MAKING FREE.

Some time ago, a member of Congress applied to the Post Office, to know why some of his franks had been charged. The answer was: "We supposed sir, they were not of your writing; the hand is not the same." "Why, not precisely the same; but the truth is I happened to be a little tipsy when I wrote them." "Then sir, will you in future, be so good as to write drunk when you make free."

Some cannot get rid of the notion of private property in truth.

With the right to fence it in, and put up a fence board warning trespassers off the grounds. A provost Marshal out west recently arrested a refugee and seized the gold he had till his innocence was proved. We expect the cause was more in the gift of the gold than in the guilt of the refugee.

U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN GOLD, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until redemption PAID IN GOLD. Interest will be paid in COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds drawn interest from March 1st, by paying the accrued interest in coin—(or in United States notes, or the notes of National Banks, at fifty per cent. for premium,) or receive their drawing interest from the date of subscription and deposit. As these Bonds are EXEMPT FROM MUNICIPAL OR STATE TAXATION,

their value is increased from one to three per cent. per annum, according to the rate of tax levied in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT. INTEREST in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is pledged to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$30 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Federal Debt of the United States on which interest is payable in gold, on the 30th day of March, 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$15,937,125, while the continuous revenue in gold for the current fiscal year, ending June 30th, 1864, has been as far as the rate of over \$100,000,000 million per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.

Investments to the National Banks acting as loan agents were not issued from the United States Treasury until March 20, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia Pa. Second National Bank of Philadelphia Pa. Third National Bank of Philadelphia Pa. AND BY ALL OTHER NATIONAL BANKS which are depositories of Public money, and all RESPECTABLE BANKS & BANKERS throughout the country, (acting as agents of the National Depository Banks) will furnish further information on application and AFFORD EVERY FACILITY TO SUBSCRIBERS.

The peculiar taint of infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous taint is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, rich and fatty habits, the depressing veins, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children into the third and fourth generation; indeed, it seems to be the root of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints, on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous disorders leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

It is compounded from the most effectual antiseptics that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blisters and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of such cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. Its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proved by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

AYER'S CHERRY PECTORAL

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all druggists everywhere.
