

The "Loyal" Road to Wealth.

1. Get a position as an agent in the Freedmen's Bureau. Previous thereto, or subsequently, assume the name of Reverend, or get yourself dubbed that by partial friends.

2. Select a nice place to live in, and RENT YOURSELF a plantation on "easy terms."

3. Contract with yourself for the requisite number of able-bodied freedmen, wages part of the crop of rice, sugar or cotton, when made, you to feed and clothe them meanwhile.

4. Supply them liberally with rations and clothes from the Government stores and at public expense. This will add largely to your profits, though it helps to swell the taxation at the North.

5. When the crop is harvested, sell the whole of it, pocket the proceeds, and leave without paying your laborers. Conscience need not trouble you in this, as you will leave them no worse off than you found them.

6. Return to your native village and assume the airs and snivel of martyrdom; if you can be "a victim of the President's policy," it will pay well in securing you plenty of defenders of the highest political influence.

Having now wealth and position, you are prepared to lecture Democrats on their sins. These lectures, if well spiced with "Copperhead," "disloyal," and like epithets, with now and then a donation to the society for the prevention of the reconstruction of the Union, will so relieve your mind, that you can pass quietly down the vale of life in all the odor of hypocrisy, and finally die the death of the pious, according to the profitable doctrines of the Republican Church.

Unconstitutionality of the Income Tax.

A case is being prepared by a citizen of Springfield, Illinois, to test before the United States Supreme Court the constitutionality of the income tax. This person reports an income of \$52,000, but, protesting against the legality of the tax, declines to pay it, and will when the usual compulsory action is brought, ask an injunction from Judge Davis, of the United States Court, restraining the revenue collectors from acting. By this means the question will ultimately be brought before the highest judicial tribunal for adjudication.

The counsel who is engaged in preparing the movement against the income tax law, makes the following points:

- 1. The Federal Constitution provides (article one, section two, paragraph three) that Representatives and direct taxes shall be apportioned among the several States according to their respective numbers.
2. An income tax is a direct tax.
3. It must therefore be apportioned among the several States according to their numbers.

4. The income tax as now imposed by acts of Congress, is not apportioned among the States according to their numbers, but is laid by the rule of uniformity.

5. The acts of Congress imposing such income tax are, therefore, unconstitutional and void. The tax can not be collected.

SOME boys were playing cards, recently, in a hay mow in the country, during a terrible storm of wind, rain and thunder. When the war of the elements was at its height, a tree near the old barn was struck by lightning, and at the same moment a severe blast of wind upset the upper story of the barn and tumbled the card players to the ground, amid a perfect wreck of boards, beams and rafters. The first thing that was heard above the in of tempest was the voice of one of the boys, as he crawled out of the debris, holding fast to the cards, "Remember, boys, I played the tray for low." That chap will be a Lieutenant General, if we ever have another war.

Two hard things to do: First, to talk of yourself without being vain; second to talk of others without slandering. We don't advise you to try.

The Next Congress.

The N. Y. Commercial Advertiser in an article on who will compose the next Congress, says:—Nine tenths of the present members of the present House of Representatives anxiously desire to be re-elected to the next Congress, and already some of them have been re-nominated. But others have been left "out in the cold," and now meditate, with Senators Clark and Foster, over the uncertainty of politics and the ingratitude of politicians. It is evident that there is some breaking up of the political machinery, and that while "the boys in blue" are making their presence manifest, the people are displaying their discontent with the acts of some of those now occupying high places.

"During the war a man who ventured to question the ability of a representative in Congress or to make any suggestion as to his affiliations with bounty agents or contractors, was denounced as a copperhead, and told that he was an enemy of the Union candidate.—There is no excuse for this political dragging now, and more than one representative can see on the wall, in plain characters, a summons to give way to a better man. Even New England will change her delegation.

Almost Swearing.

As I was walking down street the other day, I met three little boys, on the sidewalk playing marbles.—I watched them with some interest as I passed slowly by them, they seemed so happy and interested in their game; when one of them exclaimed, "by George, that was a lucky hit, wasn't it."

The second boy looked up in much surprise at the words he used. "Why, Charlie," said he, "you are a swearer." "No, I ain't," said Charlie; "that isn't swearing."

"Well, it's almost swearing, at any rate; mother says so; and she tells me not to use such words, for if I do, I shall say real bad words before I think of it."

That mother was right in telling her son not to use such words.—There are many similar words and expressions which boys are much in the habit of using; but as that boy said, it is very easy to go from these to something worse, and finally to profane swearing. No Christian gentleman, and certainly no lady of refinement ever says "By George," or uses any other similar expression. It adds no force to what is said. It only borders on profanity, and shows a lack of true refinement.

The vote in Congress for negro suffrage was as follows: For the measure, all the Republicans.

Against the measure, all the Democrats.

In the Senate of Pennsylvania the vote stood: For the measure, all the Republicans.

Against the measure, all the Democrats.

Look at the record.
