In North Carolina, Charles Henry a warm political friend of Breckinridge, has organized a Free Labor Association and Governor Stanley has gone back to California in disgust. In Nashville we have a regularly organized abolition society; its organ is the same as that of State and Federal Government, and the editor though imported from abroad, is doing more to sustain the glorious administration of President Lincoln than any native born citizen of the State can do. This abolition society, and this abolition nawspaper, although conducted within the fortifications of the city, intradiately is doing no doubt very much to induce the people of Middle Tennersce to cease all further opposition to the wise, gentle, and constitutional rule of our distinguished chief magistrate.

They now know that the war is not to be so conducted as wontonly to deprive them of any portion of their property; and they now have positive proof that southern secessionists and northern copperheads, who charged that the war was to be finally waged against the South as a section, instead of the rebels and their allies, are guilty of false-· hood.
