is agreeable to the taste as well as cer
