From the Boston Traveler. Frightful Murder in Sherborn,

About half-past eight or nine o'clock last night and has gone to her residence at Raimoral, Scotfrightful murder was committed in Sherborn, which for brutality and ferocity finds only a parallel in the Taylor murder, which happened in Natick, just one year ago, about three miles distant from the scene of the present massacre .-The victims are Mr Reuben Cousins, a farmer. and his wife; and the perpetrator of the act is one John Chapman. Mr. Cousins was about seven ty years of age, and his wife is about the same

We have been enabled from various sources to obtain the following particulars: It appears that Chapman called at the house of Mr. Cousins to inform him that his son, a man between twentyave or thirty years of age, had been thrown from his wagon and badly injured, and and required his assistance. Mr. Cousins was in bed, but his wife was sitting up knitting; she went and informed her husband of the circumstances; and he accordingly dressed himself, and in company with Chapman left the house to mature preparations for the assistance of his son. Just as ne got outside the door, Chapman struck him on: the back part of the head with an axe, causing; instant death

His body was found about nine o'clock, lying on the back, with a bridle in one hand, and measure containing oats lying near by. Chapman then returned to the house, where he found Mrs. Cousins sitting in a chair, near a table, continuing her knitting. He struck her on the front part of the head with the axe, creating a frightful gash across the right temple and extendto the eyes The force of the blow knocked her on the floor, where she was found shortly afterwards, but life was not extinct.

Chapman then went to a room on the floor, occupied by an Irish laboring min in the employ of Mr. Cousins, who was asleep at the time. He broke in the door of this room with the axe, and entered the room with the intention of completing the butchery by the death of the But the noise at the door woke the would be interesting to John Chadwick, Broadman, and before Chapman could carry his thoughts into execution the axe was seized by the Irishman, and a desperate struggle between the two ensued. The Irishman finally gained possession of the axe, on promising not to injure Chapman, who immediately field.

During the struggle the Irishman was struck over the head by some implement in the hand of the murder, and severely injured. As it was dark at the time, it was impossible for the Irishman to recognize the person with whom he was struggling. So desperate was the struggle between them, that they passed out of the chamber, through the room where Mr. Cousins lay, thence through another room to the back door of the house, where Chapman yielded up possession of

The are with which the deed was committee was the property of the murdered man; but how it came in possession of Chapman is not account-

The man after dressing, went to the house and gave the alarm; and shortly after persons were rching for the murderer in all directions, but

Drs. S. and A A. Whitney, of Framington, were called upon to strend Mrs. C., who recovered her consciousness and pronounced Chapman to be the assassin. It is the oppinion of the physician that she cannot survive.

Mr. Cousins is said to have been worth be-tween \$10,000 and \$12,000, and it is supposed had at least \$1,000 on hand in his house. highly probable that the murder was committed with the intention of gaining possession of this

The story told by Chapman, that Mr. Cousin's son was injured, was a fabrication, got up, no doubt, for the purpose of enticing him from the touse, the better to accomplish the murder

years of age. At one time he lived with Mr

for Congress in the western District of 1exas, Thursday last, the wife and child of Mr. Henry said, in a speech made by him in Austin, just G. Morse, of North East, while attempting to before the election, that he had traveled over thirty-eight counties in that district, and he ven drowned. The stream was much swollen by the ries, than were to be found in any other. The bodies of the mother and child were recovTricks of the Escay.

When Governor Porter was elected, and dis placed the whig dynasty in 1839, he found a wide spread and truly monstrous scheme of ex-penditure in progress. The North Branch Extenion, the Sinnemahoning extension, the Eric extension, the Gettysburg railroad and the Wisconisco feeder; had all beencommenced under the Bitner Administration To carry out these schemes, it was apparent, would cost many millions of dollars-To abanden them seemed to involve an enof the financial condition of the State at that uncture, it was found that the enormous debt was outstanding, demandable at the Treasury any day. Large damages were subsequently claimed on the abandoned lines, and heavy appropria tions were required to proceed with the Glascow mercantile house, had published a Branch and Free Extentions, which it had been deemed were to complete. But in a short time were more than it could meet, and the credit of the State could command no more money, and thus the last scheme of the Ritner broad had to

be alandoned. The whiers then out of power, coolly witnessed the struggles of our giant commonwealth in the merches which they had thrown about her, and with a deliberation and hardihood, truly malicions, commenced to assail the Demo cratic Administration with unsernaulous violence charging Governor Porter with all the authorship of all the debt and all the calamities we were then suffering, when in fact his main efforts were di rectal towards the payment of the debts which they themselves had contracted. The disaster was in truth unavoidable, when he assumed the reigns of the Government; and yet strange as it may appear, there are members of the whig party who even at this time, have the hardihood revamp and repeat these stale falsehoods, in the face of the official records contradicting them. attempting a similar deception in reference to

Governor Bigler. When Governor Shunk presided over the des tines of the State, there were no new schemes expenditure allowed to come into existence. The affairs of Government were reduced to the quiet management of the finished improvements payment of the interest on the public debt, and he ordinary routine of business in the public
