

Advantage of Taking a Newspaper.

The following, is a beautiful and touching specimen of poetical ability. It affects the heart and takes the understanding captive. It is, as a man may say, magnificent. Gross exaggeration could not be laid at the door of him, who should call it superb. It convinces while it delights. We recommend it to people who write elegies, as a model of the pathetic sublime. There is a moral to it—a useful lesson, which should be conned over and learned by heart—Old Ex.

I knew two friends as much alike As e'er you saw two stumps; And no phrenologist could find A difference in their bumps.

One took the papers, and his life Was happier than a king's; His children all can read and write, And talk of men and things.

The other took no papers, and While strolling through the wood, A tree fell down upon his crown And hurt him, as it should!

Had he been reading of the news At home like neighbor Jim, I'll bet a cent this accident Would not have befallen him.

A young lady once hinted to a gentleman that her thimble was nearly worn out, and asked what reward she would receive for her industry. He made answer on the following day by sending her a new one, with the following lines:

I send a thimble, for fingers nimble, Which I hope will fit, when you try it; It will last you long, if it's half as strong As the hint you gave me to buy it.

Why is an apple like a pair of skis? An apple like a pair of skis—Deny it if you can; For have they not (pray let me ask) Both caused the fall of man?

A PUZZLING CASE.—A calls B a liar. B brings an action for defamation. A proves in court that B had himself boasted of lying. The counsel for B objected to this evidence that B was a liar, on the ground that if he was not a liar, he was not of course, in the nature of things, whatever he might have said about it; and if he was a liar, why then his own assertion to that effect could not be allowed in evidence. On the other hand A's counsel contended that if B was a liar, why then he was, and A's assertion being true, he must be acquitted at once; but if B was not a liar, then his own assertion that he was one, was itself a lie, and proved A's assertion correct. How was it?

A newspaper correspondent, writing of the Oldtown Indians, says: A young lady of the tribe one day in the cars was asked by a rowdy if she would like to marry a white man. "No," was her ready reply, "because good white men don't want to marry me, and poor scamps like you I wouldn't have."

The rowdy left at the next station.

A new invention in Paris is said to be a pair of musical boots, which have been exhibited to the Emperor. At every step the pressure of the foot produces melody—it may be a waltz, a mazurka, or an operatic air. This arrangement would be extremely convenient for a dancing master. What sort of a tune would it play when you kicked a man down stairs?

An eccentric individual named William Colley, died recently at Lockport in this State. He lived alone, kept a grocery, and willed his property, valued at \$18,000 to his relatives in England. He kept his specie in an old boiler, buried in the cellar. Among the deposits in his private vault were fifty thousand three cent pieces.

The Secretary of War recently received through the mail, a letter containing four large pills. There was nothing in the letter to indicate who the donor of the strange gift was. Perhaps if he had swallowed them, he might have thrown up his position. Why didn't he.

"Ah, Jemmy," said a sympathizing friend to a man who was just too late for the train, "you did not run fast enough."

"Yes, I did," said Jemmy. "I ran fast enough, but I did not start soon enough."

"Pat, if Mr. Jones comes before my return, tell him that I will meet him at two o'clock." "Ay, ay, sir; but what shall I tell him if he don't come?"

Judge Taney was born twelve years before the American Constitution was adopted. He could have said of it as Gratton once said of the Irish nation, that he had leaned over its cradle and followed its hearse.

A schoolmaster, while on his morning walk passed by the door of a neighbor, who was excavating a log for a pig trough. "Why," said the schoolmaster, "Mr. , have you not enough furniture yet?" "Yes," said the man, "enough for my own family, but I expect to board the schoolmaster this winter, and I am making preparations."

MANHOOD: HOW LOST, HOW RESTORED.

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure (without medicine) of SPERMATORRHOEA, or seminal weakness, involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments in Marriage, etc.; also, CONSUMPTION, EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance. Price in a sealed envelope, only six cents.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure, at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. This Lecture should be in the hands of every youth and every man in the land. Sent, under seal, in a plain envelope, to any address, post-paid, on receipt of six cents, or two post stamps. The peculiar tint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an encrusted, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and falls into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, SCROFULA produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous disorders leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weakness, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results, than are healthy constitutions. Hence it tends to shorten and greatly shorten the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the power of Sarsaparilla in alternative power. By its use you may protect yourself from the sufferings and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need no more than assure the public that its quality is kept up to the best ever has been, and that it may be relied on to do all it has ever done. HOSTETTER'S CELEBRATED STOMACH BITTERS.

A pure and wonderful Tonic, corrective and alterative of wonderful efficacy in cases of the STOMACH, LIVER AND BOWELS. Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Impression of Spirits, Constipation, Colic, Intermittent Fevers, Cramps and Spasms, and all Complaints of either Sex, arising from Biliary Weakness whether inherent in the system or produced by special causes. Nothing that is not wholesome, mild and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no harsh botanical element; no fiery excitant; it is a combination of the extracts of various same herbs and plants with the purest and mildest of all diffusive stimulants. It is well to be forewarned against those and, so far as the human system is protected by human means against disease, induced by an unwholesome atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be used as a safeguard. In districts infested with Fever and Ague it is as beneficial as a remedy and a tonic, who resort to it under apprehensions of attack, escape the country; and those who neglect to avail themselves of its protective qualities in advance, are cured by its very brief course of this marvelous medicine. Fever and Ague patients, after being purged with quinine for months in vain, will be saturated with that dangerous addition, not infrequently resorted to health while they are recovering from the use of HOSTETTER'S BITTERS. The weak stomach is rapidly invigorated and the appetite restored by this medicine, and hence it works wonders in cases of Indigestion and Incessant Vomiting. As a general Tonic, it is especially beneficial, as well as upon the best and most invariably relieves the Complaints, accompanied by irregular action of the digestive and absorptive organs. Persons of feeble habit, liable to Nervous Attacks, Losses of Spirits and Painful Laagers, find its tonic and permanent effects from the Bitters. The testimony on this point is most conclusive, and from the sexes. The agency of Bilton-Cole is immediately assigned by a simple dose of the stomach and by occasional resorting to it, the return of the complaint may be prevented. As a General Tonic, HOSTETTER'S BITTERS produce effects which have been fully appreciated. In cases of Constipation, Weakness, Premature Decay and Debility and Diarrhoea arising from Organic weakness, the electric influence, the convalescent stages of all diseases, it acts as a delightful invigorant. With powers of nature are relaxed, it restores and re-establish them. Last, but not least, it is The Only Stimulant being manufactured from pure and innocuous materials, and entirely free from acid elements present, more or less in all the ordinary tonics and stimulants of the day. No family medicine has been so successfully, and it may be truly said, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS. Prepared by HOSTETTER & SMITH, Pittsburgh, Pa. Sold by all Druggists, Grocers and Keepers everywhere. March 9, 1864-ly.
