The proceedings of Court from the beginning of the present term, have been so important, that we regard them as not worthy of publication. We will, however, publish next week a statement of the day importance that was done during the present week. A number of important cases are in the list.

The Altoona Tribune rejoiceth not in its new "Power Press," and has all its friends including the editorial faculty to call around and examine the paper. It now looks as neat as a new pin, and furnishes abundant evidence of the taste and prosperity of its Proprietors. It may it waver.

We respectfully inform correspondents, that we cannot undertake to prepare communications for publication. That is a matter they should attend to themselves. Whatever is worth doing at all, is worth doing well. We have but little time for work, and besides in executing it, we are likely to make alterations which will not give satisfaction to our correspondents.

Our friend of the Fulton Democrat is a bold quoter. He reads the following lines written before the "tough boys of the day," and when mail coaches are the order of the day.

Who has travelled earth's dull round, Who's his stages may have been, But why to think how of? here found, Is warmer welcome at an Inn?

Traveler along life's weary way, Must often sigh,

Think let's find his warmest welcome at an Inn.

They call that political murder in the degree. How say you, 'Guilty, or not guilty?'

Monday was the anniversary of St. Patrick, the patron Saint of Ireland, the day of brilliant genius, burning eloquence and peerless beauty, as it would be of liberty, and the tyranny of the haughty Briton. We have always admired the devotion and the spirit which her sons when in a foreign land, still turn to their own "loved Island" as "home," and we firmly believe, there is not one of them who could not truly say to

Thy chains as they rattle, thy blood as it runs, But make them more painfully dear to thy sons, Whose hearts, like the young of the desert, Hail's nest,

Think love in each life drop that flows from thy breast.

We should have noticed last week (and could have done so but for the fact that the paper containing the notice was delayed) the death of John Lloyd, son of Washington and Catharine Lloyd, of Susquehanna township. He was a member of Capt. Paris's Company, in the service of the United States. He died in Kentucky in one of the army hospitals, aged about 18 years. We sincerely sympathize with his parents in their melancholy bereavement. May he rest in peace.

How sleep the brave who sink to rest, With all a country's wishes blest? When spring with dewy fingers cold, Returns to deck their hallowed mould, Then shall all dress a sweeter sod, Than fancy's feet have ever trod; And freedom shall awhile repair To dwell a weeping hermit there.

GODNEY'S LADY'S BOOK.—The April number of this popular magazine far surpasses the preceding ones, in variety of matter, portraits, engravings &c. The frontispiece "Ask for it Nanny," is exquisitely beautiful. The fashion plates are got up with the usual neatness and taste which characterises the whole work; it contains a treatise on dress cutting, an invaluable science to every young lady, and is well worth the subscription itself.

We direct the attention of our readers to the advertisement of Smith's vegetable Coffee in another column. It is the very thing the people want these hard times. It is a far more wholesome beverage than the genuine Rio, and equally pleasant and invigorating. It is for sale wholesale and retail in Johnstown, by John Shoffner, one of nature's own noblemen; a son of Cambria whose success in life among those who have known him from childhood, is the best evidence that could be adduced of the integrity of his heart, and his energy as a business man. We confidently recommend all our readers to purchase at least one package of the vegetable coffee, and give it a trial. After that we know they will be enthusiastic in its praise.

After the careful examination of certain documents we have received, and the authorities bearing on them, we are certain that we owe S. B. McCormick, Esq., at least an explanation. We last week received from him by mail, an article which we supposed from the phrasing of the note accompanying it, he wished us to insert as an editorial. Hence our remarks in the last number of our paper. An editor's ability to write his own editorials, must like the chastity of Cesar's wife, be above suspicion and we therefore regarded his offer, as the Lawyers say, as a cruel insult to the august dignity of G. D. Murray, Esq., editor of the "Democrat and Sentinel." It seems, however, that the article was intended as a communication not as an editorial; which fact having ascertained to a certainty, our scruples are removed. Mac here's our offer; we are sure you will accept it. We have been friends together, shall a light word part us now. You were one of our first acquaintances, when at an early age, we unfortunately allowed yourself to be drawn into the political whirlpool. Then the future appeared to us an Eden, and we thought ourselves surrounded by friends, so true and sincere, that we could almost wish to die on their breasts. Since then, although not old in years, we have become old in experience. Your experience too doubtless does not differ from ours. Therefore it is, that we invite you, to call around and see us during the next picnic season. If we cannot join in the festivities then the order of the day, we can at least write in singing that good old Scotch ballad, in which there is more genuine pathos, than half the songs ever written:

O that I were but young again, We should have been dancing down in you again,

Or tripping it over the lilly white lay, And wen na my heart light, I would do.

We would attract the attention of our readers to the advertisement in another column, of "Dr. Leland's Anti-Rheumatic Band." It meets a general want, and as its efficacy is well recommended, we would advise those suffering from Rheumatism, Gout, Neuralgia, Erysipelas, or the effects of Mercurial poison, to give it a trial.

WOOD'S HAIR RESTORATIVE.—Prof. Wood, the renowned discoverer of the invaluable Hair Restorative, still continues to labor in behalf of the afflicted.

His medicines are universally admitted by the American press to be far superior to all others for causing the hair on the head of the aged, that has been silvered for many years, to grow forth with as much vigor and luxuriance as when blessed with the advantage of youth.

There can be no doubt that it is one of the greatest discoveries in the medical world. It restores permanently gray hair to its original color, and makes it assume the beautiful silky texture, which has been very desirable in all ages of the world. St. Louis Morning Herald.

GREAT CURE.

DR. LELAND'S ANTIRHEUMATIC BAND

IS THE ONLY KNOWN REMEDY FOR Rheumatism, Gout and Neuralgia.

AND A SURE CURE FOR All Mercurial Diseases

It is a conveniently arranged Band, containing a medicated compound, to be worn around the Waist, without injury to the most delicate persons, no change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution and give temporary relief only. By this treatment, the medicinal properties contained in the Band, come in contact with the blood and reaches the disease, through the pores of the skin, effecting in every instance a perfect cure, and restores the parts afflicted to a healthy condition. This band is also a most powerful ANTI-MERCURIAL agent, and will entirely relieve the system from the pernicious effects of mercury. Milder cases are cured in a few days, and we are constantly receiving testimonials of its efficacy in aggravated cases of long standing.

PROF. WOOD'S RESTORATIVE CORDIAL

AND BLOOD REGENERATOR

It precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reconstitutes and renews the blood in all its original purity, and thus restores and renews the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritations. It is also perfectly exhilarating in its effects, and yet it is never followed by insupportable or depressing spirits. It is composed entirely of vegetables and these thoroughly combining powerful tonic and stimulating properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: consumption, Rheumatism, Indigestion, Dyspepsia, Loss of Appetite, Palpitation, Nervous Irritability, Neuralgia, Prolapsus of the Heart Melancholia, Hypochondria, &c., so fearfully fatal if unattended to in time, called Phthisis, Pleurisy and Hemoptoe. Also Liver Derangement, Dropsy, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the shoulders, Impediment to Night Galls, Haemorrhage and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks arising from Miasmatic Influences, and cure the diseases, at once, if already attacked. And as it acts directly and persistently upon the Lymphatic system, arousing the liver to action, promoting in fact, all excretions and secretions of the system, it will infallibly prevent any deleterious consequences following up on change of climate and water; hence all travellers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, military men. And all ladies of accustomed to much outdoor exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ailments which rob them of their beauty; for beauty cannot exist without health, and health cannot exist without the above irregularities untaken. Then again, the Cordial is a perfect Mother's Relief. Taken a month or two before the first trial she will pass the dreadful period with perfect safety. There is no mistake about it, this Cordial is all we desire first. Mothers, try it! And to you we appeal to detect the illness or decline, let only of your daughter's before it be too late, but also your sons and husbands, for while the father, from false delicacy, often goes down to premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, a mill too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will mosteringly point you to Prof. Wood's Restorative Cordial and Blood Regenerator as the remedy which should be always on hand in times of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 411 market street, St. Louis, Mo., and sold by all good Druggists. Price One Dollar per Bottle. FOR SALE BY, H. C. DEVISE, Ebensburg.
