SPECIAL NOTICES.

Almost every body has heard of "Woods Har Restorative "

That the word "Restorative," in this case, is no mishomer, we have the testimony of individuals whose elevated position in the counby, as well as their acknowledged and honwable cha acter as gentlemen, render whatever they publicly assert in the last degree reliable. Several of these have 'tested,' persmally, the hair preparation we are now speaking of and certify to its amazing effleicaof in the most public manner possible. Their certificates can be seen at the proprietor's depet, 312 Broadway, New York, and once cen and properly appreciated, we have no besitation in saying they will impress conletion on the most skeptical mind. Wood's Hair Restorative is, doubtless, the best artiat of its kind ever yet produced.

It does not dye, but gives life, health and bauty to the decaying, falling and dead, restoring, as if by magic, that which was suppesed to be irrecoverably lost. Heads nearly bald, and others nearly white, are daily be ces covered with pimples are rendered as smooth as an infant's, and as blushing as a rose, all by the use of Prof. Wood's Hair estorative For sale at 114 Market Street, and by all Dauggists. - Chicago Times. RENOVATOR.

MIs precisely what its name indicates, for, while pleasant to the taste, it is revivifying exhilerating, and strengthening to the vital powers. It also revivities, reinstates and renews the blood in all its original purity, vulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of alt. So chemically and skillfull combined as to be the most powerful toni and yet so perfectly adapted to as to act in perfect accordance with the laws of nature. and hence soothe the weakest stomach, and tone up the digestive organs, and allay all pervous and other irritation. It is also perselectly exhiberating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining power-

quenently can never injure. Such a emedy has long been feit to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; r it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the ungaroed system open to the attacks of many of the most angerous to which poor humanity is constantly liable. Such, for example, as the following; consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite,

A Faintness, Nervous Irritability, Neuralgia, alpitation of the Heart Melancholy, Hypoondria cases, so fearfully fatal if unatten-Aded to in time, called Female Weakness and Thregularities. Also Liver Derangements or Torpidity, and Liver Complaints, Dis eases of the Kidneys, Scalding or Incontinsence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the shoulders,

predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might ennumerate many more still, but we have space only to say, it will not only cure the debil ity following Chills and Fever, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing, the Liver to action, premoting in fact, all excretions and secretions of the system, it will infallibly prevent any deliterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the diall persons of secentary habits, students, ministers, literary men. And all ladies not

accustomed to much out door exercise should always use it. If they will they will find a ragreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without realth, and health cannot exist while the above irregulatiesc ontinue. Then again. the Cordial is a perfect Mother's Relief.
Taken a month or two before the final trial she will pass the dreadful period with perfect safety. There is no mistake about it, this Cordial is all we claim for it. Mothers, try it! And to you we appeal to detect the it! And to you we appear to detect the illness or decline not only of your daughters before it be too late, but also your sons and husbands, for while the former, from

false delicacy, often goes down to aprema-h r ture grave rather than let their condition known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would, travel in the same downward path, untill foo late to arrest toeir fatal fall. But the mother is always vigilent, and to you we confidently appeal; for we are sure your

never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Land Blood Renovator as the remedy which should be always on hand in time of næd. HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States because the article has attained a reputation heretofore unknown, A few facts upon this point will speak more powerfully than volumeson bare assertions or blazoning puffery. The consumption of Hortetter's Stomach Bitters for the last year amounted to over a half million bottles and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bot tles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sauction, of the most prominent physicians in those sections of the country where the article is best known, who not only recommende the Bitters to their patients, but are ready at all times to give testinonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is des-

tined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsic and like diseases, is to the proprictors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous systefor giving it that tone and energy indispensable st the restoration of health. It operates upon the domach, liver, and other digestive organs, milaly but powerfully, and soon restores them to condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuverating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods whentheir cares are so har rassing that many of them sink under the trial. The relation of mother and child is so absorbing ly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is gegerally aggravated. Here then, is a necessity for a stimulent to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodyily

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhœa, dysentery, indigestion, loss of appetite, and all discases or derangements of the stomach, superanuated invalids, persons of sedentary accupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION .- We caution the public against using any of the many imitations of counterfeits, but ask for Hostriter's CELEBRATED STOMACH BITTERS, and see that each bottle has the words Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
