Youthful Warriers.

Another of these young heroes is thus referred to by the Reading (Penn.) Jour-

The claims of Missouri to have the youngest soldier is disputed by the Keystone State. Henry Wendensaul, a native of Morgantown, Berks county, Pa., when fourteen years of age, entered the forty-sixth Pennsylvania infantry, and participated in the battles of Winchester, Cedar Mountain, Chancelorsville, Gettysburg, Ressacea, Dallas, Kinnesaw and Peach Tree Creek; was wounded for the first time in the last named fight and reenlisted last winter with the greater part of his regiment. He was seventeen years of age on the first of July last. Never was there a braver young man went forth to battle for our rights than the subject of this sketch. Leaving a comfortable home to brave the hardships of the battlefield, at the age of fourteen years, was enough to daunt more rugged but not braver spirits. At the battle of Cedar Mountain he displayed such heroic courage and daring that he won the admiration of all the officers and men of his regiment. After being pierced by a ball through the hand he could not be persuaded to go to the rear, but kept his place until the battle was over. The War Department could not do a nobler act to commission this young hero, as he has fairly won promotion by his many deeds of valor. He is now at home on furlough, having received a severe wound in front of Atlanta.

A Tallow Spring.

In the town of Windsor, on Mr. James Harvey's land, five miles from Hartford, is a spring, on the waters of which, when ponded, rises a coating of tallow, about three-eights of an inch in thickness. It resembles and will burn like beef or mutton tallow. Near by this spring, on Mr. Halsey's land, lumps of clear tallow have been dug. We have a small specimen of it in our office. It has long been known that sea wax or tallow, as well as oil is found imbedded in the earth.

From the Encyclopædia of Commerce we copy the following account of the same product:

substance, not unlike tallow. It melts when heated, and in cooling assumes the consistence of white cerate. This is most probably the 'bitumen condidum' of Pliny. It is not used as pitch; but it affords a modation East. better light than petroleum, and emits a less disagreeable smell. It is found on Train West and Through Express East. the surface of Baikal Lake in Siberia, at the foot of the mountains of Bucktiari in Persia, and in some other places. - Hartford (Ct.) Times.

VICE PRESIDENT JOHNSON.-It is said that as high as \$500 have been offered the Globe reporters for Andy Johnson's funny speech before the foreign ministers and others, inauguration day. The Senfore, will lose this gem.

It is said that a verbatim report of the speech will appear in the London Times, one of whose correspondents was present on the occasion.

A Republican member of Congress the few for ign ministers present, addressed them thus: "And your folks there with ribbons and gewgaws and laces, I have something to say to your folks too."

Is it a wonder that Sumner declared he would rather have seen Washington cap- Ebensburg April, 17, 1861. tf. tured than have a nation subjected to such a humiliation! "I would rather we had DOUDRETTE! lost a great battle," was the comment of Senator Pomeroy .-- Albany Argus.

There are six churches for colored people in Savannah. The pastors of four of them have always been colored men. Three of the churches are decidedly very in Philadelphia. Manufactory, Gray's Ferthousand dollars each. And all this in a section of country where the Abotitionists have persisted, for years, in telling the Northern people that the religious instruction of the blacks was prohibited as a crime ?"

A certain Judge was obliged to sleep with an Irishman in a crowded hotel, when the following conversation ensued:

"Pat, you would have remained a long time in the old country before you could have slept with a Judge, would you not ?"

a Judge too."

John Rodgers, of New London, Connecticut, has been sentenced to thirty days' imprisonment for starving his horse | Ebenburg Apr.17 1861. to death. His sentence is altogether too light for the offence.

er Extraordinary as it may appear, a piece of brown paper folded and placed betwen the under lip and the gum, will stop bleeding of the nose. So says the exchange.

A prosy member of Corgress having asked a friend, "Have you read my last speech?" he replied, "I hope

The oldest officer now in our army is Adjutant G. Peacock, whose commission beats date of March 21, 1783.

SARSAPARILLA

**SCROFULA AND SCROFULCUS DISEASES.

From Emery Edes, a well-known merchant of
Oxford, Maine.

"I have sold large quantities of your SarsaparILLA, but never yet one bottle which failed of the
desired effect and full satisfaction to those who took
it. As fast as our people try it, they agree there has
been no medicine like it before in our community." Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months." been well for some months.

From Mrs. Jane E. Rice, a well known and much-esteemed lady of Dennisville, Cope May Co., N. J. "My daughter has suffered for a year past with a scrofulous creption, which was very troublesome. Nothing afforded any relief until we tried your SAR-SAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Murray & Co., manufacturers of cuam-elled papers in Nashna, N. H. "I had for several years a very troublesome humor in my face, which grew constantly worse until it distigured my teatures and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without my relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the discretibat I know without any symptoms of the discretibat I know without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

From Dr. Robt. Sawin, Houston St., N. Y.
DR. AYER: I seldom fail to remove Emptions and
Scrofulous Sores by the persevering use of your
SARSAPARILLA, and I have just now cored an attack of Malignant Erysipelas with it. No alterative we possess equals the SARSAPARILLA you have
supplied to the profession as well as to the peop. c. 22 Blood.

Erysipelas - General Debility - Purify the

From J. E. Johnston, Esq., Wakeman, Ohio
"For twelve years I had the yellow Ery-spells on
my right arm, during which time I tried all the celchrated physicians I could reach, and took hundreds
of dollars' worth of medicines. The ulcers were so
bad that the cords became visible, and the doctors
decided that decided that my arm must be amparated. I began taking your Sansapanilla. Took two bettles, and some of your FILLS Together they have cuted me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle. C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in amending it to the afflicted." St. Anthony's Fire, Rose, Salt Rheum,

Scald Head, Sore Eyes. From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania. "Our only child, about three years of age, was attacked by pimples on his forchead. They repidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any applications of the properties of the properties of the properties of the properties. nitrate of silver and other remedies, without any ap-parent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Hav-ing tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the fodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease. From Dr. Hiram Sloat, of St. Louis, Missouri. "I find your Sarsaparilla a more effectual remedy for the secondary symptoms of Syphilis, and for syphilitie disease than any other we possess. The profession are indebted to you for some of the best medicines we have." From A. J. French, M. D., an eminent physician of

Laurence, Mass., who is a prominent member of the Legislature of Massachusetts. "Dr. Aver - My dear Sir: I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can em-

ploy with more certainty of success, where a power-ful alterative is required." Mr. Chas. S. Van Liew, of New Brunsweck, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhoes, Whites, Female Weakness, are generally produced by internal Scrofulous Ulcer-ation, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require. however, in aid of the SARSAPARILLA, the skilful application of local remedies. From the well-known and widely-celebrated Dr.

Jacob Morrill, of Cincinnati.
"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Lencorrhea, Internal Ulceration, and local debility, arising from the scrotulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment." A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhea of long standing, by two bottles of your SARSAPARILLA." Rheumatism, Gout. Liver Complaint, Dys-pepsia Heart Disease, Neura gia,

when caused by Scrofula in the system, are rapidly cured by this Ext. Sarsaparilla.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done. Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by
