

An Appeal to the Radicals.

The Washington 'Intelligencer' makes a strong appeal to the Radical leaders "and their advisers, official and unofficial," and forcibly urges that they must see the policy they have inaugurated in New Orleans "is producing the most disastrous consequences in the South."

We would appeal to them, then, by every consideration which may be supposed to be potential with men who love their country, to pause in their mad career. They cannot carry out the policy of subverting the institutions of the Southern States by revolutionary violence without producing the most terrible contests. They cannot arm the negroes of the South, and infuse into their ignorant and brutal nature hatred of the white race without running the hazard of the most cruel and heart-rending convulsions the world has ever witnessed.

Orphans' Court Sale, OF VALUABLE REAL ESTATE. BY virtue of a pluries order of the Orphans' Court of Cambria County, to me directed there will be exposed to public sale, at the Court House, in the borough of Ebensburg, on Wednesday, the 5th day of September, 1866, at 1 o'clock, p. m., the following real estate of which John Noel, late of Washington twp., died seized, to wit:

A certain piece or parcel of land situate in Washington twp., Cambria county, adjoining lands of Thomas McLaugh, Peter McGough, Daniel O'Shelly, Austin Thompson and others, containing one hundred and forty-six acres, more or less, about one hundred acres of which are cleared, having thereon erected a small PLANK HOUSE and a BANK BARN, being premises No. 1, as mentioned and described in the inquisition on the real estate of said deceased.

Register's Notice. NOTICE is hereby given, that the following accounts have been passed and filed in the Register's office, at Ebensburg, and will be presented to the Orphans' Court of Cambria county, for confirmation and allowance, on Monday the Third day of September next, to wit:

Register's Office, Ebensburg, August 9th, 1866. JAMES MURRAY.

JOB WORK OF ALL KINDS DONE AT THIS OFFICE, AT THE SHORTEST NOTICE AND ON REASONABLE PRICES.

Do they stand by that resolve or

not? If they do, how do they reconcile with their revolutionary efforts in New Orleans to overthrow the State Government and establish the negroes as the dominant power? We entreat them to pause before it is too late, before they have gone too far.

RECEIPTS.—We present the following receipts for family use and all others it may concern. They have been collected from the most reliable sources and experienced authors:

To make a mess—Pour a quart of molasses into your wife's bonnet. To keep fish from smelling—Cut off their noses. To make blackberry jam—Put 24 blackberries into a goose quill. To make a cord of wood go a great way—Leave it out of doors. It has been known to go two miles. To cure a felon—Suspend by the neck about an hour.

TALLY!—Passing by a store this forenoon, we saw a lady who wore patent calves. She was just in from the country and wore them bottom end up, giving her legs the appearance of a larger beer glass, minus the handle, as she leaned over the counter. We could have arranged them more artistically, but did not for fear of getting above our business, which is that of editing a newspaper.

The tilting hoops is, after all, no novelty. In 1755 the sex was reproached for making "Their petticoats short, that a loop eight yards wide Might decently show how their garters were tied."

That might have done for 1755, but garters, Lord bless you, the show does not stop there, now.

Great Improvement in Sewing Machines. EMPIRE SHUTTLE MACHINE

PATENTED FEB. 14, 1860. Salesrooms, 1536 Broadway, New York, THIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be "Simply and Perfection Combined."

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook muslin, with cotton, linen or silk thread, from the coarsest to the finest number. Having neither CAM or COG WHEEL, and the least possible friction, it runs as smooth as glass, and is "Emphatically a Noiseless Machine."

It requires FIFTY PER CENT. less power to drive it than any other machine in market. A girl twelve years of age can work it steadily, without fatigue or injury to health. Its strength and wonderful simplicity of construction renders it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to come and examine this UNRIVALLED MACHINE. But in a more especial manner do we solicit the patronage of Merchant Tailors, Coat Makers, Gown Makers, Dress Makers, Hoop Skirt Manufacturers, Vest and Pantaloon Makers, and all those who are engaged in the business of a Tailor.
