Just one Word.

We shall not bore our readers by attemp ting to reply to the leader, in the last Alleghanian, for the reason, that it contains nothing worth replying to. Dungeons, handcuffs and traitors , dance through it in all the mazes of metaphorical confusion. They are what Junius calls, 'the gloomy companions of a disturbed imagination; the melancholy madness of poetry, without the inspiration. We have philosophy enough to treat the personalities it contains, with contempt, and will therefore not allow them to draw us into continuing a useless controversy, and writing harsh things concerning those towards whom we entertain no ankind feelings. The article in question, is not so much an attack on us, as an indictment for treason against the Democratic party of this State. It was evident ly penned before the election, and in anticipation of a glorious victory. But the triumph did not come, and therefore the aforesaid arti-

cle looks very bad in print. The most contemptible part of the article is that in which a wholesale attack is made on the members of the Democratic State Convention, which met in Harrisburgh last win ter. They are styled "uncircumcised traitors." Now this is very bold, as well as very impulent People of Cambria - Republicans as well as Democrats-do you believe that R. L. Johnston, Esq., E. R. Donnegan and C. L. Pershing, Esq , the delegates from this county in that convention. are " uncircumcised traitors." As they are not Jews, we admit the first part of the proposition, but we deny that they are traitors .-The Democracy previous to the bombardment of fort Sumter, were anxious to prevent a collision be tween the Northern and Southern States, believing that our national difficulties could be amicably settled by a compromise. Many prominent Republicans felt in the same way, Mr. Barker, dil not Simon Cameron, the man for whom you voted in the Chicago convention, now the present Secretary of War, make a speech in the U. S. Senate, in favor of the Bigler compromise bill? Is he too a traitor? Since the commencement of the civil war they have been as loyal and true to the Union, as the Republicans, and poured out their blood in its defence more freely than the ignorant fanatics, who malign them as secessionists. It is true they have condemned certain acts of Mr. Lincoln (the suspension of the privilege of the writ of habeas corpus for instance,) but they sustained him in the Fremont controversy, when the Republican press, almost unanimously assailed him, and the Alleghanian had not a word to say in his defence. How was that neighbor? Will you be kind enough toinform us.

It is time Republicans should quit charg ing Democrats with being secessionists. The infamous charge had its day, but, reacted fearfully on those who gave currency to. it. It has now sunk into the general mass of " stale and loathed calumnies," and the deputy editor of the Alleghanian cannot restore vitality to it. It is dead! dead! The De mocracy regard this as a war for the preservation of the Union , and while the Admininistration continues to carry it on for this purpose, it will find them among its firmest sup-

Democrats in Roman; Republicans in SMALL CAPITALS; Independent Candidates marked with a *.

Touching them on the Raw.

The Alleghanian, last week, asked why it about twice as many volunteers in the field, as Blair, a Republican county. We, knowing all about it, as an act of neighborly kinduess, answered the question promptly. In doing so we did not intend to hurt the feelings of our friend the deputy But it seem that we have done so. For this of course we are sor ry. With regard to the vote of the volunteers from this county, we think our neighbor has gone into a very large field, with a mighty small hoe. It is admitted we believe that Cambria has 1200 volunteers in the field Of this number, only 164 voted -Both Messrs Kopelin and Hamilton, went to camp Curtin and electioneered among our volunteers-by this means they secured for themselves small majorities. Mr. Kopelin 10 Mr. Hamilton 17. The rest of the Democratic candidates received handsome majori ties. Callan 34, Easly 39, Devine 50, Lattle 32, Delaney 24, Donnegan 26. But as we have already shown that only 164 out of the 1.200 volunteers voted, it is unjust to draw any inferences from the result in favor of any party. But as it stands, it is certainly in our favor. Our neighbor says he has no disposition to question the loyality of the Democrats. How was it last week, when he styled the delegates to the last State convention of our party 'uncircumcised traitors?' A change seems to have come over the spirit of

Friend Murray, of the Ebensburg Democrat, is jubilant over the result of the election in " Little Cambria," as he has good right to be. His villifiers, now the his course has been endorsed by the people should have the good sense to "dry up." Hollidaysburg Standard.

No need of such an advice, friend Traugh The people "shut them up" on Tuesday last week, and if they do happen to optheir mouths during the next six months, n one will be foolish enough to notice their braying-certainly we will not. During the campaign we felt it to be our duty to last them soundly--all of which we did, or least so the people say, and of course the ought to know. Having silenced their two batteries, the Johnstown Tribune and Ebens burg Alleghanian, which played upon us du ring the campaign, we will pay them n further attention, being too old a sportsman t waste our ammunition in shooting Tomtits. We felt it however to be our duty, this week. to attend to the obsequies of a brother prop erly. This we regard as nothing more than an act of friendship. By the way what has become of that mob that was to "rid out" the "Democrat and Sentinel" office? It has Gone glimmering through dreams of things

The Alleghanian says it is but reasonable to infer that the Republicans of this County, who didn't vote at the election, are in the army. If there, why didn't they vote ! Why didn't our neighbor state that all the Democratic candidates, with the exception of Pershing and Buck, had handsome majo-ities in the army vote? There would have been something like fairness in that.

They have a Post in the office of the Clearfield Republican. Hear him,

We regret to learn that Col. Swank, our efficient County Superintendant, while walking along the street of Wilmore one day last week, was struck with a stone by some malicious individual. The cowardly scoundrel should be severely punished.

It is now reduced to a certainty, that Thadeus Banks is elected to the Legislature in Blair County, by a small majority. The Democracy of Blair County have done nobly.

We promised in our last issue, to lay before our readers this week, the epitaph for was, that Cambria, a Democratic county, had the defunct responsible Editor of the Alleghanian; here it is-

11 Buck,

DONNEGAN, Poor House Director -It will be seen the official returns of the election, which we publish elsewhere, that no vote is returned for Poor House Director, in Carrolltown. This was owing to a mistake the election officers of that borough, in making out the election paper. We have examined the Tally paper filed in the Prothonotary's office. and find that the vote was as follows :

DELANY, .

EVANS,

George Delany. Rees S. Lloyd. Delany's majority, ty as follows:-Delany, Lloyd, 1,337.

This would make the total vote in the coun-

Delany's majority, 900. The vote is unimportant as affecting the general result, but we make this statement, for the purpose of putting the Democracy of

Carrolltown right on the record again. The report of the Commissioners appointed to investigate the alleged frauds in supplying clothing &c., to the Pennsylvania volunteers last spring, has at length been published. It was not given to the world until after the election, for the reason that its circulation among the people, would have tended to injure the prospects of certain Republican candidates at the ballot box. Governor Curtin, therefore very prudently kept it back until the fight was over. We will probably make some copious extracts from it bereafter, merely for the purpose of showing what pure and upright public servants the disciples of the famous smeller, John Covode, make Suffice it for the present to say, that the report fully sustains the charges of fraud and speculation made against the State Adminis tration and its employees. The Commissioners pay Governor Curtin, the following left handed compliment.

"It cannot for a moment be supposed that there were not men enough in Pennsylvania, 'whose services could have been commanded. and who, by education and ability, were equal to the occasion that had arisen. The appointment by an Executive, from personal or partizan motives, of incompetent agents to offices of great responsibility. is, 'never more so than in great public emergencies, when the disasters resulting from the ignorance or incompetency of the agents, for whose appointment he is responsible, will inevitably excite suspicion of fraud, and 'return home to the Executive in humiliating | States, and are constantly sent by mail to 'charges of collusion."

The Result in the State.

The result of the election in every portion of the State, as far as we have heard from, far more than realizes our most sanguine expectations. We entertain no doubt that the next House of Representatives will be Democratic by a handsome majority. The victory would be much more complete if the Democracy in several Counties had not fused with the Republicans. We have carried Berks County by an old fashioned majority of 4.000 In Westmoreland, Greene. Fayette, Washington, Bedford, Fulton and Centre we have swept everything. In all of the above named Counties, we have gained largely over the vote for Foster for Governor last year. We have also done remarkably well in Philadelphia. There we have elected almost onr entire City and County ticket, a State Senator. (C. M. Donnovan,) and ten members of the Legislature, We'll done for the City of Brotherly love. We hope the rebuke the Republican leaders have received from the sturdy yeomanry of the Keystone State, will be of use to them. The people still feel that they are sovereigns, and are disposed to talk to their servants, in language not to be misunderstood at the ballot loox.

The rebels are slowly falling back t their old position at Manassas, where we are inclined to think they will make a final stand. The field at Bull Run will probably be the theatre of another bloody and desperate struggle, in a few weeks-days perhaps Gen. M'Clellan has now a powerful and well trained army, and we entertain no apprehensions of a disastrous result this time.

Troops Should Be Hurried Forward .

There should be no cessation of popular efforts to stimulate an increase of the army. It should be remembered that the forces under General Dix, at Baltimore, and Generals Banks and Stone on the Upper Potomac, as well as the army of observation between Washington and General Banks' column and that along the lower Potomac, cannot be made available by General M'Clel'an for active operations in the field. The positions held by these forces are all important to be maintained, and in the event of an engagement immediately in front of Washington the commanding General would not have at his disposal near so many men as is generally supposed. It is only proper that this fact should be known to the public, by whom the number of our forces in the Capital is beheved to be excessively overated It is due alike to General M'Clellan and to our galiant army that this statement should be made. Why cannot the loyal States at once raise an army sufficiently large to crush out the rebellion without delay? Such an army whose overwhelming numbers will overawe the rebels, would by its moral force achieve a bloodless victory grander than any ever won by the sword and far more beneficial in its results to this nation and to the world. Push on the columns.

The Fremont Trouble Before the

There was a Cabinet meeting on Monday afternoon, in which the charges of Col. Blair against Gen. Fremont, and the counter charges of Gen. Fremont against Col. Blair, were under consideration- The principal charges against the commander, says the Tribune's correspondent, are that he sacrificed Gen. Lyon; that he neglected to re-enforce Col. Mulligen when he had the power to do so, and kept Col. Mulligan's messenger, sent to ask aid, waiting three days before he saw him; that his expenditures of money were excessive and corrupt; that one member of his staff had a contract for the purchase of five thousand mules; that he surrounded himself with corrupt and bad men, knowing them to be such , that he was inaccessible to Union men calling on business, to the great damage of the public interests; that he wilfully delayed assuming his duties after be was appointed to his command in Missouri. No conclusion was reached in the case by the Cabinet meeting.

SPECIAL NOTICES.

THE CHEMISTRY OF MEDICINE. - A mong the special delights which so richly repaid our visit to New England, was the inspection it was our privilege to make of Dr. J. C. Ayer & Co's Laboratory, at Lowell. Al though we knew by hear-say that it was large, yet we were surprised when we came into view of its real magnitude, and still more by the extent and complication of its truly immense business. The whole mas sive structure is in fact one vast chemical labaratory, in which the processes of this wonderful art are constantly going on. Medco-chemical science has found that the curative property of any substance exist in some one or more of its component parts Thus the remedial effects opium are due solely to the morphia it contains, although this is but one-eighteenth part of its weight; the other seventeen parts are gum, extractive and inert or offensive matter. Dr. Aver's system separates the medical properties of each substance employed, and we are here shown the processes by which the virtues of each medical agent are chased through the slembics until they come out completely pure at last These concentrated, purified medical properties, or virtues, are finally combined together to produce the remedies which have made themselves a reputation for unrivalled excellence, all over the world. Not only does the Doctor disclaim all secreey in his art, and explain every process and every particular. but he maintains that this is the only process by which the people can be supplied with the 'at all times, a great dereliction from duty, best possible remedies for the treatment of disease. - The Formula by which his remedies are made are published in the medical Journals and have been presented to a large part of the medical Faculty of the United such physicians as apply for them. - Daily Chronicle, San Francisco.

> Prof. Wood's Hair Restorative .- This restorative for making the bair grow, stopping its falling out, and restoring gray bair to its original color, is becoming celebrated. All the quack postrums are giving way before it. Three fourths of the mixtures for restoring and beautifying the hair, do it more injury than good. They burn it up-destroy the life of its roots-make the hair fall off, and produce premature baldness. But Prof. Wood's Restorative may be relied on as containing nothing which can in any manner be injurious to the bair, while its success in accomplishing what it pretends to do has been verified in hundreds of cases. We advise gray heads, and heads getting bald-all who wish to save their wool or obtain a new stock, to get a bottle of Wood's Restorative .-N. Y. Democrat.
