

The Last Letter from Russell.

The London Times of the 28th ult., contains a new Washington letter from Mr. Russell, under date of the 16th, from which direct front attack on the place, unless they are satisfied that the Federalists will not stand teach the latter that with a deep river behind them, crossed by two narrow bridges, discretion and valor would prompt them to a most vigorous resistance. The Confederates have dells in which they lie hid, and an attempt to McClellan. It says; throw troops over to the Maryland side would be far less likely to succeed now, than it entire force of Munson's Hill, numbering be would have been a month ago. The move- tween six and ten thousand, would have been ments of Beauregard in our front seem to captured, had it not been for the leaky manshow that he is taking ground more to his agement of the War Department. One of left, and it is probable that his centre is near- the persons connected with that branch of the ly opposite Smith's force, which is thrown across the Chain Bridge five miles above Washington. The packing up of his tents and baggage along a considerable portion of barely escaped by the leak in the War Dehis front may be for the execution of the va- partment, the plans of General McClellan rious movements connected with the massing has caused such a fright among them of the troops, or they may be interpreted to from Beauregard down, that they have not mean either that there is a plan to make an recovered their equilibrium to the present attempt to get into Maryland as I have in- day and it has been productive of as impordicated, or that the General wishes to be in tant results in the rebel army as the battle a position to manouevre freely, if deceived of Bull Run." by false reports, he supposes General M'Clellan is moving out to attack him. The path of the Confederate Generals is

beset with difficulties, the greater part of which have arisen from the want physically of transport, and morally of enterprise and daring, and in the torpor which came over them after the battle of Manassas. They have now an immense body of armed men to oppose any movements they make, where eight weeks ago they would have met only mutinous mobs. Acting on the larger, are from the outer circle, they are exposed to the operations of the Federalists, who can move on infinitely shorter lines; and, though the Pennsylvanians may think it necessary to begin to fortify Philadelphia, there is at present little likelihood, indeed, of any enemy approaching their commercial centre. The ington almost interruptedly. On all the points where an army could be thrown across there are corps of observation posted, except at Harper's Ferry, where the bridge is de-stroyed, and the Maryland shore easily commanded and reached by the troops, which could be transported thither before an enemy could establish himself in force, The Confederates are suffering much from sickness; but the worst part of the season is yet to come, and the South rings with applications for warm clothing, mediciues, shoes, and similar necessaries for her troops.

The Latest from Washington.

There is, since the stir in the camps during Saturday evening and Sunday, caused by the re-appearance of the Confederates beyoud the Federal lines in Virginia, no movement among the Federal forces, other than those incident to the return to and settling down in their camps again of such troops as had prepared for or started over the river. It is known now that only one company, each of infantry and cavalry appeared on Saturday, which was magnified into a large army. It is said-most probably for an excuse of such a general alarm -that the reason for the belief that the enemy meant mischief, was his bringing siege guns to the front, a thing rarely done except for serious purposes of attack, since they are more exposed to capture than light pieces. The occupation of Miner's Hill mentioned in our specials of last evening, is equivalent to a forward movement of our advance of perhaps two miles. At one time on Sunday morning, Generals M'Clellan, Barry, Stoneman, Fitz John Porter, Butterfield and Morrell-six general offi-cers-were together on that hill. About six hundred sappers and miners have laid bare this hill, to keep it for affording opportunities for concealed recconnoisances of our posit ions on the right, or for a possible attack upon those positions from the cover of dense woods M'Clellan seems to be moving in the most proper and secure manner. He is now unquestionably executing the most difficult of all millitary manoeuvres, changing defensive to offensive movements, and is crowding the rebels to their hole at Manassass, advancing step by step, and preparing to hold the ground as he goes At every move the forests are cut down, r ads opened, telegraph wires laid, battreries planted, "masked" and open, and powerful supporting columns held ready for emergencies. In this way the army is becoming to act as a whole, and subservient to a single will. The troops learn how to move by brigades, and brigade commanders become accustomed to their duty. Our immense and matchless artillery force is ready all the time to do its work with the enemy. So the rebels are kept watching and praying, and their boasted abillity to stand a siege like that of Sebastapool at Manassas is likely soon to be

Confederates firing into Each other. It may be some little consolation to know that if our officers and troops make blunders by firing into each other, that our enemies do just the same thing. A correspondent of the Atlanta Confederacy writing from Camp Bartow, Va., under date of September 28th, partment is satisfied from the official informasoys :- We had not more than got our posi- tion in its possession, that the steamer Sartion before the enemy, as we supposed, here made such an abrupt turn, and the lost off the mouth of the Misslssippi in a bushes that intervened were so thick, as to storm. completely hide them from our view We fired a volley into them, which was quickly dent of the St Louis 'Democrat' furnishes returned and order given to charge upon us. the following items; We fixed bayonets and waited toreceive them. We were about to fire another volley into and reports that Price has made a stand at them when the cry, 'Georgians,' arrested us, Carthage sixty miles from Springfield. and presently we saw the white band on their hats, when we knew them to be our own men. the 4th of November.

WAR NEWS.

Exciting News from Writ county-Governor Pierrout gesterday received a dispatch from Mr. Van Winkle, Fredricsburg, announcing that the rebels had made their appearance in Writ and Climer counties, in great numbers, and were carrying on to the perfect terror of the inhabitants. It was reported that they had attacted Captain Hill's Cavalry company, stationed at Elizabethtown and completely cut them to pieces, and were

threatening Parksburg This dispatch is certainly from a very rewe extract as follows . It is not possible that liable source and is entitled to the fullest the Confederate Generals can be meditating a credit. It is known that an unusual number of rebels in Writ, Climer and Calhoon counties, and many Union men have been murinside their works. But common sense must dered The rebel forces are not natives of the counties named, but are regularly orga-

ni zed bands, doubtlees from Floyd's army. THE New York " Herald of Thursday reports the statement made at the time that the still their screws and float boats in the creeks revelation of a traitor in the War department below the city; but the Potomac flotilla for- caused the rebels to retreat at Munson's Hill ever moves up and down before the watery and saved them from capture by General

"There is not the least doubt but that the Government being the person that knew the plans of the commander of the army on the Potomac. Although the six thousand rebels

THE PANIC IN THE SOUTH-Reports have recently been published concerning the attack which had been made by the Union Navsl fleet upon New Orleans, all of which were undoubtedly untrue, but there are a few facts concerning the Federal movements towards that city which may be counted on as certain. One is that the Government has secured a rendezvons on Ship Island, and one on two for provisions and amunition can be securely placed, and another is that, besides the reg ular blockading force, there are at the entrances of the Mississippi river two United States sloops of war, a large propelor gunboat, the steamer Water Witch, an armed schooner and a pilot boat, all of which are ready active operations. In the vaults of the Potomac is an immense wet ditch, only to be bank of New Orleans, which have been aiding approached at three places for forty miles, to the extent of their power this outrgeous reunless rouds are made over the mountains bellion, there are upwards of twelve milious and masses of rocks covered with forest which of specie, and in the store-houses of that city form its banks from Harper's Ferry to Wash- there eleven thousand bales of cotton, worth one million two bundred thousand dollars. The wholesome effect of the Hatteras expedition, and the reported fitting out of another fleet of the Southern coast, is having its effect among the rebels, and a perfect parie is said to prevail about their safety in case of an attack from a naval force. Already Gov. Brown, of George, has ordered the call of five regiments for the protection of his own State, and I would not be surprised to hear of the recall of other troops from the a my in Virginia for home defence.

> WASHINGTON CITY, Oct. 21 .- The following telegram is from Gen. Stone's division to headquarters here.

> Edward's Ferry Oct. 21. 1861,-This morning at one o'clock, five companies of the fifteenth Massachusetts crossed the river at Harrison's Island, at day break. They had proceeded to within a mile and a half of Lees. burg, without meeting the enemy. They still held on, supported by the remainder of the regiment, and part of the twentieth.

A gallant reconnoissance was made early this morning by Major Mix, of Col. Van Allen's cavairy and Captain Stewart A A G. from Elward's Ferry towards Leesburg, with thirty cavalry. They come on the 14th Mississippi regiment, received ther fire, and returned it with their pistols, falling back in order and bringing in one prisoner. We have possession of the Virginia side of Edward's Ferry.

Additional accounts say that Stone held his own up to 3 o'clock today though his comparatively small force upon the Island are engaged with about 4000 of the enemy.

A subsequent dispatch received late in the afternoon says that Gen. Evans, of the rebel forces, has 7 field pieces masked and about 4000 men. A prisoner who was taken mentions that he has that many and expects rein-

SYRACUSE, Mo , Oct. 20 .- Major Scott of General Sigel's staff, who came from Warsaw yesterday, says that definite and satisfactory information has been received on last Sunday week, and where it is said be would stand and give battle, and continue his retreat towards the Arkansas line.

Hudson. Mo.. Oct. 20 -Messengers say that a scouting party from Cameron, numbering one hundred men, have been taken prisoners by some six hundred rebels at Macabaw Caldwell county. Four hundred federal troops at Cameron were ready to march to the rescue when the train left. Another party of from forty to sixty were in Carroll conunty, and had captured seventeen of Col Morgan's

LEAVENWORTH, Oct. 21 .- The Conservateve of this city, had advices that the town of Humbolt, Kansas, has been totally burned by the secessionists from the Indian country. It is thought probably that the records were destroyed.

Two hundred wagons and one thousand yoke of oxen were sent to Fremont within the

DR MOTT'S CHALYBEATE

PILLS & IRON.

An aperient and stomachic preparation of IRON purified of Oxygen and Carbon by com-bustion in Hydrogen. Sanctified by the highest Medical Authorities, both in Europe and the

United States, and prescribed in their practice The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable

Innoxious in all malladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples ou the Face,

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from Chronic complaints one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotton in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from a protracted travel in distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exbaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to Medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxides, it is vigor ously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative or inflicting a disagrecable sensati on.

It is this latter property, among others which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiceness.

In unchecked Diarrhess, even when advanced to Dysentary, confirmed emaciating and apparently malignent, the effects have been equally decisive and astonishing.

In the local pains, less of flesh and strength debiliating cough, and remittent hectic, which generally indicates Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances. In Scrofulous Tuberculsis, this medicated iron

most cautiously balanced preparetions of idione, without any of their well known liabillities. The attention of females cannot be too confi dently invited to this remedy and restorative, in the caces peculiarly affecting them.

In Rheumatism, both Chronic and inflamatory

has had far more than the good effect of the

-in the latter, however, more decidedly-it has been invariably well reported, both as alleviating pain and reducing the swellings and stifness of the joints and muscles. In Intermittent fevers it must necessarily be

a great remedy and energetic rest rative, and its progress in the new settlements of the West will probably be one of high renown and use-No remedy has ever been discovered in the whole his tory of medicine, which exerts such

prompt, happy and fully restorative effects. Ebensburg Foundry, the subscriber is prepare Good appetitee, complete digestion, rapid acquisition of strength, with an unusual disposiion for active and cheerful exercise, immediate-

Put up in neat flat mettal boxes containing 50 pills, price 50 cents per box; for sale by druggists and dealers. Will be sent free to any adress on receipt of the price. All letters, orders, ect., should be addressed to
