CAMP AT PROSPECT HILL FAIRFAX Co. Va .-Oct. 12, 1861.

Friend ----- I suppose ere this you have and that we have moved into Virginia, or in words, the sacred soil. Yes, we are actu-I'v tramping sacriligiously over that 'soil.'we had a weary march to get into it. Starting with just ten minutes warning, we marched bemeen ten and eleven miles, with all our bag and may seventy pounds-two days provisions, fifty ands of cartridge. &c. &c.

We are now located in a wood on the farm of who commanded our Squadron in the Pacific, from the years 1842 to 1848. The Bucktail Regiment (Kain's rifle regt)it appears routed the occupants of the house, They (the Bucktail.) belong to our brigade, and are a fierce daring st of fellows. Their families they say are all seceshers.' All the regiments had a hand in dan lering the house of furniture, books &c .-s family must have been very rich, by the looks and amount of the articles found. The piano was carried out into a barn, and the soland a gay time thismping on it. All the old Commodore's public and private papers were arried off. There were some very curious old elies among the ruins, not excepting as the sol ders thought, some very good old ive whiskey, shich they pitched into in short order.

I met a tellow panting under a tremendous ad of big books. I asked him to let me see em, and told him I wished him joy, if he was Latin and French scholar. He was actually amjing a load of old Latin, Greek and French when to his quarters, and was in such a hurry, senie one for fun, had raised an alarm the house where there was a crowd picking up whatever by wanted, and said he saw a lot of 'secesh' walry coming toward the house, that he never ry Another fellow was toting along a bawchair. THE RAIL ROAD - Treklaying on the Ebensburg and Cresson rail road, is progressing rapidly, and the work will be completed in about three weeks Then for the first time, will the shrill neigh of the iron horse, startle the slumbering echoes of the hills that surround our mountain village. The day on which he makes his "grand entry," will be a proud one for Ebensburg. It will mark an epoch in her history. She will then commence the march of prosperity with giant

strides, and never stop until she shall have become a magnificent city, of which Carrolltown, Loretto, Munster and Wilmore will be outside wards Then the Democrat and Sential will be issued as a mammoth daily hargage on our backs. SERENADE -On last Thursday evening the Calithumpian band turned out in force and serenaded Judge Taylor, then stopping at Thompson's Mountain House. He returned thanks for the honor conferred on him in few elequent and appropriate remarks. They then proceeded to the residence of R L. PROF. WOOD'S RESTORATIVE CORDIAL AND

RENOVATOR

Als precisely what its name indicates, for, while pleasant to the taste, it is revivifying. exhilerating, and strengthening to the vital

powers. It also revivifies, reinstates and renews the blood in all its original purity. and thus restores and renders the system in-vulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic,

and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also per-

fectly exhilerating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegeta-

bles and those thoroughly combining power-ful tonic and southing properties, and con equenently can never injure. Such a remedy has long been feit to be a desidera-tum in the medical world, both by the thor oughly skilled in medical science, and also by all who have suffered from debility ; or it needs no medical skill or knowledge For it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and hays the ungaroud system open to the attacks of many of the most dangerous to which poor humanity is con-stantly liable. Such, for example, as the 1 following; consumption, Bronchitis, In-4 digestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart Melancholy, Hypocondria cases, so fearfully fatal if unattended to in time, called Female Weakness and Also Liver Derangements or Torpidity, and Liver Complaints, Dis cases of the Kidneys, Scalding or Incontinence of the Urine, or any general derange-Back, Side, and between the shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might ennu merate many more still, but we have space only to say, it will not only cure the debil

ity following Chills and Fever, but prevent all attacks arising from Miasmatic Influences, and cure the discases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the I iver to action, promoting in fact, all excretions and secretions of the system, it will infallibly prevent any deliterious con-

sequences following upon change of climate and water; hence all travelers should have

a bottle with them, and all should take a table spoonful at least before eating. As it prevents costivenes, strengthens the di-gestive organs, it should be in the hands of all persons of secentary habits, students, And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their eauty; for beauty cannot exist withoutihealth, and health cannot exist while the above irregulatiesc ontinne. Then again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial she will pass the dreadful period with perfect safety. There is no mistake about it, this Curdial is all we claim for it. Mothers, try it !- And to you we appeal to detect the illness or decline not only of your daugh-ters before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to apremature grave rather than let their condition , be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would 1 travel in the same downward path, untill too late to arrest toeir fatal fall. But the mother is always vigilent, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and and Blood Renovator as the remedy which should be always on Fand in time of naed. HOSTETTER'S STOMACH BITTERS.

The propri tors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States because the article has attained a reputation the public not to trust her on mp account, as I | beretofore unknown, A few facts upon this point will speak more powerfully than volumeson bare assertions or blazoning puffery. The con-sumption of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles and from its manifest steady increase in times past, it is evident that during the coming year E. J. Mills has just received, and is now the consumption will reach near one million bot to popening out, in a new store room, on Main tles. This immense amount could never have been sold but for the rare medicinal properties contained in the preperation, and the sanction, of the most prominent physicians in those sections of the country where the article is best known. who not only recommende.) the Bitters to their natients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom This is not a temporary popularity, thained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is des-

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other billous complaints have counted their victims by hundreds To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous systefor giving it that tone and energy indispensable st the restoration of health. It operates upon the domach, liver, and other digestive organs, milaly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant neculiarly adapted to comfort Camebria ounty, to me directed, there will be export in it a stimulant peculiarly adapted to comfort Shields, Loretto; J. From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their purpose as an apericut, but I find their benchicisi effects upon the Liver very marked indeed. They have in my prac-tice proved more effectual for the cure of billous complaints than any one remedy I can mention.
