

BE JUST AND FEAR NOT.

Speak then the truth. Let others fence,
And trim their words for pay;
In pleasant similitude of pretence
Let others bask their day.

Guard then the fact; though clouds of night
Down on thy watch-tower stop;
Though thou shouldst see thine hearts de-
light
Borne from thee by the swoop.

Face then the wind. Though safer seem
In shelter to abide,
We were not made to sit in dream;
The safe must first be tried.

Where God has set His thorns about,
Oy not, "The way is plain;"
Respite within for those without,
Is pavel with tail and pain.

One fragment of his blessed word,
In shelter to abide,
Is better than the whole, half heard,
And by thine interests tried.

Show then thy light. If conscience gleam,
Sit not the basel-down;
The smallest spark may send his beam
Of banner, tower, and town.

Wee, wee to him on safety bent,
Who creeps from age to youth,
Failing to grasp his life's intent
Because he fears the truth.

Be true to every inward thought,
And, as thy thoughts, thy speech,
What thou hast not by suffering bought,
Presume thou not to teach.

Hold on, hold on—thou hast the rock;
The foe are on the sand;
Be first world-tempest's ruthless shock
Scatters their shifting strand.

While each wild gust the mist shall clear
We now see darkly through,
And justified at last appear
The true, in Him that's true.

A FOWL COMPARISON.—We have an old friend, called Uncle Jabez. He is a slow-speaking, close-thinking old man, of seventy or thereabouts, and "loyal to the core." He is as fond of telling stories and illustrating his point as was "Old Abe." We asked him the other day what he thought of "Thad. Stevens' reconstruction policy." "See here," was his reply; "a neighbor of mine once had a hen. She was a pretty one, I tell you; a patriotic hen, too. She heard, during the war, that they wanted eggs to make egg-nog for the soldiers, and so she concluded to lay the biggest egg that ever was laid. So she cackled and clucked, and scratched and squeezed, and did lay the biggest egg that ever was seen, but it bustled the hen. That is what ails Thad's Union party. It has laid the Reconstruction egg, but bustled in the effort." —Ohio Statesman.

MANY an unwise parent works hard and lives sparingly all his life for the purpose of leaving enough to give his children a start in the world, as it is called. Setting a young man about with the money left him by his relatives is like tying a bladder under the arms of one who cannot swim; ten chances to one he will lose his bladders and go to the bottom. Teach him to swim, and he will not need the bladders. Give your child a sound education. See to it that his morals are pure, and his mind cultivated, and his whole nature made subservient to the laws which govern man, and you have given what will be of more value than the wealth of the Indies. You have given him a start which no unfortunate can deprive him of. The earlier you teach him to depend on his own resources and the blessings of God, the better.

A Naturalist says:—"Last night while in my park, I observed a green woodpecker alight on the ground a few paces before me, look around to see if it was observed, then lie down and simulate death by stretching himself motionless, and hanging his tongue out as far as possible. He occasionally pulled in his bill. He had selected a place near an ant hill. The ants, thinking him dead, would cover his tongue to devour him; when it was black with ants, he would swallow them, and repeat the trick until his maw could hold no more.

A man painting the cornice of a house in Hartford, Conn., a few days since, fell from the ladder and it was supposed that he was badly hurt. Immediately after the fall a young man ran to the store to inform the painter of the misfortune that had overtaken his workman. The boss listened to the telling description of the fall, and with the ruling passion strong in him, asked anxiously, "Did he spill his paint?"

At a "SPIRITUAL CIRCLE" the other evening, a vinegar lady asked, "Is the spirit of my husband present?" when an answer came, "He is." She asked, "John are you happy without me?" "Very happy." "Where are you John?" "In h—l." It is further related that the vinegar lady threw a lamp at the medium's head which had the effect of solving the problem of squaring the circle.

Let a man live as long as he will, the first thirty years of his life will always seem the longest, and the daily routine of after years, pass like the sounds of a clock, while the hands on the outside and the movements within mark the passage of time to others fill the weights have run down and the pendulum stands still.

THE ladies of Cedar Falls, Iowa, are indignant over a report that a peddler who recently visited that town, selling corsets and fitting them on the bodies of customers, &c., since turned out to be a man dressed in female apparel.

If we would have the kindness of others, we must endure their follies. He who cannot persuade himself to withdraw from society must be content to pay a tribute of his time to his multitude of tyrants.

At what hour did the devil make his appearance in the Garden of Eden?—It must have been some time during the night, for he certainly came after Eve.

Josh Billings remarks, and he knows, "It's dreadful easy to be a fool. A man may be one and not know it."

An uselunge comes to us with a notice: "For the evil effects of intoxicating drinks, see our outside."

Great Improvement in Sewing Machines.
EMPIRE SHUTTLE MACHINE
PATENTED FEB. 14, 1860.
Salesrooms, 1536 Broadway, New York, 250 Washington St., Boston.
THIS MACHINE is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be
Simplicity and Perfection Combined.
It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook muslin, with cotton, linen or silk thread, from the coarsest to the finest number. Having neither CAM or COG WHEEL, and the least possible friction, it runs as smoothly as glass, and is
Especially a Needle Machine.
It requires FIFTY PER CENT. less power to drive it than any other machine in market. A girl twelve years of age can work it steadily, without fatigue or injury to health.
Its strength and wonderful simplicity of construction renders it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.
We respectfully invite all those who may desire to supply themselves with a superior article, to come and examine this UNRIVALLED MACHINE.
But in a more especial manner do we solicit the patronage of
