hard by, ran into the room, and, aided by his servants, lifted up the would-be suicide. The usual restoratives were applied, and when consciousness returned it was found impossible to convince the guest that he was still alive. H- insisted upon it that he was dead. He had gone crazy. He raved : "Now that I am a dead man, I don't care who knows who I was when I was alive. Mme. George Sand has told her history in one of her novels. My name is Alpen Gerbier-Albany is my stage name. I was on the eve of singing a magnificent engagement with the manager of the Itahan Opera, when that rascal Frashini cut me out. I fell sick and lost my voice Fortunately, my pistols did not snap. I did not miss the vital organs, and I am dead. Carry me to Pere la Chaise, if you please." The master of the house sent for the police, and the ill-starred wretch was immediately carried to a lunatic asylum.

#### "Brick" Pomeroy on Skating.

That versatile genius, "Brick" Pomeroy, thus gives his experience in teaching his "Miranda" her first skating lesson. It is true to nature, as many a luckless wight can well attest :

Our experience in the skating line has received an additional hoist in the way of knowledge. Our Miranda wanted to learn to skate and being slightly inclined to gallantry, of course we could not deny the dear creature. So we proceeded to Jones' hardware store and purchased a pair of ladies' skates ; thence, with Mirandi clinging lovingly upon the s'e ve of our best coat, to the smooth ice where mortals were gliding around giddily and with great velocity. Our Mirandi seated herself on the cold crystal, and we feeling humbled, reverently before her. Then came a nervous time indeed. It is singular what difficulties are connected with the putting on to a pair of pretty little feet a pair of skates. We Train West and Through Express East. lingeringly worked and tugged till finally LEAVE CRESSONthe deed was accomplished. Miranda acorning assistance arose nimbly and sat down spreadingly. She gave us to understand that we must not throw her down in that rude manner. We protested to the contrary, and the dispute soon ended in another trial. Miranda clung to us heavily and male so many bows, backward and forward, that we thought the French dancing master had been

around. Miran la finally struck out with

#### THE peculiar taint or infection which we call SCROFULA lurks the constitutions multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein

s that fluid becomes inversi competent to sustain infilie vital forces in their vigorous action, and leaves the system to fall into di-order and decay. The scrofulous

contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending

DEMOGRAT AND

"from parents to children unto the third and fourth generation ;" indeed, it seems to be the rod of Him who says, " I will visit the iniquities of the fathers upon their children." 'the diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health ; with that "life of the flesh " healthy, you cannot have scrofulous disease.

#### Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Lvil or Clandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Lebility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. We know the public have been deceived by many compounds of Sarsay arilla, that promised much and did nothing ; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its su passing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
