The issues which have been raised between the parties in the progress of the contest have been sharply defined. In tracing them, it will be seen that in each, the judgment of the Democratic party has been sustained by the history of the war. The predictions of the Abolition party have in every instance been falsified by the history of the war. The President and his partisans now demand from the people an endorsement of their repeated and enormous failures. They demand license still to repeat them at the cost of the treasure and blood of our people. Are the people prepared to comply with their demands?

The London Times, in an article upon crime in the English metropolis,

"Since the memory of man, crime has never been more rife, guilt never more sanguinary, vice never more depraved, than in this year of grace 1864."

The same may be said of this country and in both cases it is probably true that the causes may be found in the demoralization attending the gigantic civil contest in the United States. That the great more likely than it is that the commercial disturbances which attend the conflict should not extend to other communities. We know that certain influences created by our war have exerted the liveliest effect in England, as may be seen the distress which has fallen upon the English laboring classes, and also in the financial failures that are just now shaking Great Britain from centre to outskirts. In the same manner it is probable that the general and intense immorality which has been created here in consequence of the war has overflowed the boundaries of this country, and is now pouring its filthy currents across even distant England. The moral disease which has been engendered by our unnatural contest has not only spread all through society in the United States, carrying with it disease and death, but it has spread to other lands, and bids fair to extend its virus through the veins | One copy, one year, of all civilization. The leprosy of war is | Two copies, one year, fastened upon us, and is extending its pollution to all mankind.

No better commentary is needed upon the deadly and malignant disease that has fastened itself upon the vitals of this people than its fearful effects upon us, and taint with pestilential vapors the moral atmosphere of a country separated from us by a broad ocean.

I. S 7-30 LOAN!

The Secretary of the Treasurer gives notice that sub-criptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per aunum--principal and interest both to be paid in lawful money.

These notes will be convertable at the ption of the holder at maturity, into six per cent., gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500 \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any time will be allowed a commission of onequarter of one per cent, which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom it was made.-No deductions for commissions must be made from the deposits.

SPECIAL ADVANTAGE OF THIS LOAN. It is a National Savings Bank, offering a higher rate of interest than any other, and the best security. Any Savings Bank which pays its depositors in U.S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own asets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertible into a Six per cent 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium and before the war the premium on the six per cent. U.S. Stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION. But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per an-

various part of the country. It is believed that no securities offer so great inducements to the lenders as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obli-

gations of the United States. While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loy-

alty and patriotism of the people. Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank, or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded

to the Treasury Department. Subscriptions will be received by the Treasurer of the United States, at Wash ignton, the several assistant Treasurers and designated Depositaries, and by the

FIRST NATIONAL BANK OF ALTOONA. and by all National Banks which are depositaries of public money, and RESPECTABLE BANKS AND BANKERS throughout the country will give further information, and
