DEMOCRAT

The Republican conference, after their protracted labors, have nominated A. A. Barker, Esq., of this Borough, for Congress. We trust that our County will be remembered in the nominating conference which will shortly take place by the Democratic side of the question. We would be much rejoiced to have the two congressional candidates in this county, so that they could watch each other; tho' if the conference decide otherwise, we will submit as gracefully as we can. To be successful, a heavy part of the work will be left for Cambria county to do. Mr. Barker is a strong man and can run well, to this we can personally bear testimony. As to his strength we have seen it tested

Election Returns.

SEMTIMEL

Below you have the election returns in this County. In another column we have spoken of them according to our own opinion. It will show you that the people are alive to their own interest with regard to the elections hereafter. No person told them to vote either for the amendment or against the amendments. But it is to be seen in every Democratic township in the county they voted simultaneously against the amendments, without knowing what any portion of the State was doing on the subject.

They saw that the administration of Lincoln and Curtin was in for them to the death, and that was sufficient for them to take the alarm-because they knew that never was the party that went in for the country. They knew they

Election.

In another part of this paper will be seen the return of the special election of this county. This was not considered a party question in the State, nor did the State Central Committee nor any Democratic newspaper in the State, urge the people to vote on either side of the question. Partisan Abolition papers advocated this measure with extraordinary earnestness, and endeavored to make the vote on it a test of loyalty or treason. The Democratic party began to suspect

To OUR CORRESPONDENTS --- We feel the prosecution of the war. On the 23d of August 1862, in his letter to H. Greely, he says : "My paramount object is to save the Union, and not either save or destroy slavery. If I could save the Union without freeing any slave, I would do it. And if I could save it by freeing some and leaving others alone, I would do that." In the proclamation of freedom issued on the 22, Sept. 1862, he says, "That hereafter as heretofore the war will be prosecuted for the object of practically restoring the constiwish to make our office a house of cor- tutional relations between the United States and each of the States, and the people thereof, in which States the relations is or may be suspended or disturbtime.
